Introduced by Sen. O'BRIEN -- read twice and ordered printed, and when printed to be committed to the Committee on Finance

AN ACT to amend the executive law, in relation to the creation of an animal cruelty and animal fighting database

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Legislative findings. Studies in psychology, sociology and criminology have demonstrated that violent offenders frequently have childhood and adolescent histories of serious and repeated animal cruelty. The Federal Bureau of Investigation has recognized this connection since the 1970s when its analysis of the lives of serial killers suggested that most had killed or tortured animals during their life. Other research has shown consistent patterns of animal cruelty among perpetrators of more common forms of violence, including child abuse, spouse abuse, and elder abuse, leading the American Psychiatric Association to consider animal cruelty as one of the diagnostic criteria of conduct disorder.
