Senate Resolution No. 1051

BY: Senator KLEIN

RESOLUTION in response to the 2017-2018 Executive Budget submission (Legislative Bills S2000B, S2003B, S2004B, S2005B, S2006B, S2007A, S2008B and S2009B) to be adopted as legislation expressing the position of the New York State Senate relating to the 2017-2018 New York State Budget

WHEREAS, It is the intent of the Legislature to effectuate the timely passage of a State Budget; and

WHEREAS, It is the intent of the Legislature to engage in the Budget Conference Committee process, which promotes increased participation by the members of the Legislature and the public; and

WHEREAS, The Senate Finance Committee has conducted an extensive study and review of the Governor's 2017-2018 Executive Budget submission and has recommended proposed amendments to such Budget submission in the above referenced Legislative Bills and Report on the Executive Budget; and

WHEREAS, Article VII of the New York State Constitution provides the framework under which the New York State Budget is submitted, amended and enacted. The New York State Courts have limited the Legislature in how it may change the appropriations bills submitted by the Governor. The Legislature can delete or reduce items of appropriation contained in the several appropriation bills submitted by the Governor in conjunction with the Executive Budget, and it can add additional items of appropriation to those bills provided that such additions are stated separately and distinctly from the original items of the bill and refer each to a single object or purpose; and

WHEREAS, An extensive study and review of the Governor's 2017-2018 Executive Budget submission has revealed that the construction of the budget bills submitted to the Legislature by the Governor constrains the Legislature in its ability to fully effectuate its intent in amending the Governor's budget submission; and

WHEREAS, The 2017-2018 Executive Budget includes funds for new programs throughout various agencies which are direct aid and grant programs, have been drafted as lump sum appropriations and are proposed to be distributed at the sole discretion of the Executive. In addition, some of these proposed initiatives related to capital plans have no corresponding plan details, which is imperative for proper consideration of these proposals. New capital spending, distributed through regional economic development councils, is also included in the Executive proposal; and

WHEREAS, The Legislature has amended the Governor's 2017-2018 Executive Budget submission to the fullest extent possible within the authority provided to it pursuant to Section 4 of Article VII of the New

York State Constitution; and

WHEREAS, The Senate, in addition to the Governor's 2017-2018 Executive Budget submission bills as amended by the Senate in the above referenced legislative bills, does hereby provide its recommendations as to provisions in the Governor's 2017-2018 Executive Budget submission which reflect those items the Senate is constrained from effectuating as amendments to the 2017-2018 Executive Budget appended hereto; and

WHEREAS, It is the intent of the Legislature that upon the passage of the Governor's 2017-2018 Executive Budget submission as amended by the Senate, and the incorporated Report on the Amended Executive Budget may provide a basis for both houses of the Legislature to convene Committees on Conference pursuant to Joint Rule III of the Senate and Assembly for the purpose of reconciling any differences between the amendments to the Governor's budget as proposed by each house of the Legislature; now, therefore, be it

RESOLVED, That, the above referenced legislative bills (S2000B, S2003B, S2004B, S2005B, S2006B, S2007A, S2008B and S2009B) be and are incorporated as part of this resolution and are hereby adopted as the New York State Legislature's budget proposal for the 2017-2018 New York State Budget.

REPORT ON THE AMENDED EXECUTIVE BUDGET

ALL STATE AGENCIES AND OPERATIONS

The Senate denies with prejudice the following new language contained within the body of various appropriations:

* Language that would prevent certain appropriations from becoming effective contingent upon the Legislature enacting a specified Executive initiative.
* Language that would allow the Director of the Division of the Budget to administratively reduce appropriation authority. This language is in the Aid to Localities Budget of most agencies.
* Language that would require Members of the Legislature to sign a series of redundant documents prior to Legislative initiatives being implemented.
* Language that would give the Executive unlimited transfer authority within the State Operations Budget. This is in addition to the transfer language included in the Division of the Budget (DOB) and affects most agencies.
* Language that would consolidate state agency administrative hearings into a single entity.
* Language that would extend and expand the use of the design-build project delivery method within appropriations.

The Senate has stricken this language from the appropriation bills because such language constitutes an impermissible and unconstitutional over-reach by the Executive, infringing upon the independent role of the Legislature. This objectionable language constitutes a direct violation of fundamental separation of powers principles, and goes beyond any actions sanctioned by the Court of Appeals in Silver v. Pataki.

Article VII Proposal (S.2006-B)

* PART J - The Senate will modify the Executive proposal that raises

the age of criminal responsibility for 16 and 17 year olds in the State of New York. The Senate supports raising the age of criminal responsibility while ensuring public safety and the proper balance of the role and responsibilities of established court systems. The Senate believes that the State should assist in ensuring that 16 and 17 year olds receive the treatment and programming they need in order to avoid the repeated cycle of mass incarceration that many of our youth experience today. At the same time, we must ensure that the victims of crimes and the effect of criminal actions against society as a whole are also taken into consideration as we weigh changes to criminal justice policy. Further, the Senate believes that any confinement of 16 and 17 year olds, if needed, must be in an appropriate setting and expresses particular concern about 16 and 17 year old inmates incarcerated at the Rikers Island Facility. The Senate will also ensure that any changes necessary to achieve these desired reforms will have no added financial burden to the counties or other local governments/entities.

* PART K - The Senate concurs with the Executive proposal to extend the current child welfare financing structure through June 30, 2022 and to deny tuition reimbursement to New York City
* PART L - The Senate concurs with the Executive proposal to amend the Family Court definition of "abused child" to include victims of sex trafficking and other severe forms of trafficking in persons
* PART M - The Senate concurs with the Executive proposal to provide greater flexibility to municipalities related to the type of services, the duration that services can be provided and the age of youth who can be served in Runaway and Homeless Youth Act programs
* PART N - The Senate denies without prejudice the Executive proposal to establish Voluntary Foster Care Agency Health Facilities and will continue discussions on this health-related matter in the proper forum
* PART SS - The Senate advances language to direct the Office of Children and Family Services to examine, evaluate and make recommendations on the availability of day care for children in the State, including an assessment of the demand, costs and economic ramifications of providing night shift child care subsidies
* PART TT - The Senate advances language to enhance the safety of child day care programs by strengthening the ability of the Office of Children and Family Services to suspend or limit a license or registration to operate in cases where it is necessary to protect the public health and safety. This part also creates a comprehensive online registry of child day care providers and their inspection and violation history

  - Advances language relating to water quality infrastructure projects to provide funding for costs of clean water infrastructure projects such as:
    - Water Quality Improvement Projects for the proper management of road salt
    - Green Infrastructure
    - Water Quality Protection projects through Soil and Water Conservation Districts to assist Concentrated Animal Feeding Operations
    - Emergency investigation and remediation actions
    - Replacement of lead drinking water service lines
    - Development of information technology systems
  - Amends the Environmental Protection Fund to provide funds for a number of new Senate environmental priorities including:
    - $5 million for stewardship projects in the Catskill Park
    - $3 million for incentives to municipalities to develop food donation and recycling projects
    - $1.5 million to assist land banks with lead abatement
    - $1.3 million for a community garden program
    - $700,000 for the Long Island Commission for Aquifer Protection
  - Denies the shift of $21.2 million in costs of the Oil Spill Protection program to capital funds.
* The Senate supports funding for a waterfront multi-use path on the Hudson River Greenway pursuant to the publication of an on-going MTA study regarding stabilizing the embankment and developing a trail along the shoreline

Article VII Proposals (S.2008-B)

* PART T - The Senate concurs with the Executive proposal to increases the State share for the Local Waterfront Revitalization Program from 50 to 75 percent.
* PART HH - The Senate denies the Executive proposal to establish a new capital account for the NY Environmental Protection Spill Remediation Account.
* PART II - The Senate transfers this part to the Health and Mental Hygiene article VII bill and amends to create a new PART X to provide $7 billion in bonding authority, which will finance clean water infrastructure projects through the creation of the New York State Regional Water Infrastructure Improvement Act of 2017. * PART BB - The Senate denies the Executive proposal to authorize the Superintendent of the Department of Financial Services to disqualify persons from permanently doing business in the banking and insurance industries.
* PART CC - The Senate denies the Executive proposal to authorize the Superintendent of the Department of Financial Services to regulate lending circles.
* PART DD - The Senate accepts the Executive proposal to establish a fund to administer risk adjustment payments for paid family leave insurance pending further rate-setting action by the Department of Financial Services.
* PART EE - The Senate denies the Executive proposal to authorize the Superintendent of the Department of Financial Services to expand the regulation of small loan lenders.
* PART FF - The Senate denies the Executive proposal to authorize the Superintendent of the Department of Financial Services to expand the regulation of reverse mortgages.
* PART GG - The Senate denies the Executive proposal to authorize the Superintendent of the Department of Financial Services to expand assessments, and expands her powers concerning the distribution of assets and insurers deemed to be in hazardous conditions.

Gaming Commission

State Operations (S.2000-B)

* The Senate concurs with the Executive appropriation recommendation of $25.1 million.

Aid to Localities (S.2003-B)

* The Senate concurs with the Executive appropriation recommendation of $217 million as follows:
  - The Senate increases the Commercial Casino Local Gaming Aid appropriation by $1.4 million dollars to the Commercial Casino Aid to Localities appropriation to offset the modifications to Article VII, Part RR of Budget Bill S. 2009-B
  - The Senate increases the Native American Local Gaming Aid

appropriation by $600,000 to offset the modification of Part RR in Budget Bill S. 2009-B

General Services, Office of

State Operations (S.2000-B)
* The Senate concurs with the Executive recommendation of $1 billion.

Capital Projects (S. 2004-B)
* The Senate concurs with the Executive recommendation of $249.6 billion.

Article VII Proposals (S. 2005-B)
The Senate denies:
* PART I - The Executive proposal to authorize the Commissioner of General Services to pay for damage and losses occurring in and to state-owned structures, buildings and their contents as a result of floods, for flood related losses and flood related hazards. The Senate denies this part without prejudice.
* PART M - The Executive proposal to Authorize the Commissioner of the Office of General Services to procure legislative printing without competitive bidding.
* PART N - The Executive proposal to make various amendments to the preferred sources program for commodities and services.

The Senate modifies:
* PART J - The Senate modifies the Executive proposal to encourage manufacturing investment in America by implementing Buy American preferences for iron, steel, and manufacturing products for construction projects funded by the dedicated infrastructure investment fund, and for construction projects undertaken by the MTA and the City of New York.
* PART L - The Executive proposal to extend the authority of the Office of General Services (OGS) to enter into construction contracts without formal competitive bidding in certain emergencies but rejects without prejudice the Executives proposal to create a list of eligible bidders for public work contracts performed at secure facilities.
* PART EE - The Senate advances language to permanently extend authorization granting localities contract flexibility to allow shared purchasing.

Article VII Proposal (S. 2008-B)
* PART O - The Senate will examine the executive's proposal to extend for one year the provisions of law relating to participation by minority and women-owned business enterprises in state contracts after the delivery and review of the statewide disparity study regarding the participation of minority and women-owned business enterprises in state contracts, which is required to be completed under state law to evaluate what reforms, if any, are needed to address the elements of this program including eligibility requirements, enhancement in mentoring and the waiver process to ensure its effectiveness.

* PART OO - The Senate advances legislation that requires OGS to label

all unused and unappropriated lands owned by the State as vacant, and sell this vacant property. The proceeds of such sales shall be directed for economic development purposes in the county where the land is sited.

General State Charges

State Operations (S.2000-B)
* The Senate modifies the Executive All Funds recommendation of $4 billion to increase the fringe benefit escrow account offset appropriation by $120 million.

* The Senate modifies the Executive All Funds recommendation of $3.1 million as follows:
  - Adds $369,741 to provide the agency additional support for increased staffing costs related to the minimum wage increase.

Greenway Heritage Conservancy of the Hudson River Valley

State Operations (S.2000-B)
* The Senate concurs with the Executive All Funds recommendation of $166,000.

Health, Department of

State Operations (S.2000-B)

* The Senate concurs with the Executive recommendation for funding of the New York State of Health Exchange of $71.6 million.
* The Senate denies the Executive recommendations to:
  - Establish a two-year Medicaid budget, and reduces appropriation authority for the Medicaid Administration program to reflect one year of spending
  - In-source Office of Health Insurance Program contractual workers into the State workforce, and restores $500,000
  - Provide $5.5 million in funding to the Department of Health's Administration Program.

Aid to Localities (S.2003-B)

Public Health:

* The Senate restores funding as follows:
  - $24.6 million from the Executive recommendation to consolidate 39 discrete public health programs into four pools concurrent with a 20 percent funding reduction
  - $11 million New York City general public health works funding
  - $4.1 million for the Early Intervention Program
  - $1 million for Comprehensive Care Centers for Eating Disorders, and provides additional funding of $200,000
  - $750,000 for the Center For Liver Transplant
  - $621,000 for Women's Health Services
  - $600,000 for Lyme and other Tick Borne Diseases
  - $350,000 for the ALS Association Greater New York Chapter
  - $250,000 for the New York Alliance for Donation.

Medicaid:

* The Senate denies the Executive proposal to establish a two-year Medicaid budget, and reduces Medicaid appropriation authority to reflect one year of spending.

* The Senate denies the Executive pharmacy proposals to:
  - Eliminate "prescriber prevails" for Fee For Service (FFS) and Managed Care (MC), and restores $20.2 million
  - Reduce coverage for over the counter drugs and increase the co-payment for these drugs from $0.50 to $1.00, and restores $6.3 million
  - Establish a Comprehensive Medication Management program, and restores $450,000.

* The Senate denies the Executive proposals to:
  - Eliminate Spousal Refusal provisions, and restores $10 million
  - "Carve" transportation services out of Managed Long Term Care, and restores $3.98 million
  - "Carve" Adult Day Home Care program out of Medicaid Managed Care, and restores $5 million
  - Restrict Managed Long Term Care Plan enrollment to only nursing home eligible individuals, and restores $2.75 million
  - Mandate commercial insurance reimbursement and modify screening and evaluation requirements for Early Intervention (EI), and

restores $1.35 million
  - o Eliminate the Bed Hold Payment for Nursing Homes, and restores $11 million
  - o Reduce funding for the Value Based Payment Quality Improvement Program (VBP-QIP), and restores $15 million
  - o Reduce the Hospital Quality Pool, and restores $5 million
  - o Reduce avoidable emergency room visits by redirecting patients to outpatient facilities, and restores $10 million
  - o Shift NY Connects funding under the Global Cap.

* The Senate denies without prejudice the Executive proposal to reduce the CPI penalty for generic drugs from 300 percent to 75 percent.

* The Senate denies without prejudice the Executive proposal to eliminate the supplemental ambulance rate and reinvest the funds into rate rationalization. These critical funds must be maintained while the rate proposal is evaluated. The Senate supports the necessity of the Department of Health addressing rate adequacy for emergency transportation providers to ensure Medicaid enrollees are not deprived of essential transportation services.

* The Senate supports efforts to ensure components included in the Medicaid managed care rates, including minimum wage and other important enhancements, are adequate to insurers and appropriately passed on to providers, whether it be for reimbursement of home care services, hospice residences, nursing home services, clinic services, ambulette services or other services for the state's most vulnerable populations.

* The Senate is supportive of efforts to review and determine rate adequacy for providers throughout the state, including for unique providers such as hospice care residences.

* The Senate reduces supportive housing funding and conditions that unit availability must be related to an individual's health status.

* The Senate advances a proposal for appropriate reimbursement for care management when individuals are enrolled in health homes.

* The Senate advances a proposal to require the Department of Health to make full Disproportionate Share Hospital (DSH) payments to SUNY hospitals, and provides $181 million. SUNY hospitals are a critical component of the State's health care infrastructure, and DSH funding ensures their ability to continue to provide quality care to the State's most vulnerable populations. In an era of fiscal uncertainty and health system transformation, it is incumbent on the State to continue its full support of these facilities.

* The Senate advances proposals to:
  - o Require Medicaid coverage for the cost of donor breast milk for prematurely born infants, generating $15.1 million in net savings
  - o Increase the professional dispensing fee for pharmacists to $12 and adjust Average Wholesale Price (AWP)/ Wholesale Acquisition

Cost (WAC), and provides $6.3 million and $800,000 respectively
- o Set the Critical Access Hospital (CAH) outpatient rates at 101 percent of reasonable costs, and provides $1.2 million.

- o Maximize drug rebate collection by establishing a pilot program to utilize third party vendors to validate existing Medicaid drug rebate claims, generating $15 million in savings
- o Reduce Medicaid drug costs by promoting the inclusion of highly utilized non-preferred drugs on the preferred drug list, generating $4 million in savings.

Capital Projects (S.2004-B)

* The Senate concurs with the Executive proposal to provide $50,000,000 in healthcare transformation capital funding to Montefiore Medical Center, and is supportive of a multi-year capital investment for health systems, such as Montefiore, and for other health care providers throughout New York State that are actively transforming to a sustainable model of care.

* The Senate strongly supports investment in the State's health care facilities and health care providers, especially in this era of system-wide transformation to long term sustainability. However, it is impossible to prioritize need on a regional, facility or provider basis without knowing where and how Health Care Transformation Program funds allocated in fiscal year 2017 will be disbursed.

* The Senate modifies the Executive recommendation to provide $450 million to the Health Care Facility Transformation Program to make this funding pursuant to a chapter. The Senate provides an additional $300 million in funding, also pursuant to a chapter.

Article VII Proposals (S.2006-B)

* PART RR - The Senate advances language to establish a new Vulnerable Adult Protection Program for banking institutions. Banking institutions would be authorized to deny a transaction to disburse moneys from a vulnerable adult's account. This Part would lastly establish a voluntary financial exploitation training and education program for banking institutions.

* PART A - The Senate denies the Executive recommendation in regards to the Early Intervention program.

* PART B - The Senate denies the Executive recommendation to reduce General Public Health Work Program reimbursement to New York City.

* PART C - The Senate concurs with the Executive recommendation to increase cost sharing requirements for the Essential Plan.

  - o The Senate advances language to:
    - Revert the definition of "small group" in New York insurance law to 1-50 employees or members
    - Excepts health insurers adjusting claims on behalf of a

municipal cooperative health benefit plan from the definition of "independent adjuster"
- Align insurers notice requirements for discontinuance of coverage at a minimum of ninety days.

* PART D - The Senate modifies the Executive recommendation to:
  - o Establish benchmark drug prices and require rebates and surcharges on drugs that exceed the benchmark by limiting growth of drug expenditures that do not result in offsets or savings in the Medicaid program.
  - o Require pharmacies be reimbursed in the Medicaid program by an acquisition cost methodology and setting the dispensing fee at ten dollars by increasing the dispensing fee to twelve dollars
  - o Make inappropriate prescribing of opioids an unacceptable provider practice in the Medicaid program by including due process protections for providers.

  - o The Senate advances language to:
    - Allow a third party vendor to verify drug rebates owed to the state to maximize discounts
    - Require the drug utilization board to review rebate agreements when a non- preferred drug in the Medicaid program has a high level of utilization.

* PART E - The Senate modifies the Executive recommendation to clarify that Medicaid will not cover services eligible for Medicare coverage by ensuring providers or health coverage plans are not subject to rate reductions.

  - o The Senate advances language to:
    - Include Consumer Directed Personal Assistance Program (CDPAP) providers under current wage parity provisions
    - Require the Department of Health to certify fiscal intermediaries in CDPAP
    - Require the state to pay the state share of a one percent reimbursement owed to nursing home facilities

    - Permanently require traumatic brain injury and nursing home transition and diversion waiver patient services to be reimbursed outside of Medicaid managed care
    - Ensure consideration of appropriate factors in the calculation of Medicaid managed care rates paid for home care services
    - Establish Medicaid managed care high need rate cells, require the Department of Health to seek appropriate federal approval, and extend the benchmark rate as a base line for Medicaid managed care reimbursement through March 31, 2019.

* PART F - The Senate denies the Executive recommendations to:
  - o Eliminate the supplemental rate for emergency medical

transportation services
- o The Senate advances language to prohibit authorizing contracted transportation managers from managing the Medicaid Managed Long Term Care transportation benefit.
- o The Senate concurs with the recommendation to eliminate the supplemental payment to rural transportation networks; however, see the Department of Transportation for additional information on this issue.

* PART G - The Senate modifies the Executive recommendation to extend the Medicaid global growth limitation by two years by extending for one year and requiring a Department of Health savings allocation plan to be approved by the legislature.

  - o The Senate advances language to:
    - Define Department of Health expenditures subject to the Medicaid growth limitation and rebase the annual growth calculation
    - Prohibit the Department of Health from reducing payment for general hospital emergency services
    - Prohibit rate reductions to Medicaid managed care organizations without legislative approval.

* PART H - The Senate modifies the Executive recommendation to:
  - o Permanently extend provisions in the graduate medical innovations pool including the authorization for Area Health Education Centers (AHEC), the Empire Clinical Research Investigator Program (ECRIP) and the Doctors Across New York program and funds by extending authorization for three years and discretely lining out funding levels for each program in statute
  - o Eliminate the statutory reauthorization of various HCRA programs including the tobacco control and insurance initiatives pool and health care innovations pool by extending authorization for three years and discretely lining out funding levels for each program in statute
  - o Extend the Excess Medical Malpractice Insurance Program for one year by eliminating language to require a tax certification.

* PART I - The Senate modifies the Executive recommendation to extend various provisions of the Public Health and Social Services Laws:
  - o The Senate concurs with the Executive recommendation to:
    - Extend for three years the limit on method of payment for prescription drugs under Medicaid
    - Extend for three years the nursing home upper payment limit
    - Extend for three years authorization for the use of funds of the Office of Professional Medical Conduct for activities of the Patient Health Information and Quality Improvement Act of 2000
    - Extend for three years penalties for violations of the Public Health Law by provider agencies
    - Extend for three years authorization for the Enriched Adult Day Services Program.

  - o The Senate modifies the Executive recommendation to:

- Extend for two years authorization for bad debt and charity care allowances for certified home health agencies (CHHAs)
- Extend for one year authorization for the Commissioner of the Office of Temporary and Disability Assistance (OTDA) to hire contract staff to administer fair hearings for the Fully Integrated Duals Advantage (FIDA) program
- Extend for two years the nursing home reimbursable cash assessment program
- Extend for one year the exclusion of the 1996-97 trend factor projections or adjustments from nursing home and inpatient rates
- Extend for one year the 0.25 percent trend factor reduction for hospitals and nursing homes
- Extend for two years limiting the reimbursement of long term home health care program and administrative costs to not exceed a statewide average
- Extend for two years the authorization for Medicaid to utilize the State Transportation manager
- Extend for one year the elimination of a trend factor for general hospital reimbursement
- Extend for one year the expansion of the Child Health Insurance Plan and benefits
- Extend for three years the Comprehensive Health Services program
- Extend for two years provisions related to the Statewide Planning and Research Cooperative System (SPARCS) and the Statewide Health Information Network of New York (SHIN-NY).

Article VII Proposal (S.2008-B)

* PART LL - The Senate denies the Executive's Article VII proposal that would authorize shared service agreements between the Power Authority and the State of New York, Canal Corporation and Department of Transportation without prejudice. The Senate would like to see stronger protections of existing Power Authority programs and an update on the status of the Canal Corporations transfer and any effect it has had on the Power Authority's finances.
* PART PPP - The Senate proposes adding language that would require the state to maintain canal lift bridges to the point that they are safe for vehicle and foot traffic.

Indian Point

Article VII Proposal (S.2005-B)

* PART QQ - The Senate includes a proposal to require the County of Westchester, in consultation with the Town of Cortlandt, Village of Buchanan and the Hendrick Hudson School District, to perform a comprehensive study to develop and recommend possible solutions for the reutilization of the property that contains the Indian Point Nuclear Power Generating Facility. This proposal would require the state of New York, including its state agencies and public authorities, to provide whatever information or technical assistance is requested from the County of Westchester, in order to perform the study, and would further require the state to also provide funding as requested by the County of Westchester, necessary to perform the study, pursuant to funds appropriated or suballocated for expenses related thereto.

The final copy of the study and the recommendations would be required under this Part to be produced before December 1, 2017, and delivered, to the governor, the speaker of the assembly, the temporary president of

the senate, the chair of the senate standing committee on energy, and the chair of the assembly standing committee on energy.

The purpose of this report would be to determine all possible strategies for reutilization of the facility. It is the further purpose of the study to help identify possible solutions so as to address such issues as the loss of employment and tax revenue, the environmental and public safety effects of decommissioning, the need for worker retraining and re-employment, the economic revitalization of the effected communities, and the need to direct the $15 million community fund through a memorandum of understanding approved by the state legislature in order to provide assistance for immediate, negative, community impacts. It is additionally the purpose of this study to offer recommendations on possible resolutions, for the numerous, challenges incumbent with the decommissioning of the facility, including, but not limited to, the many different levels of government involved in the decommissioning process, the complex regulatory, environmental, economic and societal issues that will undoubtedly occur, the problem of reduced electrical power production and increased electricity rates, and the many ancillary effects that result for such a significant event as the closure of a facility which has an estimated positive fiscal impact of over a billion dollars.

The Senate supports the retraining of workers at Indian Point to perform the decommissioning work at the facility to keep good paying, highly skilled jobs here in New York.

The Senate supports the administering of exit physicals for every employee at the facility prior to the conclusion of their employment.

* The Senate concurs with the Executive All Funds recommendation of $5.75 million.

Article VII Proposal (S.2008-B)
* PART V - The Senate denies the Executive's Article VII proposal that would authorize the Departments of Agriculture and Markets, Environmental Conservation, and State and the Office of Parks, Recreation and Historic Preservation to be reimbursed for expenses incurred in their participation in general ratemaking proceedings; the Senate modifies the authorization to the Department of Health to finance certain activities with revenues generated from an assessment on cable television companies by requiring twenty-five percent of the total amount received be used to produce public education materials for secondary school education.

The Senate supports greater transparency in actions taken by the Public Service Commission, especially when those actions result in an increase in the amount New Yorkers pay. New York is among the most expensive states in the nation for the cost of electricity and those costs are only expected to rise as new assessments are implemented. In light of this, before assessments are put into effect, a comprehensive cost-benefit analysis must be done and made public. The Senate supports the expanded adoption of renewable energy technologies, but also believes that the cost of doing so must be thoroughly considered, as well as reliability of the electric grid.
