AN ACT to amend the environmental conservation law, in relation to jewelry containing lead

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. Legislative findings. The legislature hereby finds that
2 stringent controls on the amount of lead in jewelry are necessary to
3 protect public health, especially the health of children. Random
4 samples of jewelry in New York state have been found to contain up to
5 60,000 parts per million of lead. To assure consistent application of
6 these controls to all jewelry, specific technical standards and controls
7 must be specified.

8 § 2. The environmental conservation law is amended by adding a new
9 section 37-0115 to read as follows:

14 tured or sold for placement in a new piercing or a mucous membrane, but
15 does not include any part of that jewelry that is not placed within a
16 new piercing or a mucous membrane.
