5536--A

2013-2014 Regular Sessions

IN SENATE

May 16, 2013

Introduced by Sen. MAZIARZ -- read twice and ordered printed, and when printed to be committed to the Committee on Energy and Telecommunications -- committee discharged, bill amended, ordered reprinted as amended and recommitted to said committee

AN ACT to amend the public service law, the public buildings law, the real property tax law and the public authorities law, in relation to expansion of natural gas service

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Legislative intent. The legislature hereby finds that the extension of natural gas lines within the state has multiple benefits to New Yorkers, including a reduction in pollution with the resultant health benefits, increased economic activity with the creation of jobs through improved energy infrastructure, energy cost savings to consumers, and improved energy efficiency.

Natural gas is the cleanest burning fossil fuel. It has a positive impact on the environment by cutting emissions of particulate matter. These emissions have been linked to heart and lung conditions and contribute to asthma rates, particularly in urban areas.

Natural gas prices are at a low point and will result in increased disposable income for consumers and improved operational efficiency for business. Extending the state's natural gas line infrastructure will create a positive business environment for manufacturers and other businesses that are looking to stabilize their energy costs. Natural gas line extensions will spur economic development in the business sector and create jobs.

This legislation will have the effect of protecting the state's natural resources, including protecting its atmosphere from pollution, while at the same time stimulating the development of new jobs and the economy.

EXPLANATION--Matter in ITALICS (underscored) is new; matter in brackets [ ] is old law to be omitted.
