I N S E N A T E

May 16, 2013

Introduced by Sen. BALL -- read twice and ordered printed, and when
printed to be committed to the Committee on Finance

AN ACT to amend the executive law, in relation to authorizing the establishment and operation of public-private partnerships for the construction and operation of public infrastructure

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Legislative intent. The legislature hereby finds that there
2 is a public need for timely development and/or operation of public
3 infrastructure within the state that address the needs identified by the
4 state and its political subdivisions by relieving the burden of real
5 property taxation, creating private sector jobs, attracting global
6 economic development, creating opportunities for small, minority-owned
7 and women-owned businesses, enhancing economic efficiency and that such
8 public need may not be wholly satisfied by existing methods of procure-
9 ment and operation in which qualifying public infrastructure is devel-
10 oped and/or operated. Authorizing private entities to develop and/or
11 operate one or more public infrastructure may result in the development
12 and/or operation of such infrastructure to the public in a more timely,
13 more efficient, or less costly fashion, thereby serving the public safe-
14 ty and welfare.

15 It is the intent of this act, among other things, to encourage invest-
16 ment in the state by private entities that facilitates the development
17 and operation of public infrastructure. Accordingly, public and private
18 entities may have the greatest possible flexibility in contracting with
19 each other for the provision of the governmental services which are the
20 subject of this act.

21 S 2. The executive law is amended by adding a new article 14-A to read
22 as follows:

EXPLANATION--Matter in *ITALICS* (underscored) is new; matter in brackets
[] is old law to be omitted.
