(2) All heating oil sold for use in any building in the state shall be 1 bio heating fuel that contains at least two percent biodiesel, once biodiesel production of ASTM 6751 in this state reaches twelve million 3 gallons on an annualized basis for three months. All heating oil sold for use in any building in the state shall be bio heating fuel that contains at least five percent biodiesel, once biodiesel production of 7 ASTM 6751 in this state reaches thirty million gallons on an annualized 8 basis for three months. Such production gallon levels shall be monitored 9 and certified by the New York energy research and development authority 10 based on the U.S. Energy Information Administration's Adjusted Sales of 11 Distillate Fuel Oil by End User total for residential and commercial gallons. Such blending requirements shall take effect one hundred eighty 12 13 days after the certification by the New York energy research and devel-14 opment authority.

- (3) The governor may, by issuing an executive order, temporarily suspend the applicability of this section at any time based on the governor's determination, after consulting with the New York energy research and development authority and the department, that meeting the requirement of subdivision two of this section is not feasible due to lack of adequate supply of biodiesel or that meeting the requirement would result in undue financial hardship to consumers.
- (4) The requirements of this section shall not: (a) prohibit the sale and use of bio heating fuel with the same or any greater percentage of biodiesel blended with heating oil, or the sale and use of one hundred percent biodiesel, for space and/or water heating purposes in the state; and (b) preempt any laws of the city of New York with respect to mandated percentage levels of biodiesel blends with heating oil provided that such laws require the same or greater percentage of biodiesel blended with heating oil as required by this section.
 - § 2. This act shall take effect immediately.
