(ccc) Green building credit. (1) Allowance of credit. A taxpayer shall 4 be allowed a credit against the tax imposed by this article provided that such taxpayer constructs or rehabilitates qualifying residential real property in conformity with energy efficiency standards established by the National Association of Home Builders or the Leadership in Energy and Environmental Design rating system developed by the United States green building council and fashions proof thereof in accordance with rules and regulations promulgated by the commissioner of the department of environmental conservation in conjunction with the commissioner.

- (2) Amount of credit. The amount of the credit shall be equal to the 12 13 allowable costs paid or incurred by the taxpayer, if the owner, for 14 either the construction or rehabilitation of qualifying residential real 15 property in conformity with energy efficiency standards established by the National Association of Home Builders or the Leadership in Energy 16 and Environmental Design rating system developed by the United States 17 green building council; provided, however, that such credit shall not 18 19 exceed ten thousand dollars and shall not be awarded more than once in a 20 period of ten years.
- (3) For the purpose of this subsection, "allowable costs" means 21 22 amounts properly chargeable to an account (other than for land), which are paid or incurred on or after January first, two thousand seventeen, 23 24 for: construction or rehabilitation; commissioning costs; interest paid 25 or incurred during the construction or rehabilitation period; legal,

architectural, engineering and other professional fees allocable to construction or rehabilitation; closing costs for construction, rehabil-3 itation or mortgage loans; recording taxes and filing fees incurred with respect to construction or rehabilitation; site costs (such as temporary electric wiring, scaffolding, demolition costs, and fencing and security facilities); and costs of furniture, carpeting, partitions, walls and 7 wall coverings, ceilings, drapes, blinds, lighting, plumbing, electrical 8 wiring and ventilation; provided that such costs shall not include the 9 cost of telephone systems and computers (other than electrical wiring 10 costs) and shall not include the cost of fuel cells or photovoltaic 11 modules (including installation) or the cost of new air conditioning equipment using an EPA-approved non-ozone depleting refrigerant or other 12 13 EPA-approved refrigerant approved by the commissioner of environmental 14 conservation (excluding installation).

- (4) For the purposes of this subsection "qualifying residential real property" shall mean the principal place of residence of an individual taxpayer who claims a credit pursuant to this subsection. In the event that such place of residence is a multiple dwelling, as defined by subdivision seven of section four of the multiple dwelling law, allowable costs shall only constitute those costs incurred due to construction or rehabilitation undertaken on the portion of the dwelling that constitutes an individual taxpayer's unit.
- 23 (5) If the amount of the credit allowed under this subsection for any
 24 taxable year shall exceed the taxpayer's tax for such year, the excess
 25 may be carried over to the following year or years for up to five years
 26 and may be deducted from the taxpayer's tax for such year or years.
- 27 (6) The commissioner of the department of environmental conservation, 28 in conjunction with the commissioner, shall promulgate such rules and 29 regulations as may be necessary for the distribution of the credit 30 established by this subsection.
- § 2. This act shall take effect immediately and shall apply to taxable years beginning on and after January 1, 2017.
