Introduced by M. of A. KATZ, FINCH, SALADINO, OAKS, RAIA -- read once  
and referred to the Committee on Governmental Operations

AN ACT to amend the executive law, in relation to establishing a high-tech employment and training program within the New York state foundation for science, technology and innovation

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1     Section 1. Legislative findings and declaration. The legislature here-  
2 by finds and declares that an appropriately skilled workforce is neces-  
3 sary to ensure the creation and growth of high technology businesses in  
4 New York. The introduction of new technologies in business and industry  
5 is an ongoing, dynamic process which necessitates a system of training  
6 and education that is responsive to constantly changing skill require-  
7 ments.  
8     Further, the legislature finds that technology has also changed the  
9 manner in which training and education can be provided within a firm.  
10 While the use of sophisticated computer based training is not new, the  
11 cost of development of such applications results in limited access.  
12 Using technology to create a more effective and cost efficient delivery  
13 system for training and education services for firms in the state is  
14 critical to foster the young, developing high-tech sector in the state  
15 of New York.  
16     S 2. The executive law is amended by adding a new section 209-u to  
17 read as follows:
