FISCAL NOTE.-- Pursuant to Legislative Law, Section 50:

This bill would allow active members of the New York State Teachers' Retirement System with a date of membership on or prior to July 1, 1992 to receive service credit for service rendered as a graduate assistant, teacher assistant or teaching assistant during the period July 1, 1982 to September 30, 1991 to a state-operated institution or community college under the jurisdiction of the board of trustees of the state university which is a participating employer of the New York State Teachers' Retirement System. Payments for such credit must be made by those members subject to Article 14 or 15 of the Retirement and Social Security Law in accordance with section 609 of such law in the case such service was rendered prior to such member joining the New York State Teachers' Retirement System provided the member is credited with two years of service credit at the time credit for such service is granted. Payments for such credit must be made by those members subject to Article 14 or 15 of the Retirement and Social Security Law in accordance with section 613 of such law in the case such service was rendered after such member joined the New York State Teachers' Retirement System together with interest at the rate of five percent per annum from the date such service was rendered to the date of payment.

It is not possible to determine the total annual cost to the employers of members of the New York State Teachers' Retirement System since the total amount of service credit which would be claimed under this bill cannot be estimated. However, the cost to the employers of members of the New York State Teachers' Retirement System is estimated to be \$22,200 per year of service credited for Tier 1, 2, 3, 4 and 5 members and \$17,300 per year of service credited for Tier 6 members if this bill is enacted. These costs would be offset by member payments as required under this bill if enacted.

Employee data is from the System's most recent actuarial valuation files, consisting of data provided by the employers to the Retirement System. System assets are as reported in the System's financial statements, and can also be found in the CAFR. Actuarial assumptions and methods are provided in the System's Actuarial Valuation Report.
