- AN ACT to amend the general business law and the agriculture and markets law, in relation to the labeling of genetically modified foods

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEM-BLY, DO ENACT AS FOLLOWS:

Section 1. Legislative findings and intent. The legislature finds that 1 2 New York state consumers have the right to know whether the foods they 3 purchase have been produced with genetic engineering so they can make informed purchasing decisions. 4 5

Further the legislature finds that:

6 (a) Currently, there is no federal law that requires food producers to 7 identify whether foods were produced with genetic engineering. At the 8 same time, the United States Food and Drug Administration (FDA) does not 9 require safety studies of such foods;

EXPLANATION--Matter in ITALICS (underscored) is new; matter in brackets [] is old law to be omitted.

LBD03147-06-6

Identification of foods produced with genetic engineering can 1 (b) provide a critical method for tracking effects of consuming foods 2 3 produced with genetic engineering; 4 (C) More than sixty countries, including key United States trading 5 partners, have laws mandating disclosure of genetically engineered 6 foods. Identifying foods produced with genetic engineering will help 7 protect our state's export market; (d) A variety of genetically engineered crops are commercially culti-8 9 vated and sold in the United States, including corn, canola, sugar 10 beets, soybean, cotton, alfalfa, and papaya. It has been estimated that 70-80% of packaged grocery products contain some materials derived from 11 12 these genetically engineered crops; 13 (e) Without disclosure, consumers with certain dietary restrictions 14 unknowingly consume such food in violation of such dietary may 15 restrictions; (f) Preserving the identity, quality, and reliability of agricultural 16 17 products is of prime importance to our state's fiscal health; The cultivation of genetically engineered crops can cause serious 18 (q) 19 environmental impacts; (h) It is the intent of this act to ensure that New York consumers and 20 21 farmers are fully and reliably informed about whether the food and seed 22 they purchase and eat were produced with genetic engineering so they may 23 choose for themselves whether to purchase and eat or use such food and 24 seed; 25 (i) It is the intent of this act only to regulate the labeling of 26 seed, seed stock, and food for human consumption offered for retail sale 27 within New York State. 28 S 2. The general business law is amended by adding a new section 391-u 29 to read as follows: 391-U. GENETICALLY ENGINEERED FOODS; REQUIRED LABELING. 1. DEFI-30 S NITIONS.
