50 § 99-bb. Municipal internet service provider revolving loan fund. 1.
51 There is hereby established in the joint custody of the comptroller and
52 the public service commission a fund to be known as the "municipal
53 internet service provider revolving loan fund". Such fund shall consist
54 of moneys made available pursuant to appropriation and any other sources
55 in order to provide support for municipalities attempting to create
56 their own internet service provider.

2. The account shall consist of all moneys appropriated for its purpose, all moneys transferred to such account pursuant to law, and all moneys required by this section or any other law to be paid into or credited to this account, including all moneys received by the account or donated to it, payments of principal and interest on loans made from the account, and any interest earnings which may accrue from the investment or reinvestment of moneys from the account.

3. Moneys of the account, when allocated, shall be available to the public service commission to make loans as provided in this section. Up to five percent of the moneys of the account or two hundred fifty thousand dollars, whichever is less, may be used to pay the expenses, including personal service and maintenance and operation, in connection with the administration of such loans.

4. (a) The public service commission may make, upon application duly made, up to the amounts available by appropriation, loans for any and all costs associated with the creation of a municipally owned broadband internet service provider.

Applications may also be submitted jointly by multiple applicants provided that the application is otherwise consistent with each applicant's respective powers.

(b) Every application shall be in a form acceptable to the public service commission. Every application shall accurately reflect the conditions which give rise to the proposed expenditure and accurately reflect the ability of the applicant to make such an expenditure without the proceeds of a loan under this section.

(c) (i) The public service commission shall give preference to those applications which demonstrate the greatest need, joint applications, and to those applications the proceeds of which will be applied toward attaining compliance with federal and state laws and may disapprove any application which contains no adequate demonstration of need or which would result in inequitable or inefficient use of the moneys in the account.

(ii) In making determinations on loan applications, the public service commission shall assure that loan fund moneys are equitably distributed among all geographical areas of the state.

(d) The public service commission shall, to the maximum extent feasible, and consistent with the other provisions of this section, seek to provide that loans authorized by this section reflect an appropriate geographic distribution, are distributed equitably and encourage regional cooperation.

§ 4. The sum of two hundred fifty million dollars (\$250,000,000), or so much thereof as may be necessary, is hereby appropriated from any moneys in the state treasury in the general fund to the credit of the state purposes account for the initial capital of the municipal internet service provider revolving loan fund in carrying out the provisions of this act. Such sum shall be payable on the audit and warrant of the state comptroller on vouchers certified or approved in the manner provided by law. No expenditure shall be made from this appropriation until a certificate of approval of availability shall have been issued by the director of the budget and filed with the state comptroller and a copy filed with the chairman of the senate finance committee and the

2 be amended from time to time by the director of the budget and a copy of
3 each such amendment shall be filed with the state comptroller, the
4 chairman of the senate finance committee and the chairman of the assem-
5 bly ways and means committee.
6 § 5. This act shall take effect immediately.
