screening [and], audiometer tests, AND MAY INCLUDE CHILDHOOD OBESITY AS MEASURED BY BODY MASS INDEX AND WEIGHT STATUS CATEGORY, designed to determine the health status of the child; to inform parents or other persons in parental relation to the child, pupils and teachers of the individual child's health condition subject to federal and state confidentiality laws; to guide parents, children and teachers in procedures for preventing and correcting defects [and], diseases AND CHILDHOOD OBESITY CONDITIONS; to instruct the school personnel in procedures to take in case of accident or illness; to survey and make necessary recommendations concerning the health and safety aspects of school facilities and the provision of health information.

- S 2. Subdivision 1 of section 903 of the education law, as separately amended by section 11 of part B of chapter 58 and chapter 281 of the laws of 2007, is amended to read as follows:
- 1. A health certificate shall be furnished by each student in the public schools upon his or her entrance in such schools and upon his or her entry into the grades prescribed by the commissioner in regulations, provided that such regulations shall require such certificates at least twice during the elementary grades and twice in the secondary grades. An examination and health history of any child may be required by the local school authorities at any time in their discretion to promote the educational interests of such child. Each certificate shall be signed by a duly licensed physician, physician assistant, or nurse practitioner, who is authorized by law to practice in this state, and consistent with any applicable written practice agreement, or by a duly licensed physician, physician assistant, or nurse practitioner, who is authorized to practice in the jurisdiction in which the examination was given, provided that the commissioner has determined that such jurisdiction has standlicensure and practice comparable to those of New York. Each such certificate shall describe the condition of the student when the examination was made, which shall not be more than twelve months prior to the commencement of the school year in which the examination is required, and shall state whether such student is in a fit condition of health to permit his or her attendance at the public schools. INATION MAY INCLUDE A DIABETES RISK ANALYSIS AND, IF NECESSARY, CHILDREN WITH RISK FACTORS FOR TYPE 1 DIABETES, OR RISK FACTORS ASSOCIATED TYPE 2 DIABETES SUCH AS OBESITY, A FAMILY HISTORY OF TYPE 2 DIABETES, OR OTHER FACTORS CONSISTENT WITH INCREASED RISK MAY ALSO BE TESTED FOR DIABETES. Each such certificate shall also state the student's body mass index (BMI) and weight status category. For purposes of this is computed as the weight in kilograms divided by the square of height in meters or the weight in pounds divided by the square of height in inches multiplied by a conversion factor of 703. Weight status categories for children and adolescents shall be as defined by the commissioner of health. In all school districts such physician, physician assistant or nurse practitioner shall determine whether a one-time test for sickle cell anemia is necessary or desirable and he or she conduct such a test and the certificate shall state the results.
- S 3. Subdivisions 4 and 5 of section 918 of the education law, as added by chapter 493 of the laws of 2004, are amended to read as follows:
- 4. The committee is encouraged to study AND MAKE RECOMMENDATIONS ON all facets of the current nutritional policies of the district including, but not limited to, the goals of the district to promote health and proper nutrition, REDUCE THE INCIDENCE OF CHILDHOOD OBESITY, vending machine sales, menu criteria, educational curriculum teaching healthy
