CAPITAL PROJECTS BUDGET

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. a) The several amounts specified in this chapter for capital projects, or so much thereof as shall be necessary to accomplish the purpose of the appropriations, are appropriated by comprehensive construction programs (hereinafter referred to by the abbreviation CCP), purposes, and projects designated by the appropriations, and authorized to be made available as hereinafter provided to the respective public officers; such appropriations shall be deemed to provide all costs necessary and pertinent to accomplish the intent of the appropriations and are appropriated in accordance with the provisions of section 93 of the state finance law.

b) Any amounts specified in this chapter for advances for capital projects, or so much thereof as shall be necessary to accomplish the

purpose of the appropriations, are appropriated by comprehensive construction programs (hereinafter referred to by the abbreviation CCP), purposes and projects designated by the appropriations as advances from the capital projects fund in accordance with the provisions of sections 40-a and 93 of the state finance law, and are authorized to be paid as hereinafter provided as an advance for a share, part or whole of the cost for such programs, purposes and projects hereinafter specified.

c) The several amounts specified in this chapter as capital projects - reappropriations, or so much thereof as shall be sufficient to accomplish the purpose of the appropriations, as appropriated by comprehensive construction programs (hereinafter referred to by the abbreviation CCP), purposes, and projects, being the undisbursed and/or unexpended balances of the prior year's appropriations, are reappropriated and unless otherwise amended or repealed in part or total in this chapter shall continue to be available for the same purposes as the prior appropriations or as otherwise amended for the fiscal year beginning April 1, 2025.

The capital projects reappropriations contained in this chapter may be amended by repealing the items set forth in brackets and by adding thereto the underscored material. Certain reappropriations in this chapter are shown using abbreviated text, with three leader dots (an ellipsis) followed by three spaces (...) used to indicate where existing law that is being continued is not shown. However, unless a change is clearly indicated by the use of brackets [-] for deletions and underscores for additions, the purpose, amounts, funding source and all other aspects pertinent to each item of appropriation shall be as last appropriated.

For the purpose of complying with section 25 of the state finance law, the year, chapter and section of the last act reappropriating a former original appropriation or any part thereof is, unless otherwise indicated, chapter 54, section 1, of the laws of 2024.

d) No moneys appropriated by this chapter shall be available for payment until a certificate of approval has been issued by the director of the budget, who shall file such certificate with the department of audit and control, the chairperson of the senate finance committee and the chairperson of the assembly ways and means committee.

e) Notwithstanding any provision contained herein or any other law to the contrary, if, on a cash basis of accounting, a general fund imbalance has or is expected to occur in fiscal year 2025-26, the budget director is hereby authorized to withhold all or some of the amounts appropriated herein, including amounts that are to be paid on specific dates prescribed in law or regulation. Prior to withholding any amounts, the director shall consider whether other means are available for accomplishing the purposes of this provision. Provided further, the director shall consider the impact of any such amounts to be withheld. To the extent the state is obligated to make payment to any individual or entity pursuant to any appropriation contained herein, such obligation shall be reduced commensurate with such payments withheld by the director of the budget.

The following types of appropriations shall be exempt from such withholds pursuant to this provision: (a) public assistance payments for families and individuals and payments for eligible aged, blind and disabled persons related to supplemental social security; (b) any reductions that would violate federal law; (c) payments of debt service and related expenses for which the state is constitutionally obligated to pay debt service or is contractually obligated to pay debt service, subject to an

appropriation, including where the state has a contingent contractual obligation; and (d) payments the state is obligated to make pursuant to court orders or judgments.

For purposes of this provision, a general fund imbalance shall occur if any state fiscal year 2025-26 quarterly financial plan update required by subdivision 4 of section 23 of the state finance law reflects, or if at any point during the final quarter of state fiscal year 2025-26 the budget director projects, that estimated general fund receipts and/or estimated general fund disbursements have or will vary from the estimates included in the state fiscal year 2025-26 enacted budget financial plan required by sections 22 and 23 of the state finance law results in a cumulative budget imbalance of $2,000,000,000 or more. Provided however, that such $2,000,000,000 must be calculated without considering any payments withheld in accordance with this provision or any depletion of the state fiscal year 2025-26 transaction risk reserve accounting mechanism.

"Estimated general fund receipts" shall mean general fund tax receipts, after payment of debt service and miscellaneous receipts estimated by the budget director to be received during state fiscal year 2025-26.

"Estimated general funds disbursements" shall mean general funds disbursements, including transfers, estimated by the budget director to be made during state fiscal year 2025-26.

No later than ten business days following the issuance of any state fiscal year 2025-26 quarterly financial plan update that includes a determination, and/or the date in the final quarter of the state fiscal year 2025-26 upon which the budget director determines, that a general fund imbalance exists, the budget director shall provide notification of payments that will be withheld pursuant to this provision to the president pro tempore of the senate and the speaker of the assembly. Provided, however, the aggregate amount of payments withheld pursuant to this provision shall at no point be in an amount greater than the determined cumulative general fund imbalance. Provided further however, before any payments may be withheld pursuant to this provision, the budget director shall first deplete the $2,000,000,000 transaction risk reserve accounting mechanism to resolve the determined general fund imbalance, as practicable. Such notification will also identify any other means the budget director intends to use to resolve any portion of the general fund imbalance, including but not limited to the aforementioned depletion of the transaction risk reserve and/or any other resources.

Following such budget director notification, the legislature shall have ten business days to prepare and adopt by concurrent resolution its own withhold plan which conforms with the requirements of this provision, and which achieves the same aggregate of payment withholds as the budget director's withhold plan. If after ten business days following the budget director's notification the legislature fails to prepare and adopt its own withhold plan, or if the budget director determines that the withhold plan prepared and adopted by the legislature does not conform with the requirements of this provision, the withholds identified in the budget director's withhold plan will immediately take effect.

Notwithstanding any other provision contained herein or any other provision of law to the contrary, any payments withheld pursuant to this section may be paid in full or in part if a subsequent general fund surplus materializes in state fiscal year 2025-26.

f) The appropriations contained in this chapter shall be available for the fiscal year beginning on April 1, 2025 except as otherwise noted.

By chapter 54, section 1, of the laws of 1991:

For state aid to municipal corporations, private airports as authorized by section 14-h of the transportation law and for payment of the state share of federally aided projects at Stewart and Republic Airports, for the acquisition, construction, reconstruction, and improvement of airport or aviation capital projects, including the acquisition of real property, pursuant to the transportation capital facilities development act of 1967 notwithstanding any inconsistent provisions of law, in accordance with the schedule set forth below. The moneys hereby appropriated are to be made available for payment of state aid to municipal corporations, private airports as authorized by section 14-h of the transportation law and for payment of the state share of federally aided projects at Stewart and Republic Airports, including payment of liabilities incurred prior to April 1, 1991, as defined in the transportation capital facilities development act of 1967. The items shown in the project schedule below shall be for projects with a common purpose and may be interchanged without limitation subject to the approval of the director of the division of the budget.

Prior to requesting approval of a certificate of approval of availability for the moneys hereby appropriated, the commissioner of transportation shall certify that each airport or aviation project progressed under the program categories listed in the schedule below has received federal approval and the federally authorized level of financial assistance.

No funds shall be allocated for projects at Stewart Airport that are directly related to a private facility until the commissioner of transportation enters into a written agreement, subject to the approval of the director of the budget, with such private entity providing that such entity is committed to locate its facilities at Stewart airport and has arranged financing for the costs of construction of such facilities.

Funds shall not be allocated for projects at Stewart airport from this appropriation for infrastructure improvements or other development

purposes not directly related to a private facility until the commissioner of transportation has provided the director of the budget with the following projections to support any such allocation of funds: (a) effect on Stewart airport net operating revenues; (b) effect on new jobs for the state of New York; and (c) effect on net revenues of amortization of state capital expenditures. It is acknowledged that funds provided herein pursuant to the transportation capital facilities development act of 1967 are made available by repealing a portion of an appropriation for the payment of the state's share to the Niagara frontier transportation authority for construction, reconstruction, and improvement of airport or aviation capital projects at Buffalo international airport. It is the intent of the legislature that the repeal of such funds appropriated to the Niagara frontier transportation authority does not void the state's commitment to provide alternative state share funding sources to the authority to complete the airport or aviation capital projects at Buffalo international airport as originally provided by chapter 54, section 1, of the laws of 1982, as amended by chapter 54, section 3, of the laws of 1988. It is further the intent of the legislature that such alternative state share funding be provided to the authority no later than March 31, 1993 (17439114) (53271) .....

Provided that, except in municipalities where a state-funded anti-poverty task force or initiative already exists and is receiving or has received State funding for such purpose, the mayor of each municipality, or in the case of the Bronx, the borough president, will select a not-for-profit organization that provides services in the municipality, or in the case of the Bronx, the borough, to serve as the local coordinator of each such local task force. Provided further that, except in municipalities where a state-funded antipoverty task force or initiative already exists and is receiving or has received funding, each such taskforce shall make efforts to be comprised of, but not limited to, the following members: representatives from municipal, county, and/or state government; individuals who have lived in or currently live in households in poverty; individuals and advocates representing local not-for-profit and community organizations; representatives from local school districts; and representatives from local social services districts. Of the funds appropriated herein, the amount available for each local anti-poverty task force shall be determined based on the number of people in each municipality, or a borough, who are living in poverty as determined by the U.S. Census Bureau's 2010-14 American Community Survey Five-year Estimate provided that each local anti-poverty task force shall be eligible to receive funding in the following amounts: municipalities with fewer than 5,000 individuals in poverty shall each be eligible to receive $500,000; municipalities with between 5,000 and 10,000 individuals in poverty shall each be eligible to receive $1,000,000; municipalities with between 10,000 and 40,000 individuals in poverty shall each be eligible to receive $1,500,000; and municipalities, or a borough, with more than 40,000 individuals in poverty shall each be eligible to receive $2,750,000. Provided further that, with guidence and oversight of the commissioner of the office of temporary and disability assistance, each local anti-poverty task force shall use data to identify high need issues and neighborhoods within the municipality, or in the case of the Bronx, the borough; identify problems that are common in neighborhoods throughout the municipality, or in the case of the Bronx, the borough; receive input from local residents; use data and resident input to select one or more focus areas related to either one or more issues or one or more neighborhoods; and develop a plan for how funding will be targeted toward the identified issues or neighborhoods. Such focus areas may include, but are not limited to childhood poverty and homelessness. Activities included in such plan may include, but are not limited to: providing public assistance recipients opportunities to participate in enhanced work activities that either provide recognized credentialing or enhanced career readiness or job training for better linkage to potential employment; assisting families in poverty through services provided to parents and children; and addressing chronic homelessness or housing insecurity. Such plan must include measurable objectives and a timeframe for completion and shall be submitted for approval to the commissioner of the office of temporary and disability assistance. Of the total amount made available to each anti-poverty task force, the lesser of $300,000 or 20 percent of the total award may be used to carry out planning and administration, provided however, that the amount used for planning and administration may exceed such limitation if such amount is approved by the commissioner of the office of temporary and disability assistance as part of the plan required herein. Upon receiving approval from the commissioner of the office of temporary and disability assistance, each such anti-poverty task force shall commence the second phase of its work, which will support the implementation of the plan developed during the first phase.
