AN ACT to amend the public authorities law, in relation to creating the technology employment community hub (TECH) centers program

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Legislative intent. The legislature hereby finds that significant employment opportunities exist in growing fields where complex technologies require advanced skills. Access to modern, efficient facilities and equipment will provide students with the ability to learn about, develop and apply new technologies. Having access to these modern facilities and equipment will provide students with the knowledge and skill required for employment in the ever-expanding high-technology sector or in other sectors of the economy, including manufacturing and service, that utilize advanced, high-technology-related processes. The legislature finds that it is proper and essential for the state to support efforts that will provide students with updated and modern facilities and equipment where skills can be learned in a setting that best matches the workplaces for which the students are being prepared. The legislature also finds and declares that a well-trained and skilled workforce will attract businesses seeking to enhance production, modernize or expand as well as start up or relocate to New York state.

The legislature hereby authorizes the creation of the technology employment community hub (TECH) centers program.

S 2. The public authorities law is amended by adding a new section 3154-a to read as follows:
