9867--A

IN ASSEMBLY

February 4, 2010

Introduced by M. of A. ENGLEBRIGHT -- read once and referred to the Committee on Environmental Conservation -- committee discharged, bill amended, ordered reprinted as amended and recommitted to said committee

AN ACT to amend the environmental conservation law, in relation to prohibiting the manufacture, distribution and sale of child pacifiers and beverage containers containing bisphenol A

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Legislative intent. The legislature hereby finds that bisphenol A (BPA), a principal component in the production of polycarbonate rigid plastic, is used in many products intended for use by young children.

According to the U.S. Centers for Disease Control, ninety-three percent of Americans have detectable levels of bisphenol A in their bodies. Research studies have found that babies and toddlers have higher levels of bisphenol A in their bodies than do adults because of greater exposure and reduced capacity to metabolize bisphenol A.

Bisphenol A is a known estrogen-mimicking endocrine disruptor chemical. Endocrine disruption has been linked to a greater number of common ailments, including heart disease, immune system disruption, brain deterioration, type-2 diabetes, cancer and obesity.

The state of New York must act to significantly reduce the harm from bisphenol A, particularly for infants and children, the most vulnerable within our population.

S 2. Article 37 of the environmental conservation law is amended by adding a new title 5 to read as follows:
