AN ACT to amend the financial services law, in relation to financial literacy education

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Legislative intent. In order to contribute to the state's
2 and the nation's future financial stability and increase upward economic
3 mobility, it is the policy of the New York state legislature to promote
4 financial capability among young Americans and encourage building the
5 financial capability of young people at an early stage in schools, fami-

9 positive and productive role money can play in their lives. Having a
10 basic understanding of money management from an early age will make our
11 young people better equipped to tackle more complex financial decisions

13 ing higher education and saving for retirement can have lasting conse-
14 quences for financial security.
15 Strengthening the financial capability of our young people is an
16 investment in our state's and our nation's economic prosperity.
17 Financial capability is the capacity, based on knowledge, skills, and
18 access, to manage financial resources prudently and effectively. Efforts
19 to improve financial capability, which should be based on evidence of
20 effectiveness, empower individuals to make informed choices, plan and
