AN ACT making appropriations for the support of government

STATE OPERATIONS BUDGET

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. a) The several amounts specified in this chapter for state operations, or so much thereof as shall be sufficient to accomplish the purposes designated by the appropriations, are hereby appropriated and authorized to be paid as hereinafter provided, to the respective public officers and for the several purposes specified.

b) Where applicable, appropriations made by this chapter for expenditures from federal grants for state operations may be allocated for spending from federal grants for any grant period beginning, during, or prior to, the state fiscal year beginning on April 1, 2026.

EXPLANATION--Matter in *italics* (underscored) is new; matter in brackets [-] is old law to be omitted.

LBD12650-08-6

c) The several amounts named herein, or so much thereof as shall be sufficient to accomplish the purpose designated, being the undisbursed and/or unexpended balances of the prior year's appropriations, are hereby reappropriated from the same funds and made available for the same purposes as the prior year's appropriations, unless herein amended, for the fiscal year beginning April 1, 2026. Certain reappropriations in this chapter are shown using abbreviated text, with three leader dots (an ellipsis) followed by three spaces (...) used to indicate where existing law that is being continued is not shown. However, unless a change is clearly indicated by the use of brackets [—] for deletions and underscores for additions, the purposes, amounts, funding source and all other aspects pertinent to each item of appropriation shall be as last appropriated.

For the purpose of complying with the state finance law, the year, chapter and section of the last act reappropriating a former original appropriation or any part thereof is, unless otherwise indicated, chapter 50, section 1, of the laws of 2025.

d) No moneys appropriated by this chapter shall be available for payment until a certificate of approval has been issued by the director of the budget, who shall file such certificate with the department of audit and control, the chairperson of the senate finance committee and the chairperson of the assembly ways and means committee.

e) Notwithstanding any provision contained herein or any other law to the contrary, if, on a cash basis of accounting, a general fund imbalance has or is expected to occur in fiscal year 2026-27, the budget director is hereby authorized to withhold all or some of the amounts appropriated herein, including amounts that are to be paid on specific dates prescribed in law or regulation. Prior to withholding any amounts, the director shall consider whether other means are available for accomplishing the purposes of this provision. Provided further, the director shall consider the impact of any such amounts to be withheld. To the extent the state is obligated to make payment to any individual or entity pursuant to any appropriation contained herein, such obligation shall be reduced commensurate with such payments withheld by the director of the budget.

The following types of appropriations shall be exempt from such withholds pursuant to this provision: (a) public assistance payments for families and individuals and payments for eligible aged, blind and disabled persons related to supplemental social security; (b) any reductions that would violate federal law; (c) payments of debt service and related expenses for which the state is constitutionally obligated to pay debt service or is contractually obligated to pay debt service, subject to an appropriation, including where the state has a contingent contractual obligation; and (d) payments the state is obligated to make pursuant to court orders or judgments.

For purposes of this provision, a general fund imbalance shall occur if any state fiscal year 2026-27 quarterly financial plan update required by subdivision 4 of section 23 of the state finance law reflects, or if at any point during the final quarter of state fiscal year 2026-27 the budget director projects, that estimated general fund receipts and/or estimated general fund disbursements have or will vary from the estimates included in the state fiscal year 2026-27 enacted budget financial plan required by sections 22 and 23 of the state finance law results in a cumulative budget imbalance of $2,000,000,000 or more. Provided however, that such $2,000,000,000 must be calculated without considering any payments withheld in accordance with this

provision or any depletion of the state fiscal year 2026-27 transaction risk reserve accounting mechanism.

"Estimated general fund receipts" shall mean general fund tax receipts, after payment of debt service and miscellaneous receipts estimated by the budget director to be received during state fiscal year 2026-27.

"Estimated general funds disbursements" shall mean general funds disbursements, including transfers, estimated by the budget director to be made during state fiscal year 2026-27.

No later than ten business days following the issuance of any state fiscal year 2026-27 quarterly financial plan update that includes a determination, and/or the date in the final quarter of the state fiscal year 2026-27 upon which the budget director determines, that a general fund imbalance exists, the budget director shall provide notification of payments that will be withheld pursuant to this provision to the president pro tempore of the senate and the speaker of the assembly. Provided, however, the aggregate amount of payments withheld pursuant to this provision shall at no point be in an amount greater than the determined cumulative general fund imbalance. Provided further however, before any payments may be withheld pursuant to this provision, the budget director shall first deplete the $2,000,000,000 transaction risk reserve accounting mechanism to resolve the determined general fund imbalance, as practicable. Such notification will also identify any other means the budget director intends to use to resolve any portion of the general fund imbalance, including but not limited to the aforementioned depletion of the transaction risk reserve and/or any other resources.

Following such budget director notification, the legislature shall have ten business days to prepare and adopt by concurrent resolution its own withhold plan which conforms with the requirements of this provision, and which achieves the same aggregate of payment withholds as the budget director's withhold plan. If after ten business days following the budget director's notification the legislature fails to prepare and adopt its own withhold plan, or if the budget director determines that the withhold plan prepared and adopted by the legislature does not conform with the requirements of this provision, the withholds identified in the budget director's withhold plan will immediately take effect.

Notwithstanding any other provision contained herein or any other provision of law to the contrary, any payments withheld pursuant to this section may be paid in full or in part if a subsequent general fund surplus materializes in state fiscal year 2026-27.

f) Notwithstanding any provision of law to the contrary, for purposes of any appropriation made by this chapter which authorizes spending in an amount net of refunds, rebates, reimbursements, credits, repayments, and/or disallowances, "refunds" shall mean funds received to the state resulting from the overpayment of monies, "rebates" shall mean funds received to the state resulting from a return of a full or partial amount previously paid, as for goods or services, serving as a reduction, discount or rebate to the original payment amount, "reimbursements" shall mean funds received to the state as repayment in an equivalent amount for goods or services, including but not limited to personal service costs, incurred by the state in the first instance being provided to a third party for their benefit and partially or in full financed by such third party, "credit" shall mean monies made available to the state that reduce the amount owed to a third party,

including but not limited to billing errors, rebates, and prior overpayments, "repayment" shall mean the return of monies as pay back for expenses incurred, and "disallowance" shall mean monies made available to the state that were not allowed or accepted officially by the intended recipient, based on a determination the payment is not acceptable and/or valid. When the office of the state comptroller receives any such refunds, rebates, reimbursements, credits, repayments, and/or disallowances, he or she shall credit the refunded, rebated, reimbursed, credited, repaid, and disallowed amount back to the original appropriation and reduce expenditures in the year which such credit is received regardless of the timing of the initial expenditure.

g) Notwithstanding any provision of law to the contrary, subject to the approval of the director of the budget, the federal funds appropriated herein shall be available for the purposes of the stated program, regardless of the federal agency administering such program, and may be expended for all eligible costs consistent with applicable federal laws and regulations, including pursuant to a memorandum of understanding or interagency agreement with other state departments or agencies for the administration or operation of such program.

h) Notwithstanding any provision of law to the contrary, upon enactment of this chapter of the laws of 2026 containing the state operations budget bill for the state fiscal year 2026-2027, all appropriations and reappropriations, contained in chapter 50 of the laws of 2025, which would otherwise lapse by operation of law on March 31, 2027 are hereby repealed.

i) The appropriations contained in this chapter shall be available for the fiscal year beginning on April 1, 2026.

Notwithstanding section 51 of the state finance law and any other provision of law to the contrary, the director of the budget may, upon the advice of the commissioner of children and family services, authorize the transfer or interchange of moneys appropriated herein with any other state operations - general fund appropriation within the office of children and family services except where transfer or interchange of appropriations is prohibited or otherwise restricted by law.

Notwithstanding any other provision of law to the contrary, the director of the budget is authorized to waive the 50 percent local share of youth facility costs required under subdivision 2 of section 529 of the executive law, as necessary, for statements of obligations issued to limit the total amount owed from local social services districts for services provided in a calendar year to no more than $55,000,000. Provided, however, that for the city of New York, a waiver of any reimbursement due to the state above the city of New York's pro-rata share of the $55,000,000 shall only be granted to the extent that the director of the budget has executed an agreement with the city of New York that provides for a total additional

investment from the preceding year in homeless assistance and services in the amount of at least $440,000,000 for the period commencing July 1, 2014 through such date as shall be determined by the director of the budget, of which the city of New York shall directly fund $220,000,000 and shall also fund the remaining $220,000,000 with estimated savings associated with the state's waiver of the local share of youth facility costs authorized herein, and provided that the office of temporary and disability assistance will commence its regular review and audit to make sure the city of New York is in compliance with all applicable state and federal regulations in relation to the appropriate care of the homeless, and provided further that such funds shall not be used to supplant any of the city of New York's funds for such services, as determined by the director of the budget. Such eligible homeless assistance and services shall be limited to the city of New York's costs for living in communities (LINC) 3, LINC 4, and LINC 5 rental assistance programs and/or any other new rental assistance for the homeless program implemented after July 1, 2014, pursuant to a plan submitted by the city of New York and approved by the office of temporary and disability assistance and the director of the budget. The city of New York shall submit monthly reports to the director of the budget and the office of temporary and disability assistance indicating the number of recipients served under each program and the amount spent on each program for the given month, and shall submit a year-end report with cumulative calendar year costs by March 31, 2027.

support enforcement activities including but not necessarily limited to instate bank match services; a paternity media campaign; a medical support unit; payments to hospitals and other eligible entities for obtaining voluntary paternity acknowledgments; joint enforcement teams; remediation of hard-to-collect cases; location services; website services; child support guidelines review; and operation of a centralized support collection unit, including the cost of banking services and an automated voice response system and customer service unit.

Notwithstanding section 153 of the social services law or any other inconsistent provision of law, the office shall reduce reimbursement otherwise payable to social services districts to recover 50 percent of the non-federal share of costs incurred by the office for the operation of a centralized support collection unit, including the cost of banking services and an automated voice response system and customer service unit. Such reduction shall be prorated among districts based on the number of collections and disbursements processed or on an alternative methodology deemed appropriate by the commissioner.

Notwithstanding any inconsistent provision of law, amounts appropriated herein may be used, as matched by federal funds, pursuant to a plan approved by the director of the budget, for the planning, development and operation of an automated system designed to meet the requirements of the family support act of 1988, the personal responsibility and work opportunity reconciliation act of 1996 and to facilitate and improve local districts operations related to child support enforcement.

Notwithstanding any inconsistent provision of the law to the contrary, pursuant to memoranda of understanding and subject to the approval of the director of the budget, a portion of the amount appropriated herein may be available for expenditures of the department of taxation and finance, the department of motor vehicles, and the department of labor for reimbursement of administrative costs of these departments associated with efforts to increase child support collections.

Notwithstanding section 51 of the state finance law and any other provision of law to the contrary, the director of the budget may, upon the advice of the commissioner of the office of temporary and disability assistance, authorize the transfer or interchange of moneys appropriated herein with any other state operations - general fund appropriation within the office of temporary and disability assistance except where transfer or interchange of appropriations is prohibited or otherwise restricted by law.

Notwithstanding any other provision of law to the contrary, the OGS Interchange and Transfer Authority and the IT Interchange and Transfer Authority as defined in the 2025-26 state fiscal year state operations appropriation for the budget division program of the division of the budget, are deemed fully incorporated herein and a part of this appropriation as if fully stated (52200).

Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to

cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in

excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such adjustment to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but need provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the adjustment.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is

necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, and waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision 1 of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year

to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision 4 of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such quarterly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

Notwithstanding any other provision of law, the money hereby appropriated may be increased or decreased by transfer or interchange, with any appropriation of the department of health, and may be increased or decreased by transfer or suballocation between these appropriated amounts and appropriations of the office of mental health, the office for people with developmental disabilities, the office of addiction services and supports, the department of family assistance office of temporary and disability assistance, the department of corrections and community supervision, the state university of New York, the state office for the aging, the office of the medicaid inspector general, the state education department, the office of information technology services, the office of general services, and office of children and family services with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding any inconsistent provision of law to the contrary, funds may be used by the department for outside legal

assistance on issues involving the federal government, the conduct of preadmission screening and annual resident reviews required by the state's medicaid program, computer matching with insurance carriers to insure that medicaid is the payer of last resort, activities related to the management of the pharmacy benefit available under the medicaid program and administrative expenses of other health insurance programs of the department of health.

Notwithstanding any other provision of law to the contrary, the OGS Interchange and Transfer Authority and the IT Interchange and Transfer Authority as defined in the 2026-27 state fiscal year state operations appropriation for the budget division program of the division of the budget, are deemed fully incorporated herein and a part of this appropriation as if fully stated.

The money hereby appropriated is available for payment of liabilities accrued heretofore and hereafter to accrue.

Notwithstanding any provision of law to the contrary, the amounts appropriated herein shall be net of refunds, rebates, reimbursements, credits, repayments, and/or disallowances (29534).

New York State Medical Indemnity Account - 22240

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2026 through March 31, 2027, shall not exceed $36,099,200,000 except as provided below provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases, and beginning April 1, 2013 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines

that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department

of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such adjustment to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but need provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the adjustment.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is

necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, and waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets forth:(a) known and projected department of health medicaid expenditures as described in subdivision 1 of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed

the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation plan implemented pursuant to subdivision 4 of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such quarterly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

Notwithstanding any other provision of law, the money hereby appropriated may be increased or decreased by interchange, with any appropriation of the department of health, and may be increased or decreased by transfer or suballocation between these appropriated amounts and appropriations of the office of mental health, the office for people with developmental disabilities, the office of addiction services and support, the department of family assistance office of temporary and disability assistance, the department of corrections and community supervision, the state university of New York, the state office for the aging, the office of the medicaid inspector general, the state education department, the office of information technology services, the office of general services, and office of children and family services with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding any inconsistent provision of law to the contrary, funds may be used by the department for outside legal assistance on issues involving the federal

government, the conduct of preadmission screening and annual resident reviews required by the state's medicaid program, computer matching with insurance carriers to insure that medicaid is the payer of last resort, activities related to the management of the pharmacy benefit available under the medicaid program and administrative expenses of other health insurance programs of the department of health.

Unemployment Insurance Administration Account - 25901

For services and expenses of administering unemployment insurance programs, job service programs, workforce investment act programs, employability development programs, other miscellaneous programs, and a reserve for unanticipated funding, pursuant to federal grants and contracts. A portion of this appropriation may be used to provide information and advice regarding unemployment insurance benefit appeals and hearing assistance. A portion of this appropriation may be transferred to aid to localities. Notwithstanding any other law to the contrary, a portion of this appropriation may be suballocated or transferred to any state department, agency, or public authority for the purposes stated herein.

Notwithstanding section 135 of the civil service law, the commissioner of the department of labor, subject to approval of the director of the budget, is hereby authorized to grant additional compensation to employees of the department of labor whose positions are funded in whole or in part by the disabled veterans' outreach program specialists and/or local veterans' employment representative grant or grants based on merit as determined pursuant to the performance incentive program provided for in the grant consistent with the terms of the grant and applicable provisions of federal law. The payment of such extra compensation shall be in addition to and shall not be part of an employee's basic annual salary and shall not affect or impair any performance advancement payments, performance awards, longevity payments or other rights or benefits to which an employee may be entitled. Furthermore, any additional compensation payable pursuant to this subdivision shall not be included as compensation for retirement purposes. The amount appropriated herein shall also include any Reed act funds that may be made available to this state under section 903 of the social security act as amended and in accordance

with federal regulations, to be used under the direction of the New York state department of labor subject to approval of the director of the budget to pay the administrative expenses of the employment security program, including the administration of the unemployment insurance law and the administration of state public employment offices.

Notwithstanding any other provision of law to the contrary, the OGS Interchange and Transfer Authority, and the IT Interchange and Transfer Authority as defined in the 2026-27 state fiscal year state operations appropriation for the budget division program of the division of the budget, are deemed fully incorporated herein and a part of this appropriation as if fully stated (34218).

The appropriation made by chapter 53, section 1, of the laws of 2024, to the local assistance account is hereby reappropriated to the state operations account and amended to read:
To provide an energy affordability guarantee to participating low-income residential customers in the EmPower Plus Program administered by the New York State Energy Research and Development Authority who electrify their homes in accordance with program standards required by the authority. The energy affordability guarantee shall provide that any participating residential customer in the EmPower Plus Program shall spend no more than six percent of household income on electric utility bills for the estimated useful life of the related electrification project. The energy affordability guarantee is to remain with the residence that participated in the EmPower Plus Program and can transfer between tenants or owners through the electric corporation's application for service, provided however that the benefits of this program can only be transferred to eligible new tenants or owners. For the purpose of the energy affordability guarantee the Public Service Commission is authorized to establish a cap on a participating residential customer's annual total electric usage by kilowatt hour applicable to the guarantee when establishing such program. Amounts appropriated herein may be disbursed to the utilities, including the Long Island Power Authority, on behalf of eligible electric residential utility customers who participate in the EmPower Plus Program. No more than three percent of the amount appropriated herein may be transferred to state operations to support the proper administration, implementation and evaluation of the energy affordability guarantee. A portion of these funds may be transferred or suballocated to any other state agency, department, public authority or public benefit corporation.(48609)

General Fund
State Purposes Account - 10050

The appropriation made by chapter 50, section 1, of the laws of 2025, is hereby amended and reappropriated to read:

Notwithstanding sections 17 or 19 of the public officers law or any other provision of law to the contrary, for payment or reimbursement of reasonable attorneys' fees and expenses incurred by or on behalf of an employee, as that term is defined in section 17 and/or section 19 of the public officers law, who obtained representation by private counsel in response to any request, summons, command, subpoena, warrant, investigative interview or document request, audit, **complaint, summons, indictment, charge, hearing, trial** or **other** legally compulsive process **until its final resolution, including appeal** (collectively "Process") initiated after January 1, 2025 by the United States government and in which the employee was or is involved as a result of the employee's New York State (State) employment or duties, including where the Process is unrelated to the employee's State employment or duties, but is reasonably likely to have been commenced because of or in response to the employee's State employment or exercise of their duties. When determining whether the Process is reasonably likely to have been commenced because of or in response to the employee's State employment or exercise of their duties, the Office of the Attorney General ("Attorney General") (or, where the employee is an employee of the Attorney General, the Governor) may consider the totality of the circumstances, including, but not limited to, such factors as whether the employee has previously initiated or otherwise participated in or supported a criminal or civil investigation or prosecution of the United States government or a United States government official, whether the employee is currently or was previously involved in an investigation by the United States government or a United States government official, whether the employee previously had interactions with the United States government or a United States government official in the course of their State employment or duties, whether the employee was previously subjected to what could reasonably be construed to constitute discriminatory or retaliatory treatment by the United States government, whether the employee holds or held a position or has taken action that is highly visible to the public or to the United States government, whether there is another readily apparent likely explanation for the Process, and other relevant circumstances. For purposes of this appropriation, United States government shall include any federal government body, agency, court, or other entity, as well as any employee of the federal government acting in their official capacity. Provided however, that reasonable attorneys' fees and expenses incurred by or on behalf of an employee, as that term is defined in section 17 and/or section 19 of the public officers law, shall only be paid upon: (a) notifica-

tion to the Attorney General by the employee or their private counsel within 45 days from the date the need for representation first arises, or, if the employee is legally prohibited from making such notification at the time the need for legal representation first arises, then 45 days from the time the prohibition is removed; (b) receipt by the Attorney General of a certification from the head of the department, commission, division, office or agency of such employee, of the employee's State employment; and (c) certification by the employee and the employee's private counsel to the Attorney General that the employee is involved in the Process as a result of their State employment, as described herein. Where the Process is unrelated to the employee's State employment or duties, but is reasonably likely to have been commenced because of or in response to the employee's State employment or exercise of their duties, the certification by the employee and the employee's private counsel must be reviewed and approved by the Attorney General (or, where the employee is an employee of the Attorney General, the Governor). Upon a determination by the Attorney General that an employee or their private counsel is entitled to payment of such reasonable attorneys' fees and expenses, the Attorney General shall so certify to the Comptroller. Where the employee is an employee of the Attorney General, the Governor shall review the Attorney General's determination and shall co-certify to the Comptroller unless the Governor finds the determination of the Attorney General to be unreasonable. Such reasonable attorneys' fees and expenses shall be paid by the State to the employee or the employee's private counsel from time to time during the pendency of the Process and upon the audit and warrant of the Comptroller. Notwithstanding any provision to the contrary contained herein, neither an employee nor their private counsel shall receive or be reimbursed for reasonable attorneys' fees and expenses pursuant to this appropriation unless the employee and their private counsel certify to the Attorney General that the employee is solely liable for their reasonable attorneys' fees and expenses and that the employee and/or their private counsel shall reimburse the State for all payments of reasonable attorneys' fees and expenses paid pursuant to this appropriation within ninety days of a determination by the Attorney General's Office (and, in the case of an employee of the Attorney General, a determination by the Governor that the Attorney General's determination was reasonable) that (1) if the subject matter of the Process relates to the employee's State employment or duties, the employee has acted outside the scope of their State employment and/or used their State employment to violate any applicable law, regulation, or valid executive order, and/or (2) if the subject matter of the Process is unrelated to the employee's State employment or duties, but is reasonably likely to have been commenced because of or in response to the employee's State employment or exercise of their duties, the employee has violated any applicable law, regulation, or valid executive order, and/or (3) the employee has failed to cooperate with the State in connection with the Process for which the employee or their counsel
