2011-2012 Regular Sessions

IN SENATE

January 18, 2011

Introduced by Sens. McDONALD, DeFRANCISCO, GOLDEN, JOHNSON, LANZA, LARKIN, LAVALLE, MAZIARZ, NOZZOLIO, PARKER -- read twice and ordered printed, and when printed to be committed to the Committee on Finance

AN ACT to amend the executive law, in relation to creating the New York autism spectrum disorders treatment, training and research council and providing for the powers and duties of the council

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Intent. The legislature hereby finds and declares that 2 autism spectrum disorders, hereinafter ASDs, currently affect approxi-3 mately one in 110 children and are considered to be an "urgent public 4 health concern" by the Centers for Disease Control and Prevention.

The legislature further finds that New York state has not responded 5 б sufficiently to this crisis. In its 2010 report, the New York state 7 Interagency Task Force on Autism, hereinafter Task Force, identified 8 five primary needs of the growing population of New York citizens affected by ASDs: coordination of state services, early identification, 9 10 lifelong service delivery, increased dissemination of information, and coordination of research efforts. First, as a collaborative effort of 11 11 12 independent state agencies that each serve individuals impacted by ASDs, the Task Force itself exemplifies the need for coordination of research, 13 treatment and training responsibilities. Second, while the Task Force 14 15 determined that early identification and intervention were crucial to 16 minimizing the symptoms and impact of ASDs, it reported that only eight percent of pediatricians routinely screen for ASDs and approximately 30 17 percent of children with ASDs do not receive the early intervention 18 services provided by the New York State Department of Health. Third, 19 recognizing that the thousands of children diagnosed with ASDs will soon 20 21 age out of the state's educational system, the Task Force noted a dearth 22 of post-secondary training and transitional services. Fourth, the Task 23 Force determined that individuals and families affected by ASDs would

benefit from a centralized clearinghouse of relevant information, 1 and 2 called for the provision of user-friendly access to such information. 3 Finally, the Task Force reported that collaboratively determining the 4 direction of future ASD research would best utilize available public and 5 private funding. 6 The legislature therefore declares that there is a need to expand 7 treatment, training and research with regard to ASDs -- including the 8 enhancement of efforts to improve access to, and the efficacy of, needed 9 services, support and treatment. 10 2. This act shall be known, and may be cited, as the "New York S autism spectrum disorders treatment, training and research act". 11 S 3. The executive law is amended by adding a new article 41-A to read 12 as follows: 13 14 ARTICLE 41-A 15 NEW YORK AUTISM SPECTRUM DISORDERS 16 TREATMENT, TRAINING AND RESEARCH COUNCIL 17 SECTION 908.
