

STATE OF NEW YORK

1230--A

2017-2018 Regular Sessions

IN ASSEMBLY

January 11, 2017

Introduced by M. of A. DINOWITZ -- Multi-Sponsored by -- M. of A. RICHARDSON -- read once and referred to the Committee on Health -- committee discharged, bill amended, ordered reprinted as amended and recommitted to said committee

AN ACT to amend the public health law, in relation to mandatory influenza vaccine for persons attending daycare

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. Section 2164 of the public health law, as amended by chapter 401 of the laws of 2015, is amended to read as follows:

2 § 2164. Definitions; immunization against poliomyelitis, mumps, measles, diphtheria, rubella, varicella, Haemophilus influenzae type b (Hib), pertussis, tetanus, pneumococcal disease, meningococcal disease, influenza virus, and hepatitis B. 1. As used in this section, unless the context requires otherwise:

3 a. The term "school" means and includes any public, private or parochial child caring center, day nursery, day care agency, nursery school, kindergarten, elementary, intermediate or secondary school.

4 b. The term "child" shall mean and include any person between the ages of two months and eighteen years.

5 c. The term "person in parental relation to a child" shall mean and include his father or mother, by birth or adoption, his legally appointed guardian, or his custodian. A person shall be regarded as the custodian of a child if he has assumed the charge and care of the child because the parents or legally appointed guardian of the minor have died, are imprisoned, are mentally ill, or have been committed to an institution, or because they have abandoned or deserted such child or are living outside the state or their whereabouts are unknown, or have designated the person pursuant to title fifteen-A of article five of the general obligations law as a person in parental relation to the child.

EXPLANATION--Matter in italics (underscored) is new; matter in brackets [-] is old law to be omitted.

LBD03759-03-7

d. The term "health practitioner" shall mean any person authorized by law to administer an immunization.

2. a. Every person in parental relation to a child in this state shall have administered to such child an adequate dose or doses of an immunizing agent against poliomyelitis, mumps, measles, diphtheria, rubella, varicella, Haemophilus influenzae type b (Hib), pertussis, tetanus, pneumococcal disease, and hepatitis B, which meets the standards approved by the United States public health service for such biological products, and which is approved by the department under such conditions as may be specified by the public health council.

b. Every person in parental relation to a child in this state born on or after January first, nineteen hundred ninety-four and entering sixth grade or a comparable age level special education program with an unassigned grade on or after September first, two thousand seven, shall have administered to such child a booster immunization containing diphtheria and tetanus toxoids, and an acellular pertussis vaccine, which meets the standards approved by the United States public health service for such biological products, and which is approved by the department under such conditions as may be specified by the public health council.

c. Every person in parental relation to a child in this state entering or having entered seventh grade and twelfth grade or a comparable age level special education program with an unassigned grade on or after September first, two thousand sixteen, shall have administered to such child an adequate dose or doses of immunizing agents against meningococcal disease as recommended by the advisory committee on immunization practices of the centers for disease control and prevention, which meets the standards approved by the United States public health service for such biological products, and which is approved by the department under such conditions as may be specified by the public health and planning council.

d. Every person in parental relation to a child in this state entering or having entered a licensed and registered child daycare home, program or facility shall have administered to such child an adequate dose or doses of immunizing agents against influenza virus as recommended by the advisory committee on immunization practices of the centers for disease control and prevention, which meets the standards approved by the United States public health service for such biological products, and which is approved by the department under such conditions as may be specified by the public health and planning council.

3. The person in parental relation to any such child who has not previously received such immunization shall present the child to a health practitioner and request such health practitioner to administer the necessary immunization against poliomyelitis, mumps, measles, diphtheria, Haemophilus influenzae type b (Hib), rubella, varicella, pertussis, tetanus, pneumococcal disease, meningococcal disease, influenza virus, and hepatitis B as provided in subdivision two of this section.

4. If any person in parental relation to such child is unable to pay for the services of a private health practitioner, such person shall present such child to the health officer of the county in which the child resides, who shall then administer the immunizing agent without charge.

5. The health practitioner who administers such immunizing agent against poliomyelitis, mumps, measles, diphtheria, Haemophilus influenzae type b (Hib), rubella, varicella, pertussis, tetanus, pneumococcal disease, meningococcal disease, influenza virus, and hepatitis B to any

1 such child shall give a certificate of such immunization to the person
2 in parental relation to such child.

3 6. In the event that a person in parental relation to a child makes
4 application for admission of such child to a school or has a child
5 attending school and there exists no certificate or other acceptable
6 evidence of the child's immunization against poliomyelitis, mumps,
7 measles, diphtheria, rubella, varicella, hepatitis B, pertussis, tetanus,
8 and, where applicable, Haemophilus influenzae type b (Hib), meningococcal disease, influenza virus, and pneumococcal disease, the principal,
9 teacher, owner or person in charge of the school shall inform such
10 person of the necessity to have the child immunized, that such immunization
11 may be administered by any health practitioner, or that the child
12 may be immunized without charge by the health officer in the county
13 where the child resides, if such person executes a consent therefor. In
14 the event that such person does not wish to select a health practitioner
15 to administer the immunization, he or she shall be provided with a form
16 which shall give notice that as a prerequisite to processing the application
17 for admission to, or for continued attendance at, the school such
18 person shall state a valid reason for withholding consent or consent
19 shall be given for immunization to be administered by a health officer
20 in the public employ, or by a school physician or nurse. The form shall
21 provide for the execution of a consent by such person and it shall also
22 state that such person need not execute such consent if subdivision
23 eight or nine of this section apply to such child.

25 7. (a) No principal, teacher, owner or person in charge of a school
26 shall permit any child to be admitted to such school, or to attend such
27 school, in excess of fourteen days, without the certificate provided for
28 in subdivision five of this section or some other acceptable evidence of
29 the child's immunization against poliomyelitis, mumps, measles, diphtheria,
30 rubella, varicella, hepatitis B, pertussis, tetanus, and, where
31 applicable, Haemophilus influenzae type b (Hib), meningococcal disease,
32 influenza virus, and pneumococcal disease; provided, however, such fourteen
33 day period may be extended to not more than thirty days for an
34 individual student by the appropriate principal, teacher, owner or other
35 person in charge where such student is transferring from out-of-state or
36 from another country and can show a good faith effort to get the necessary
37 certification or other evidence of immunization.

38 (b) A parent, a guardian or any other person in parental relationship
39 to a child denied school entrance or attendance may appeal by petition
40 to the commissioner of education in accordance with the provisions of
41 section three hundred ten of the education law.

42 8. If any physician licensed to practice medicine in this state certifies
43 that such immunization may be detrimental to a child's health, the
44 requirements of this section shall be inapplicable until such immunization
45 is found no longer to be detrimental to the child's health.

46 8-a. Whenever a child has been refused admission to, or continued
47 attendance at, a school as provided for in subdivision seven of this
48 section because there exists no certificate provided for in subdivision
49 five of this section or other acceptable evidence of the child's immunization
50 against poliomyelitis, mumps, measles, diphtheria, rubella, varicella,
51 hepatitis B, pertussis, tetanus, and, where applicable, Haemophilus
52 influenzae type b (Hib), meningococcal disease, influenza virus, and
53 pneumococcal disease, the principal, teacher, owner or person in charge
54 of the school shall:

55 a. forward a report of such exclusion and the name and address of such
56 child to the local health authority and to the person in parental

1 relation to the child together with a notification of the responsibility
2 of such person under subdivision two of this section and a form of
3 consent as prescribed by regulation of the commissioner, and

4 b. provide, with the cooperation of the appropriate local health
5 authority, for a time and place at which an immunizing agent or agents
6 shall be administered, as required by subdivision two of this section,
7 to a child for whom a consent has been obtained. Upon failure of a local
8 health authority to cooperate in arranging for a time and place at which
9 an immunizing agent or agents shall be administered as required by
10 subdivision two of this section, the commissioner shall arrange for such
11 administration and may recover the cost thereof from the amount of state
12 aid to which the local health authority would otherwise be entitled.

13 9. This section shall not apply to children whose parent, parents, or
14 guardian hold genuine and sincere religious beliefs which are contrary
15 to the practices herein required, and no certificate shall be required
16 as a prerequisite to such children being admitted or received into
17 school or attending school.

18 10. The commissioner may adopt and amend rules and regulations to
19 effectuate the provisions and purposes of this section.

20 11. Every school shall annually provide the commissioner, on forms
21 provided by the commissioner, a summary regarding compliance with the
22 provisions of this section.

23 § 2. This act shall take effect one year after it shall have become a
24 law.
