2013-2014 Regular Sessions

IN SENATE

March 7, 2013

- Introduced by Sens. GOLDEN, BALL, BONACIC, GALLIVAN, GRIFFO, GRISANTI, MAZIARZ, RANZENHOFER, SEWARD, VALESKY, ZELDIN -- read twice and ordered printed, and when printed to be committed to the Committee on Corporations, Authorities and Commissions
- AN ACT to amend the New York state urban development corporation act, in relation to the New York state small business incubator support act

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Legislative findings and intent. The legislature hereby 1 2 finds and declares that the path to prosperity and the economic recovery 3 of New York state lies in job creation and in broadening economic choice 4 and career opportunities for all citizens of this state, and that achieving these goals can be accelerated by the enhancement of the 5 б state's innovation and entrepreneurial spirit via the growth and devel-7 opment of business incubator programs that provide entrepreneurial, 8 economic, and business development support and resources.

9 The legislature further finds that the goal and purpose of business 10 incubation programs that include physical space or are virtual incubation programs is to develop financially stable successful firms by 11 providing a comprehensive array of entrepreneurial supports, resources, 12 services, including management guidance, technical assistance, 13 and consulting, mentoring, education, networking opportunities, access to 14 15 capital and markets, tailored to the individual needs of the business 16 entities being incubated.

The legislature further finds that the concept of business incubation and business development programs originated in New York in 1959 when Joseph Mancuso opened the Batavia Industrial Center in a Batavia factory building, a concept that has since spread from New York throughout the country and the world, to the extent that there are now an estimated 1,400 incubators in North America, and 7,000 in the world.

EXPLANATION--Matter in ITALICS (underscored) is new; matter in brackets
[] is old law to be omitted.

1 The legislature further finds that it has been conclusively demon-2 strated that firms originating and graduating from a New York state 3 incubator program have a markedly better chance of remaining in and 4 expanding employment opportunities in New York state compared to firms that begin outside an incubator environment, that entrepreneurial coun-5 6 seling and mentoring has a significant positive effect on firm growth, 7 development, and sustainability, and that research has shown that the 8 success of business incubation programs and the resulting intensifica-9 tion of the entrepreneurial ethos in an area can often rise above 10 regional economic conditions, so long as high level in-incubator factors are maintained, such as qualified staff, program comprehensiveness 11 and 12 integration, adherence to best practices, the extent of participation by client entrepreneurs in the program, and the vitality and composition of 13 14 the advisory board.

The legislature further finds that these important programs are supported by a mixed variety of local sponsorships, public and private foundation grants, rental and program fee revenues, and other sources of funds, many of them short-term and unstable, and that such instability can act as a barrier that stifles the ability of the business incubation program to meet its goals and achieve maximum effectiveness in job creation and economic impact.

22 The legislature further declares that any incubator support program to successful shall require metrics of incubators that requires that in 23 be 24 order to retain designation, such incubators must provide evidence for 25 evaluation of the relative success of their programs, allow for compar-26 ison of program effectiveness to other programs similarly composed, targeted, and situated, provide evidence of program and service quality, 27 28 demonstrate the value provided to clients, demonstrate continued implementation of best practices, and assure that the program continues to 29 30 meet the requirements for designation.

The legislature therefore declares that it is in every respect appropriate public policy to provide support for incubators in New York, as a means of increasing economic opportunity and choice to the citizens of this state, maintaining high standards for incubation programs, and building and expanding the economy of this state.

36 S 2. Section 1 of chapter 174 of the laws of 1968, constituting the 37 New York state urban development corporation act, is amended by adding a 38 new section 16-v to read as follows:
