b) Any amounts specified in this chapter for advances for capital projects, or so much thereof as shall be necessary to accomplish the purpose of the appropriations, are appropriated by comprehensive construction programs (hereinafter referred to by the abbreviation CCP), purposes and projects designated by the appropriations as advances from the capital projects fund in accordance with the provisions of sections 40-a and 93 of the state finance law, and are authorized to be paid as hereinafter provided as an advance for a share, part or whole of the cost for such programs, purposes and projects hereinafter specified.

EXPLANATION--Matter in ***italics*** (underscored) is new; matter in brackets [-] is old law to be omitted.

LBD12654-02-6

c) The several amounts specified in this chapter as capital projects - reappropriations, or so much thereof as shall be sufficient to accomplish the purpose of the appropriations, as appropriated by comprehensive construction programs (hereinafter referred to by the abbreviation CCP), purposes, and projects, being the undisbursed and/or unexpended balances of the prior year's appropriations, are reappropriated and unless otherwise amended or repealed in part or total in this chapter shall continue to be available for the same purposes as the prior appropriations or as otherwise amended for the fiscal year beginning April 1, 2026.

The capital projects reappropriations contained in this chapter may be amended by repealing the items set forth in brackets and by adding thereto the underscored material. Certain reappropriations in this chapter are shown using abbreviated text, with three leader dots (an ellipsis) followed by three spaces (...) used to indicate where existing law that is being continued is not shown. However, unless a change is clearly indicated by the use of brackets [–] for deletions and underscores for additions, the purpose, amounts, funding source and all other aspects pertinent to each item of appropriation shall be as last appropriated.

For the purpose of complying with section 25 of the state finance law, the year, chapter and section of the last act reappropriating a former original appropriation or any part thereof is, unless otherwise indicated, chapter 54, section 1, of the laws of 2025.

d) No moneys appropriated by this chapter shall be available for payment until a certificate of approval has been issued by the director of the budget, who shall file such certificate with the department of audit and control, the chairperson of the senate finance committee and the chairperson of the assembly ways and means committee.

e) Notwithstanding any provision contained herein or any other law to the contrary, if, on a cash basis of accounting, a general fund imbalance has or is expected to occur in fiscal year 2026-27, the budget director is hereby authorized to withhold all or some of the amounts appropriated herein, including amounts that are to be paid on specific dates prescribed in law or regulation. Prior to withholding any amounts, the director shall consider whether other means are available for accomplishing the purposes of this provision. Provided further, the director shall consider the impact of any such amounts to be withheld. To the extent the state is obligated to make payment to any individual or entity pursuant to any appropriation contained herein, such obligation shall be reduced commensurate with such payments withheld by the director of the budget.

The following types of appropriations shall be exempt from such withholds pursuant to this provision: (a) public assistance payments for families and individuals and payments for eligible aged, blind and disabled persons related to supplemental social security; (b) any reductions that would violate federal law; (c) payments of debt service and related expenses for which the state is constitutionally obligated to pay debt service or is contractually obligated to pay debt service, subject to an appropriation, including where the state has a contingent contractual obligation; and (d) payments the state is obligated to make pursuant to court orders or judgments.

For purposes of this provision, a general fund imbalance shall occur if any state fiscal year 2026-27 quarterly financial plan update required by subdivision 4 of section 23 of the state finance law reflects, or if at any point during the final quarter of state fiscal

year 2026-27 the budget director projects, that estimated general fund receipts and/or estimated general fund disbursements have or will vary from the estimates included in the state fiscal year 2026-27 enacted budget financial plan required by sections 22 and 23 of the state finance law results in a cumulative budget imbalance of $2,000,000,000 or more. Provided however, that such $2,000,000,000 must be calculated without considering any payments withheld in accordance with this provision or any depletion of the state fiscal year 2026-27 transaction risk reserve accounting mechanism.

"Estimated general fund receipts" shall mean general fund tax receipts, after payment of debt service and miscellaneous receipts estimated by the budget director to be received during state fiscal year 2026-27.

"Estimated general funds disbursements" shall mean general funds disbursements, including transfers, estimated by the budget director to be made during state fiscal year 2026-27.

No later than ten business days following the issuance of any state fiscal year 2026-27 quarterly financial plan update that includes a determination, and/or the date in the final quarter of the state fiscal year 2026-27 upon which the budget director determines, that a general fund imbalance exists, the budget director shall provide notification of payments that will be withheld pursuant to this provision to the president pro tempore of the senate and the speaker of the assembly. Provided, however, the aggregate amount of payments withheld pursuant to this provision shall at no point be in an amount greater than the determined cumulative general fund imbalance. Provided further however, before any payments may be withheld pursuant to this provision, the budget director shall first deplete the $2,000,000,000 transaction risk reserve accounting mechanism to resolve the determined general fund imbalance, as practicable. Such notification will also identify any other means the budget director intends to use to resolve any portion of the general fund imbalance, including but not limited to the aforementioned depletion of the transaction risk reserve and/or any other resources.

Following such budget director notification, the legislature shall have ten business days to prepare and adopt by concurrent resolution its own withhold plan which conforms with the requirements of this provision, and which achieves the same aggregate of payment withholds as the budget director's withhold plan. If after ten business days following the budget director's notification the legislature fails to prepare and adopt its own withhold plan, or if the budget director determines that the withhold plan prepared and adopted by the legislature does not conform with the requirements of this provision, the withholds identified in the budget director's withhold plan will immediately take effect.

Notwithstanding any other provision contained herein or any other provision of law to the contrary, any payments withheld pursuant to this section may be paid in full or in part if a subsequent general fund surplus materializes in state fiscal year 2026-27.

f) The appropriations contained in this chapter shall be available for the fiscal year beginning on April 1, 2026 except as otherwise noted.

For state aid to municipal corporations, private airports as authorized by section 14-h of the transportation law and for payment of the state share of federally aided projects at Stewart and Republic Airports, for the acquisition, construction, reconstruction, and improvement of airport or aviation capital projects, including the acquisition of real property, pursuant to the transportation capital facilities development act of 1967 notwithstanding any inconsistent provisions of law, in accordance with the schedule set forth below. The moneys hereby appropriated are to be made available for payment of state aid to municipal corporations, private airports as authorized by section 14-h of the transportation law and for payment of the state share of federally aided projects at Stewart and Republic Airports, including payment of liabilities incurred prior to April 1, 1991, as defined in the transportation capital facilities development act of 1967. The items shown in the project schedule below shall be for projects with a common purpose and may be interchanged without limitation subject to the approval of the director of the division of the budget.

Prior to requesting approval of a certificate of approval of availability for the moneys hereby appropriated, the commissioner of transportation shall certify that each airport or aviation project progressed under the program categories listed in the schedule below has received federal approval and the federally authorized level of financial assistance.

No funds shall be allocated for projects at Stewart Airport that are directly related to a private facility until the commissioner of transportation enters into a written agreement, subject to the approval of the director of the budget, with such private entity providing that such entity is committed to locate its facilities at Stewart airport and has arranged financing for the costs of construction of such facilities.

Funds shall not be allocated for projects at Stewart airport from this appropriation for infrastructure improvements or other development

purposes not directly related to a private facility until the commissioner of transportation has provided the director of the budget with the following projections to support any such allocation of funds: (a) effect on Stewart airport net operating revenues; (b) effect on new jobs for the state of New York; and (c) effect on net revenues of amortization of state capital expenditures. It is acknowledged that funds provided herein pursuant to the transportation capital facilities development act of 1967 are made available by repealing a portion of an appropriation for the payment of the state's share to the Niagara frontier transportation authority for construction, reconstruction, and improvement of airport or aviation capital projects at Buffalo international airport. It is the intent of the legislature that the repeal of such funds appropriated to the Niagara frontier transportation authority does not void the state's commitment to provide alternative state share funding sources to the authority to complete the airport or aviation capital projects at Buffalo international airport as originally provided by chapter 54, section 1, of the laws of 1982, as amended by chapter 54, section 3, of the laws of 1988.
