- AN ACT to amend the general business law and the agriculture and markets law, in relation to the labeling of genetically engineered foods

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEM-BLY, DO ENACT AS FOLLOWS:

Section 1. Legislative findings and intent. The legislature finds that 1 New York state consumers have the right to know whether the foods they 2 3 purchase have been produced with genetic engineering so they can make 4 informed purchasing decisions. 5

Further the legislature finds that:

EXPLANATION--Matter in ITALICS (underscored) is new; matter in brackets [] is old law to be omitted.

LBD02306-25-4

(a) Currently, there is no federal law that requires food producers to 1 2 identify whether foods were produced with genetic engineering. At the 3 same time, the United States Food and Drug Administration (FDA) does not 4 require safety studies of such foods; 5 Identification of foods produced with genetic engineering can (b) 6 provide a critical method for tracking effects of consuming foods 7 produced with genetic engineering; (c) More than sixty countries, including key United States trading 8 9 partners, have laws mandating disclosure of genetically engineered 10 foods. Identifying foods produced with genetic engineering will help 11 protect our state's export market; 12 (d) A variety of genetically engineered crops are commercially cultivated and sold in the United States, including corn, canola, sugar 13 14 beets, soybean, cotton, alfalfa, and papaya. It has been estimated that 15 70-80% of packaged grocery products contain some materials derived from these genetically engineered crops; 16 17 (e) Without disclosure, consumers with certain dietary restrictions 18 may unknowingly consume such food in violation of such dietary 19 restrictions; (f) Preserving the identity, quality, and reliability of agricultural 20 21 products is of prime importance to our state's fiscal health; 22 (g) The cultivation of genetically engineered crops can cause serious 23 environmental impacts; 24 (h) It is the intent of this act to ensure that New York consumers and 25 farmers are fully and reliably informed about whether the food and seed 26 they purchase and eat were produced with genetic engineering so they may 27 choose for themselves whether to purchase and eat or use such food and 28 seed; 29 (i) It is the intent of this act only to regulate the labeling of seed, seed stock, and food for human consumption offered for retail sale 30 31 within New York State. 32 S 2. The general business law is amended by adding a new section 391-t 33 to read as follows: 34 S 391-т. GENETICALLY ENGINEERED FOODS; REQUIRED LABELING. 1. DEFI-35 NITIONS.
