38 PART D

39 Section 1. Intentionally omitted.

40 § 1-a. The public health law is amended by adding a new section 280 to
41 read as follows:

42 § 280. High cost drugs. 1. The legislature hereby finds and declares
43 that there is a significant public interest for the state to manage the
44 cost of drugs in a manner that improves healthcare outcomes for patients
45 without restricting access or stifling innovation. It is therefore
46 intended that the department be permitted to limit unjustifiable and
47 sudden price increases on: (a) existing drugs through previously
48 enacted provisions of law; (b) offset the cost of similar increases on
49 existing brand drugs through federally enacted regulations; and (c)
50 impose an overall limit on the amount the state spends on drugs that
51 fail to generate corresponding healthcare offsets or savings for the
52 taxpayer.

53 2. Notwithstanding any inconsistent provision of state law, rule or
54 regulation to the contrary, subject to federal approval, the year to

1 year rate of growth of department of health state funds Medicaid drug
2 spending shall not exceed five percent plus the ten year rolling average
3 of the medical component of the consumer price index as published by the
4 United States department of labor, bureau of labor statistics, for the
5 preceding ten year or more than double the annual total Medicaid growth,
6 whichever is greater.

7 (a) For the purposes of this section, the Medicaid drug expenditure
8 shall mean the total amount of state funds expended for drugs in both
9 the Medicaid fee-for-service and Medicaid managed care programs.

10 (b) Drug expenditures shall be a separately accounted component within
11 the Medicaid global cap, as defined in section ninety-one of Part H of
12 chapter fifty-nine of the laws of two thousand eleven.

13 (c) The department in conjunction with the division of budget shall
14 maintain an accounting of the total amount expended for each drug and
15 its percentage of the total drug expenditure for all drugs covered in
16 the Medicaid program.

17 (d) The department and division of budget shall conduct an audit and
18 accounting of the Medicaid drug expenditure on a basis necessary for
19 management of the drug expenditure component.

20 (e) If on the basis of the audit and accounting requirements of this
21 section, a drug or drugs are determined to cause the total Medicaid drug
22 expenditure to exceed the annual growth limitation of this section,
23 without corresponding health care offsets or savings, the department may
24 impose a supplemental rebate in proportion to the amount the drug causes
25 the total Medicaid drug expenditure to exceed the annual growth limit.

26 (f) Supplemental rebate received by the state under this section that
27 are a result of drug utilization in the Medicaid managed care program
28 shall be credited to the Medicaid managed care organization in propor-
29 tion to the organization's corresponding drug utilization.

30 3. Annual drug expenditure growth shall be equal to the total amount
31 expended on drugs in both Medicaid fee-for-service and Medicaid managed
32 care less corresponding manufacturer rebates and corresponding health
33 care offsets and savings. The following shall not be accounted towards
34 the expenditure growth limitation of subdivision two of this section:

35 (a) The amount a drug reduces Medicaid costs through avoidance of
36 alternative pharmaceutical and clinical treatments covered under the
37 Medicaid program in proportion of the drug's attribution of such pharma-
38 ceutical and clinical offsets or savings.

39 (b) The amount expended on drugs for the treatment of emerging
40 diseases or conditions as determined by the commissioner.

41 (c) The amount expended on drugs for the treatment of outbreaks and
42 epidemics as determined by the commissioner.

43 (d) The amount expended on any drug or classes of drugs determined by
44 the drug utilization review board to be appropriately priced in consid-
45 eration of the investment necessary for research, development, and regu-
46 latory approval and the population the drug serves.

47 (e) The amount expended on any drug that the department has determined
48 not to include in the Medicaid drug expenditure growth limitation in
49 consideration of a supplemental rebate offered to the state by the
50 manufacturer.

51 4. The state shall use an independent actuary to determine:

52 (a) The amount expended on each drug available in the Medicaid
53 program.

54 (b) The total amount expended on all drugs in the Medicaid program.

1 (c) The total amount of all drug expenditures that are excluded from
2 the annual growth limitation pursuant to subdivision two of this
3 section.

4 (d) The proportional amount a drug causes the annual growth limitation
5 to be exceeded.

6 (e) The amount the total expenditure for a drug results in savings or
7 offset to costs that would have otherwise likely occurred in the state
8 Medicaid program. Savings and offsets to other Medicaid expenditures
9 shall be determined by calculating:

10 (i) The total state Medicaid expenditure, including current drug
11 expenditure, for each disease, medical condition, and other ailments
12 occurring in the prior fiscal year.

13 (ii) The total state Medicaid drug expenditure for each disease,
14 medical condition, and other ailments occurring in the prior fiscal
15 year.

16 (iii) The total cost of treatment for each disease, medical condition,
17 or other ailment, on a per patient basis, in the absence of each drug
18 subjected to the excessive drug growth supplemental rebate.

19 (iv) The cost or savings of treatment for each disease, medical condi-
20 tion, or other ailment, on a per patient basis, as a result of each drug
21 subjected to the excessive drug growth supplemental rebate.

22 (f) The amount of the supplemental rebate imposed on the manufacturer,
23 as determined by the amount the drug causes the annual growth limitation
24 to be exceeded that does not result in savings or offset to costs that
25 would have otherwise occurred in the state Medicaid program.

26 5. The department shall notify the manufacturer when a drug causes the
27 annual drug growth limit to be exceeded and the amount of any corre-
28 sponding supplemental rebate. The manufacturer shall have the right to
29 review any data the state is relying upon in determining the rebate.
30 The manufacturer shall have the right to appeal to the drug utilization
31 review board.

32 6. The department shall consider any information submitted by a drug
33 manufacturer regarding the manufacturing costs and fiscal savings and/or
34 offsets generated to the state for a drug product covered under the
35 state's Medicaid program prior to making a determination of annual
36 growth calculation or supplemental rebate imposition. The department
37 shall make such manufacturer information available to the drug utiliza-
38 tion review board and the independent actuary.

39 7. The department shall provide an annual report to the chairs of the
40 assembly and senate health committees regarding the Medicaid drug
41 expenditure detailing:

42 (a) The annual growth of the total Medicaid drug expenditure.

43 (b) Drugs that have caused the annual drug growth limitation to be
44 exceeded.

45 (c) Drugs requiring manufacturers to provide a rebate under this
46 section.

47 (d) Drugs that were excluded from annual growth calculation and the
48 basis for exclusion.

49 (e) A summary of all information required under subdivision four of
50 this section.

51 § 2. Intentionally omitted.

52 § 2-a. The public health law is amended by adding a new section 278-a
53 to read as follows:

54 § 278-a. Limitation on excessive price increases; prescription drugs:

55 1. In the event a manufacturer, as defined in subdivision twenty-one of
56 section sixty-eight hundred two of the education law, of a brand or

1 generic drug, made available in New York, increases the wholesale acqui-
2 sition cost (WAC) of a drug by a percent equal to or greater than one
3 hundred percent at any one time or in the aggregate in any twelve month
4 period or if a manufacturer of a generic drug with a fifty dollar whole-
5 sale acquisition cost (WAC) price for a thirty day supply increases
6 their supply by one hundred percent or more at any one time or in the
7 aggregate in any twelve month period:

8 (a) The manufacturer shall, not less than thirty days prior to insti-
9 tuting such increase, notify the commissioner and the drug utilization
10 review board established under section three hundred sixty-nine-bb of
11 the social services law. Notice shall be provided on the form estab-
12 lished pursuant to subdivision two of this section; and

13 (b) The commissioner shall require prior authorization and authorize
14 Medicaid managed care plans to require prior authorization for the drug
15 effective as of the date of the price increase and continuing until a
16 determination is made by the drug utilization review board.

17 2. The commissioner, in consultation with the drug utilization review
18 board, shall produce and make available to manufacturers a price
19 increase notification form that shall elicit:

20 (a) The most recent wholesale acquisition cost (WAC) of the drug prior
21 to an increase equal to or greater than one hundred percent at any one
22 time or in the aggregate in any twelve month period in either pricing
23 measure. For the purposes of this section wholesale acquisition cost
24 (WAC) shall include the prices for each dosage, size or concentration of
25 the drug offered or sold by the manufacturer;

26 (b) The wholesale acquisition cost (WAC) of the drug when exceeding
27 the one hundred percent threshold;

28 (c) Any material change in ingredient, production, or manufacturing
29 costs resulting in the price increase;

30 (d) In the case of a brand drug, the expiration date of the patent;

31 (e) In the case of a generic drug, whether the drug is a sole source
32 drug; and

33 (f) Any other information the manufacturer deems relevant to the
34 board's review.

35 3. Upon receipt of a price increase notification form, the drug utili-
36 zation review board shall review the price increase and make a determi-
37 nation as to whether the price increase is excessive. In making a deter-
38 mination the board shall consider:

39 (a) The wholesale acquisition cost (WAC) of the drug in comparison to
40 any generic equivalent or therapeutically equivalent drug;

41 (b) The FDA approved or compendium supported use of the drug and crit-
42 ical need to the patient;

43 (c) Any known market factors justifying the price increase, including
44 but not limited to:

45 (i) whether the drug has been absent from the market for any period of
46 time; and

47 (ii) changes in manufacturing or regulatory requirements or costs.

48 (d) Any material change in the prevalence or severity of the disease
49 or medical condition or conditions that the drug is approved to treat;

50 (e) In the case of a brand drug, the expiration date of the patent;
51 and

52 (f) In the case of a generic drug, whether the drug is a sole source
53 drug.

54 4. Upon a finding by the drug utilization review board that a manufac-
55 turer has instituted an excessive price increase, (a) the board shall
56 require prior authorization for the drug and authorize Medicaid managed

1 care plans to require prior authorization until the board determines
2 otherwise; and (b) the board may refer the matter to the attorney gener-
3 al with any information necessary for the investigation and prosecution
4 of price gouging violations under section three hundred ninety-six-rrr
5 of the general business law. In the event the board does not find that
6 the manufacturer has engaged in an excessive price increase, the board
7 shall remove the requirement for prior authorization and such authority
8 granted to Medicaid managed care plans to institute prior authorization
9 under this section shall cease.

10 § 2-b. The general business law is amended by adding a new section
11 396-rrr to read as follows:

12 § 396-rrr. Price gouging; prescription drugs. 1. Legislative findings
13 and declaration. The legislature hereby finds that excessive price
14 increases to prescription drugs that lack justification based on market
15 forces create a public health risk to consumers that rely on these
16 prescription drugs. In order to prevent a manufacturer, as defined in
17 subdivision twenty-one of section sixty-eight hundred two of the educa-
18 tion law, from taking unfair advantage of consumers who rely upon and
19 may lose access to the prescription drugs if the medication has a sudden
20 and excessive price increase, the legislature declares that the public
21 interest requires that such conduct be prohibited and made subject to
22 civil penalties.

23 2. In order to prevent a drug manufacturer, as defined in subdivision
24 twenty-one of section sixty-eight hundred two of the education law, from
25 imposing unconscionably and unjustifiably excessive price increases, the
26 attorney general may, upon referral from the drug utilization review
27 board as codified in section two hundred seventy-eight-a of the public
28 health law, apply in the name of the people of the state of New York to
29 the supreme court within the judicial district in which such violations
30 are alleged to have occurred, on notice of five days, for an order
31 enjoining or restraining commission or continuance of the alleged unlaw-
32 ful acts. In any such proceeding, the court may impose a civil penalty
33 in an amount not to exceed twenty-five thousand dollars and, where
34 appropriate, order restitution to aggrieved consumers.

35 3. Whether a price is unconscionably and unjustifiably excessive is a
36 question of law for the court. The court's determination that a
37 violation of this section has occurred shall be based upon the following
38 factors:

39 (a) the increase in price is unconscionably extreme;
40 (b) the drug is vital and medically necessary to the health of the
41 consumer;
42 (c) the drug is a sole source drug without a therapeutic equivalent;
43 and
44 (d) the price increase was within the control of the manufacturer and
45 not caused by costs imposed on or factors beyond the control of the
46 manufacturer.

47 § 3. Intentionally omitted.

48 § 4. Intentionally omitted.

49 § 5. Intentionally omitted.

50 § 6. Intentionally omitted.

51 § 7. The opening paragraph and subparagraphs (i) and (ii) of paragraph
52 (b) and paragraph (d) of subdivision 9 of section 367-a of the social
53 services law, the opening paragraph and paragraph (d) as amended by
54 chapter 19 of the laws of 1998, subparagraphs (i) and (ii) of paragraph
55 (b) as amended by section 2 of part C of chapter 60 of the laws of 2014,
56 subparagraph (i) of paragraph (d) as amended by section 10-a of part H

1 of chapter 59 of the laws of 2011 and subparagraph (ii) of paragraph (d)
2 as amended by section 48 of part C of chapter 58 of the laws of 2009,
3 are amended to read as follows:

4 Notwithstanding any inconsistent provision of law or regulation to the
5 contrary, for those drugs which may not be dispensed without a
6 prescription as required by section sixty-eight hundred ten of the
7 education law and for which payment is authorized pursuant to paragraph
8 (g) of subdivision two of section three hundred sixty-five-a of this
9 title, and for those drugs that are available without a prescription as
10 required by section sixty-eight hundred ten of the education law but are
11 reimbursed as items of medical assistance pursuant to paragraph (a) of
12 subdivision four of section three hundred sixty-five-a of this title,
13 payments under this title shall be made at the following amounts:

(d) In addition to the amounts paid pursuant to paragraph (b) of this subdivision ~~[to pharmacies for those drugs which may not be dispensed without a prescription, as required by section sixty-eight hundred ten of the education law and for which payment is authorized pursuant to paragraph (g) of subdivision two of section three hundred sixty-five-a of this title]~~, the department shall pay a professional pharmacy dispensing fee for each such ~~[prescription]~~ drug dispensed~~[, which dispensing fee shall not be less than the following amounts:~~

It shall be an unacceptable practice in the Medicaid program established pursuant to title 11 of article 5 of the social services law for a provider to prescribe opioids in violation of the requirements of paragraph (g-1) of subdivision 2 of section 365-a of such law, in violation of any other applicable law limiting or restricting the prescribing of opioids, and/or contrary to recommendations issued by the drug utilization review board established by section 369-bb of the social services law, and such practice may result in the provider being excluded from participation in the Medicaid program. Exclusion of a provider from the Medicaid program under this section may not occur unless there has been an order issued pursuant to a proceeding initiated under section twelve-a of the public health law.

51 § 18. The public health law is amended by adding a new section 276-a
52 to read as follows:

53 § 276-a. Medicaid drug rebate remittance program. 1. The department
54 shall establish a Medicaid drug rebate remittance program for the
55 purpose of working collaboratively with a qualified third party vendor,
56 selected in a manner to be determined by the commissioner without a

1 competitive bid or request for proposal, to validate the existing Medi-
2 caid drug rebate claims and determine whether the data contains dupli-
3 cate claims or claims on which rebates may already have been paid all or
4 in part to Medicare Part D plans or some other third parties, or were
5 otherwise subject to a discount pursuant to section 340B of the Public
6 Health Service Act, 42 U.S.C. § 256b, in order to rectify disputed
7 claims and reduce invalid disputes before the department. A qualified
8 third party vendor must possess and maintain, at the time of application
9 to the department: (a) secure data infrastructure to house large claim
10 data sets; (b) proven experience in the collection and standardization
11 of multiple state Medicaid data sets; (c) an established secure web
12 portal for manufacturers to access the manufacturer's labeler claim
13 level data; and (d) a robust validation tool for manufacturers to iden-
14 tify valid disputes.

15 2. For the purposes of this program, the department shall provide
16 utilization information tying to invoices sent to pharmaceutical
17 manufacturers, which have entered into a rebate agreement with the
18 department or with the federal secretary of health and human services on
19 behalf of the department under section 1927 of the federal social secu-
20 rity act, and to third party data vendors, for the purpose of validating
21 claims submitted under such rebate agreement or program including but
22 not limited to, the program for elderly pharmaceutical insurance cover-
23 age, and the Medicaid drug rebate program in general for the period from
24 January first, two thousand fourteen through June thirtieth, two thou-
25 sand eighteen. Such utilization information shall include, but not be
26 limited to: prescription numbers, national drug codes, number of units
27 dispensed, claims paid date, date of service, prescribing physician
28 state identification number, amount billed for each prescription, amount
29 of reimbursement received for each prescription (including any adjust-
30 ment codes), dispensing pharmacy's state identification number, dispens-
31 ing fee, any applicable third-party payments, applicable co-payments,
32 refill code, internal claim number of the prescription, days supply,
33 J-Code claims including single source and multisource physician adminis-
34 tered drugs, NPI numbers, MCO plan identifier, MCO plan name, and the
35 name, address, city, state and zip code of the prescribing practitioner
36 and pharmacy. The prescription drug utilization information shall be
37 provided to the third party data vendor as soon as practicable following
38 establishment of this program. There shall be no cost to the department
39 for services performed by the third party data vendor. Any prescription
40 drug utilization data provided to the third party data vendor under this
41 program shall not be shared with other parties, except participating
42 drug manufacturers who have entered into a rebate agreement with the
43 department or with the federal secretary of health and human services on
44 behalf of the department under section 1927 of the federal social secu-
45 rity act. Utilization data provided under this section shall be used for
46 the following purpose: rebate validation services for the benefit of
47 drug companies and state/federal agencies including drug use trend
48 review. Individual patient identifying information shall be kept confi-
49 dential by any person or entity to whom or to which it is provided under
50 this section. The disclosure of the foregoing data by the department
51 shall be considered, for purposes of section three hundred sixty-nine of
52 the social services law, to be directly connected with the adminis-
53 tration of medical assistance for needy persons.

54 3. The department shall select a qualified vendor no later than June
55 first, two thousand seventeen. The department shall subsequently provide
56 a report on the results of the program, with input from stakeholders, to

1 the governor, the director of the division of budget, the state comp-
2 troller and the legislature on or before December thirty-first, two
3 thousand eighteen. The report shall include findings as to the
4 program's contribution to improving the ability of the department to
5 validate drug rebate claims and rectify disputed claims.

6 § 19. 1. Medicaid FFS, the department of health shall make biannual
7 assessments of non-preferred drugs in the best clinical interests of New
8 York Medicaid beneficiaries. The department of health shall include, at
9 the manufacturer's option, a non-preferred drug as a preferred drug when
10 at least thirty-five percent of prescriptions filled in that drug's
11 class in the previous two quarters were for a non-preferred drug on the
12 PDL, provided that the manufacturer of such previously non-preferred
13 drug agrees to the rebate required under section 1927 of the Social
14 Security Act and an additional supplemental rebate. The department of
15 health and the manufacturer may negotiate the alternative supplemental
16 rebate. The previously non-preferred drug will not be disadvantaged,
17 including but not limited to imposing prior authorization or utilization
18 management requirements, to the other preferred drugs in its class other
19 than what is required by the FDA-approved label.

20 2. The department of health shall provide an annual report to the
21 legislature that outlines, with respect to any drug class on the PDL in
22 which only a single therapeutic pathway, which may involve one or more
23 drugs prescribed in combination for the same patient, is preferred, the
24 financial impact of the state's PDL decision, the clinical evidence the
25 state relied on in establishing preferences for the class, and the clin-
26 ical criteria that permit beneficiaries to access non-preferred drug in
27 such a class.

28 § 20. Severability. If any clause, sentence, paragraph, or subdivision
29 of this section shall be adjudged by any court of competent jurisdiction
30 to be invalid, such judgment shall not affect, impair, or invalidate the
31 remainder thereof, but shall be confined in its operation to the clause,
32 sentence, paragraph, or subdivision directly involved in the controversy
33 in which such judgment shall have been rendered. It is hereby declared
34 to be the intent of the legislature that this section would have been
35 enacted even if such invalid provisions had not been included herein.

36 § 21. This act shall take effect immediately and shall be deemed to
37 have been in full force and effect on and after April 1, 2017; provided,
38 however, that sections nine and sixteen of this act shall take effect
39 July 1, 2017; provided, further, that the amendments to paragraph (c) of
40 subdivision 6 of section 367-a of the social services law made by
41 section sixteen of this act shall not affect the repeal of such para-
42 graph and shall be deemed repealed therewith; and provided, further,
43 that the amendments to subdivision 9 of section 367-a of the social
44 services law made by section seven of this act shall not affect the
45 expiration of such subdivision and shall be deemed to expire therewith.

41 five years. Upon application for a renewal, the fiscal intermediary

(c) The commissioner shall fix a time and place for the hearing. A copy of the charges, together with the notice of the time and place of the hearing, shall be served in person or mailed by registered or certified mail to the fiscal intermediary at least twenty-one days before the date fixed for the hearing. (a) (1) Notwithstanding any other provision of law to the contrary, for the state fiscal years beginning April 1, 2011 and ending on March 31, 2014, all Medicaid payments made for services provided on and after April 1, 2011, shall, except as hereinafter provided, be subject to a uniform two percent reduction and such reduction shall be applied, to the extent practicable, in equal amounts during the fiscal year, provided, however, that an alternative method may be considered at the discretion of the commissioner of health and the director of the budget based upon consultation with the health care industry including but not limited to, a uniform reduction in Medicaid rates of payments or other reductions provided that any method selected achieves up to \$345,000,000 in Medicaid state share savings in state fiscal year 2011-12 and up to \$357,000,000 annually in state fiscal years 2012-13 and 2013-14 except as hereinafter provided, for services provided on and after April 1, 2011 through March 31, 2014. Any alternative methods to achieve the reduction must be provided in writing and shall be filed with the senate finance committee and the assembly ways and means committee not less than thirty days before the date on which implementation is expected to begin. Nothing in this section shall be deemed to prevent all or part of such alternative reduction plan from taking effect retroactively, to the extent permitted by the federal centers for medicare and medicaid services.

(2) Alternative methods of cost containment as authorized and implemented pursuant to paragraph one of this subdivision shall continue to be applied and maintained for periods on and after April 1, 2014, provided, however, that the commissioner of health, in consultation with the director of the budget, is authorized to terminate such alternative methods upon a finding that they are no longer necessary to maintain essential cost savings.

(3) Notwithstanding any other provision of law to the contrary, for the state fiscal years beginning April 1, 2014, and until such time as the state receives approval of its state plan amendment #15-0056 to the title XIX Medicaid state plan for long term care, the state shall fund nursing homes the Medicaid state share of the federal medical assistance percentage.

(b) Programs which have their rates adjusted pursuant to this subdivision shall use such funds solely for the purposes of recruitment, training and retention of non-supervisory home care services workers or other

1 personnel with direct patient care responsibility. Such purpose shall
2 include the recruitment, training and retention of non-supervisory home
3 care services workers or any worker with direct patient care responsi-
4 bility employed in licensed home care services agencies under contract
5 with such agencies. Such agencies are prohibited from using such fund

15 responsibility. Each such agency shall submit, at a time and in a manner
16 determined by the commissioner, a written certification attesting that
17 such funds will be used solely for the purpose of recruitment, training
18 and retention of non-supervisory home health aides or any personnel with
19 direct patient care responsibility. When submitting attestations to the
20 department, managed long term care plans shall include the methodology
21 utilized in the disbursement of funds. The commissioner is authorized to
22 audit each such agency or program to ensure compliance with the written
23 certification required by this subdivision and shall recoup any funds
24 determined to have been used for purposes other than recruitment and
25 retention of non-supervisory home health aides or other personnel with
26 direct patient care responsibility. Such recoupment shall be in addition
27 to any other penalties provided by law.

28 (e) The department shall provide a report to the chairs of the senate
29 finance committee, assembly ways and means committee, and senate health
30 and assembly health committees. Such report shall be submitted on or
31 before January first, two thousand eighteen and shall include the
32 distribution of monies by plan and provider of the funds set forth in
33 this subdivision.

13 tion for licensure as a home care service agency, the department of
14 health shall forward the application for the proposed program and accom-
15 panying documents to the public health and health planning council for
16 its written approval in accordance with the provisions of section thir-
17 ty-six hundred five of the public health law.

18 (c) An application for an assisted living program or an expansion of

24 facility;

25 (iii) that the buildings, equipment, staff, standards of care and
26 records of the adult care facility to be employed in the operation
27 comply with applicable law, rule and regulation;

28 (iv) the commissioner of health is satisfied that the licensed home

30 health planning council as required by paragraph (b) of this subdivision
31 and the equipment, personnel, rules, standards of care, and home care
32 services provided by the licensed home care agency and certified home

35 public health law and the rules and regulations thereunder; and

36 (v) [~~the commissioner and~~] the commissioner of health [~~are~~] is satis-

38 proposed after giving consideration to the relative concentration of
39 assisted living program beds in existence in the area to be served, the
40 need for alternative levels of care in the area served, the impact on
41 other providers of care and the overall availability of assisted living
42 program beds in the state.

43 (d) The department of health shall not approve an application for an
44 assisted living program or an expansion of an existing program for any

52 is subject to approval by an office of the department of mental hygiene,
53 or of any residential health care facility or home care agency as
54 defined in the public health law, unless [~~the department, in conjunction~~
55 ~~with the department of health,~~] it finds by substantial evidence as to
56 each such applicant that a substantially consistent high level of care

1 has been rendered in each such facility or institution under which such
2 person is or was affiliated. For the purposes of this paragraph, there
3 may be a finding that a substantially consistent high level of care has
4 been rendered despite a record of violations of applicable rules and
5 regulations, if such violations (i) did not threaten to directly affect
6 the health, safety or welfare of any patient or resident, and (ii) were
7 promptly corrected and not recurrent.

8 (e) ~~[The commissioner of health shall provide written notice of~~
9 ~~approval or disapproval of portions of the proposed application concern-~~

31 this section. In addition, any program which receives such authorization
32 and which at any point on or after July first, two thousand five is
33 unable to accommodate individuals awaiting placement into the assisted
34 program, shall be authorized to further increase the number of assisted
35 living beds available as part of this demonstration program by up to
36 twenty-five percent of its bed level as of July first, two thousand

44 thousand assisted living program beds to the gross number of assisted
45 living program beds having been determined to be available as of April
46 first, two thousand nine. Nothing herein shall be interpreted as prohib-

49 not be required to review on a comparative basis applications submitted
50 for assisted living program beds made available under this paragraph.
51 The commissioner of health shall only authorize the addition of six
52 thousand beds pursuant to a seven year plan ending prior to January
53 first, two thousand seventeen.

54 (b) The commissioner of health shall provide an annual written report
55 to the chair of the senate standing committee on health and the chair of

18 this paragraph.

19 (k) Beginning on April first, two thousand seventeen, the commissioner
20 of health is authorized to approve assisted living program beds for any
21 eligible applicant that satisfactorily demonstrates the public need for
22 such beds in the area to be served and meets all other applicable
23 requirements of this section. Assisted living program bed availability
24 determinations and limitations in place prior to April first, two thou-

26 program beds shall be generally available to meet demonstrated public
27 need on a case by case basis whenever the commissioner is satisfied
28 public need exists at the time and place and under circumstances
29 proposed by the applicant; provided, however, the prior bed authori-
30 zations in paragraphs (h), (i) and (j) of this subdivision shall contin-
31 ue in full force and effect.

32 § 6-f. Paragraph (d-2) of subdivision 3 of section 364-j of the
33 social services law, as added by section 20-a of part B of chapter 59 of
34 the laws of 2016, is amended to read as follows:

44 sioner of health is hereby directed to take any action required, includ-
45 ing but not limited to filing waivers and waiver extensions as necessary
46 with the federal government, to continue the provision of such services.

47 § 6-g. Subdivision 8 of section 4403-f of the public health law, as
48 amended by section 21 of part B of chapter 59 of the laws of 2016, is
49 amended as follows:

50 8. Payment rates for managed long term care plan enrollees eligible
51 for medical assistance. The commissioner shall establish payment rates
52 for services provided to enrollees eligible under title XIX of the
53 federal social security act. Such payment rates shall be subject to
54 approval by the director of the division of the budget and shall reflect
55 savings to both state and local governments when compared to costs which
56 would be incurred by such program if enrollees were to receive compara-

ble health and long term care services on a fee-for-service basis in the geographic region in which such services are proposed to be provided. In addition, the commissioner shall be authorized to apply a positive, geographic adjustment to the rates for managed long term care plans serving either rural or other regions where costs are increased due to elements of geography, regional resource limitations, population density and/or other regional factors, and where such rate adjustment is necessary in order to ensure adequate service capacity and quality care in the region. Payment rates shall be risk-adjusted to take into account the characteristics of enrollees, or proposed enrollees, including, but not limited to: frailty, disability level, health and functional status, age, gender, the nature of services provided to such enrollees, and other factors as determined by the commissioner. The risk adjusted premiums may also be combined with disincentives or requirements designed to mitigate any incentives to obtain higher payment categories. In setting such payment rates, the commissioner shall consider costs borne by the managed care program plans and service providers to ensure actuarially sound and adequate rates of payment to ensure quality of care shall comply with all applicable laws and regulations, state and federal, including regulations as to actuarial soundness for medicaid managed care. To ensure quality care, the commissioner shall also consider the need for any necessary positive adjustments in the premium and rate calculations based on critical costs and need not be reflected in the managed care program historical cost and encounter statistical base, including but not limited to cost and need for direct care personnel wages and benefits and related cost to ensure workforce/service capacity to meet community need, provider technology capacity, quality innovation, essential direct care staff training, addressing public health priorities, and other system infrastructure and transition needs. In setting actuarially sound and adequate payment rates, the commissioner shall follow the analysis and recommendations of an independent actuary, which shall also provide his or her certification and analysis directly to the chairs of the senate and assembly committees on health, the chair of the senate finance committee and the chair of the assembly committee on ways and means. The commissioner shall submit to the director of the budget, rates that are actuarially sound to cover these costs.

§ 6-h. Paragraph (c) of subdivision 18 of section 364-j of the social services law, as added by section 40-c of part B of chapter 57 of the laws of 2015 is REPEALED.

§ 6-i. Paragraph (c) of subdivision 18 of section 364-j of the social services law, as added by section 55 of part B of chapter 57 of the laws of 2015, is amended to read as follows:

(c) (i) In setting such reimbursement methodologies, the department shall consider costs borne by the managed care program to ensure that each plan receives actuarially sound and adequate rates of payment to ensure quality of care for its enrollees. The department of health shall require the independent actuary selected pursuant to paragraph (b) of this subdivision to provide a complete actuarial memorandum, along with all actuarial assumptions made and all other data, materials and methodologies used in the development of rates, to managed care providers thirty days prior to submission of such rates to the centers for medicare and medicaid services for approval. Managed care providers may request additional review of the actuarial soundness of the rate setting process and/or methodology.

(ii) In fulfilling the requirements of this paragraph, the department of health, in consultation with the independent actuary, the affected managed care providers and other interested parties, shall develop and utilize statistically validated assessment tools to determine the care needs of individuals enrolled in managed care plans, which shall involve consideration of variables including, but not limited to, physical and behavioral functioning, activities of daily living and instrumental activities of daily living, and primary or secondary diagnoses of cognitive impairment or mental illness.

(iii) The department shall establish separate rate cells to reflect the costs of care for specific high-need and/or high-cost enrollees of managed care providers operating on a full capitation basis and in managed long term care plans operating in accordance with the provisions of section forty-four hundred three-f of the public health law. By June thirtieth, two thousand seventeen the commissioner shall submit to the Centers for Medicare and Medicaid Services a state plan amendment or other appropriate approval of a capitated rate which includes a separate rate cell or cells and shall also include policies and procedures to ensure Americans with Disability Act and federal Olmstead compliance for covering the cost of care for each of the following:

(A) individuals in managed care providers operating on a full capitation basis and individuals in managed long term care plans that are either already residing in a skilled nursing home or are placed in a skilled nursing home;

(B) individuals in managed long term care plans, who remain in the community and who daily receive live-in or twelve hours or more of personal care or home health services;

(C) individuals in fully-capitated plans who satisfy the criteria for inclusion in a health and recovery plan for persons with serious mental illness, but have not been enrolled in such a plan; and

(D) such other individuals who, based on the assessment of their care needs, their diagnosis or other factors, are determined to present uniquely high-needs and are likely to generate high costs, as may be identified by the department.

(iv) Should the commissioner not receive authorization by the Centers for Medicare and Medicaid Services to implement a separate nursing home facility rate cell or cells under clause (A) of subparagraph (iii) of this paragraph by December thirty-first, two thousand seventeen, the commissioner shall direct managed care organizations licensed under article forty-four of the public health law, article forty-three of the insurance law, and this section, to continue to reimburse nursing home facilities for services provided to persons eligible for medical assistance who are enrolled in such managed care organizations at a benchmark rate which is to be the fee-for-service rate calculated pursuant to section twenty-eight hundred eight of the public health law paid by the Medicaid program for such services. The commissioner shall further insure that the premium paid to managed care organizations for such services is commensurate with the benchmark rate. The benchmark fee-for-service rate shall continue to be paid by such managed care organizations for all services provided by residential health care facilities from the effective date of this subparagraph at least until March thirty-first, two thousand nineteen.

1. For state fiscal years 2011-12 through 2017-18, the director of the budget, in consultation with the commissioner of health referenced as "commissioner" for purposes of this section, shall assess on a monthly basis, as reflected in monthly reports pursuant to subdivision five of this section known and projected department of health state funds medicaid expenditures by category of service and by geographic regions, as defined by the commissioner, and if the director of the budget determines that such expenditures are expected to cause medicaid disbursements for such period to exceed the projected department of health medicaid state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, the commissioner of health, in consultation with the director of the budget, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit level specified in the enacted budget financial plan, provided, however, such ~~[projections may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, changes in provider revenues, reductions to local social services district medical assistance administration, minimum wage increases, and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund and state costs or savings from the basic health plan. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency]~~ savings allocation plan must be approved by legislation prior to implementation.

§ 1-a. Section 91 of part H of chapter 59 of the laws of 2011, amending the public health law and other laws relating to general hospital inpatient reimbursement for annual rates, as amended by section 5 of part F of chapter 56 of the laws of 2012 and subdivision 1 as amended by section 2 of part A of chapter 56 of the laws of 2013, is amended to read as follows:

§ 91. 1. 1 of the medical component of the consumer price index as published by the
2 United States department of labor, bureau of labor statistics, for the
3 preceding ten years; provided, however, that for state fiscal year
4 2013-14 and for each fiscal year thereafter, the maximum allowable annu-
5 al increase in the amount of department of health state funds Medicaid
6 spending shall be calculated by multiplying the department of health
7 state funds Medicaid spending for the previous year, minus the amount of
8 any department of health state operations spending included therein, by
9 such ten year rolling average.

10 2. Except as provided in subdivision three of this section, for state
11 fiscal year 2013-14 and for each fiscal year thereafter, the spending
12 limit calculated pursuant to subdivision one of this section shall be
13 increased by an amount equal to the difference between the total social

16 section 1 of part C of chapter 58 of the laws of 2005 and the total

24 calculated pursuant to subdivision one of this section shall be reduced
25 by the amount of the medical assistance expenditure amount calculated
26 for such district for such period.

27 4. The year to year rate of growth shall be rebased as of April 1,
28 2017 in proportion to the elimination of funds currently calculated in
29 the annual department of health state funds Medicaid spending that do
30 not satisfy subdivision one of this section.

31 § 2. Intentionally omitted.

32 § 3. Section 4-a of part C of chapter 58 of the laws of 2005, author-
33 izing reimbursements for expenditures made by or on behalf of social
34 services districts for medical assistance for needy persons and the
35 administration thereof, is amended by adding a new subdivision (e) to
36 read as follows:

37 (e) Beginning with state fiscal year 2017-18, the amount due to be
38 reimbursed under subdivision (a) of this section to a social services

44 and payable Medicaid claims for preschool and school supportive health
45 services eligible for federal financial participation; the department of
46 health will provide technical assistance as needed to assist the social
47 services district in implementing the plan, which must detail: how the
48 city will identify preschool and school-aged children who are receiving
49 preschool and school supportive health services reimbursable under the
50 current Medicaid state plan and submit claims for reimbursement; and how
51 the plan will generate fifty million dollars in state savings to the
52 Medicaid program. Such plan may be revised, subject to the review and
53 approval of the commissioner of health, as necessary to maintain the
54 increased level of claiming and to generate the required Medicaid state
55 savings in subsequent fiscal years; and

(ii) On October 1, 2017 and annually thereafter, the commissioner of health determines that ongoing activities under the approved shared savings allocation plan approved pursuant to subparagraph (i) of this paragraph are likely to achieve the targeted dollar amount of payable Medicaid claims for preschool and school supportive health services for the applicable fiscal year; the social services district and city shall provide such information and documentation as the commissioner of health may require in order to make such determination.

(iii) The non-federal share of the costs of services for which claims are submitted as a result of the implementation of the shared savings allocation plan established pursuant to this paragraph shall be the responsibility of the social services district.

(iv) Any reduction in the amount due to be reimbursed under subdivision (a) of this section as a result of the operation of this subdivision shall be in addition to any reduction imposed pursuant to subdivision (c) of this section or authorized pursuant to any other applicable law.

§ 3-a. Notwithstanding any contrary provision of law, the commissioner of health shall not take any action with the purpose of reducing payment for general hospital emergency services visits provided to patients eligible for medical assistance pursuant to title 11 of article 5 of the social services law, including such patients enrolled in organizations operating in accordance with the provisions of article 44 of the public health law or in health maintenance organizations organized and operating in accordance with article 43 of the insurance law.

§ 3-b. Section 364-j of the social services law is amended by adding a new subdivision 33 to read as follows:

33. Rates paid to managed care organizations participating in a managed care program pursuant to this section may not be reduced as part of any administrative action if:

(b) any managed care organization participating in the same managed care program has reported a medical loss ratio exceeding ninety percent in the preceding calendar year; or

(c) the reduction is applicable to a rate period that began prior to the date that the rates for that period have been implemented.

For purposes of this subdivision "rates" shall include the total payments made to plans for purposes of distributions under a quality pool program. While the amount paid to each plan may vary depending on plan performance under the quality payment metrics, the total amount paid to all plans for quality pool payments shall constitute "rates" and are subject to the provisions of this section. "Rates" shall not include specifically identified amounts added to reimburse plans for payments due to providers or other entities pursuant to statutory obligations, taxes or waiver program participation.

Distributions shall first be made to consortia and teaching general hospitals for the empire clinical research investigator program (ECRIP) to help secure federal funding for biomedical research, train clinical researchers, recruit national leaders as faculty to act as mentors, and train residents and fellows in biomedical research skills based on hospital-specific data submitted to the commissioner by consortia and teaching general hospitals in accordance with clause (G) of this subpar-

1 agraph. Such distributions shall be made in accordance with the follow-
2 ing methodology:

3 (A) The greatest number of clinical research positions for which a

29 that is equal to or less than the total amount reserved for that region
30 within the appropriation, the funding for each clinical research posi-
31 tion in that region shall be reduced proportionally in one thousand
32 dollar increments until the total dollar amount for the total number of
33 clinical research positions in that region does not exceed the total
34 amount reserved for that region within the appropriation. Any reduction
35 in funding will be effective for the duration of the award. No clinical
36 research positions that continue from and were funded in prior distrib-
37 ution periods shall be eliminated or reduced by such methodology.

39 annual distribution amount in accordance with the following:

47 subsequent funding cycle.

48 (II) Each consortium or teaching general hospital with a two-year
49 ECRIP award shall receive its first annual distribution amount in full
50 upon completion of the requirements set forth in items (I) and (II) of
51 clause (G) of this subparagraph. Each consortium or teaching general

53 completion of the requirements set forth in item (III) of clause (G) of
54 this subparagraph. The requirements set forth in items (IV) and (V) of
55 clause (G) of this subparagraph must be completed by the consortium or
56 teaching general hospital in order for the consortium or teaching gener-

1 al hospital to be eligible to apply for ECRIP funding in any subsequent
2 funding cycle.

3 (E) Each consortium or teaching general hospital receiving distrib-
4 utions pursuant to this subparagraph shall reserve seventy-five thousand
5 dollars to primarily fund salary and fringe benefits of the clinical
6 research position with the remainder going to fund the development of

10 research positions pursuant to this paragraph for a distribution period
11 shall be available to fund clinical research positions in a subsequent
12 distribution period.

21 five years from the date of submission:

22 (I) For each clinical research position, information on the type,
23 scope, training objectives, institutional support, clinical research
24 experience of the sponsor-mentor, plans for submitting research outcomes
25 to peer reviewed journals and at scientific meetings, including a meet-
26 ing sponsored by the department, the name of a principal contact person
27 responsible for tracking the career development of researchers placed in
28 clinical research positions, as defined in paragraph (c) of subdivision
29 one of this section, and who is authorized to certify to the commission-

49 necessary to track the researcher; and

50 (VI) Any other data or information required by the commissioner to
51 implement this subparagraph.

52 (H) Notwithstanding any inconsistent provision of this subdivision,
53 for periods on and after April first, two thousand thirteen, ECRIP grant
54 awards shall be made in accordance with rules and regulations promulgat-
55 ed by the commissioner. Such regulations shall, at a minimum:

10 rates would be adequate when taken together with the maximum authorized
11 annual surcharges to be imposed for a reasonable period of time whether
12 or not any such annual surcharge has been actually imposed as of the
13 establishment of such rates.

42 PART M

43 Section 1. This act shall be known and may be cited as the "Emerging
44 Contaminant Monitoring Act."

45 § 2. The public health law is amended by adding a new section 1112 to
46 read as follows:

47 § 1112. Emerging contaminant monitoring. 1. Industry and modern tech-
48 nology have created thousands of new chemicals that would not otherwise
49 exist in nature. Although some of these chemicals have proven benefits,
50 the effect of many such chemicals on human health is unknown or not
51 fully understood. Furthermore, with the advance of science and technolo-
52 gy, public health scientists and experts are able to identify naturally
53 occurring contaminants that pose previously unknown hazards to human
54 health. Where these chemicals or contaminants, collectively referred to

1 as "emerging contaminants," enter drinking water supplies, they can
2 present unknown but potentially serious risks to public health. New
3 Yorkers served by public water supplies have the right to know when
4 potentially hazardous substances contaminate their drinking water and
5 the department must be equipped to monitor and protect the public from
6 these emerging contaminants.

7 2. a. "Emerging contaminants" shall mean any substance listed on the
8 federal Safe Drinking Water Act (42 USC § 300g-1) unregulated contam-
9 inant monitoring rule as amended from time to time and any substance
10 recommended by the Drinking Water Quality Institute and adopted by the
11 department as set forth in section two hundred sixty-seven of this chap-
12 ter.

13 b. "Nontransient noncommunity water system" shall mean a public water
14 system that is not a community water system but is a subset of a noncom-
15 munity water system that regularly serves at least twenty-five of the
16 same people, four hours or more per day, for four or more days per week,
17 for twenty-six or more weeks per year.

18 c. "Covered public water system" shall mean a community or nontran-
19 sient noncommunity water system that serves more than four thousand
20 individuals.

21 d. "Non-covered public water system" shall mean a community or
22 nontransient noncommunity water system that serves four thousand or less
23 individuals.

24 3. a. Every covered public water system in the state shall test drink-
25 ing water for the presence of emerging contaminants at least once every
26 three years. The commissioner may require certain non-covered public
27 water systems to test for specific emerging contaminants if he or she
28 has a reasonable belief that such testing is necessary for public safe-
29 ty.

30 b. A non-covered public water system may request that the department
31 test for an emerging contaminant. If requested, the department shall
32 conduct such testing within thirty days of the request and provide the
33 non-covered public water system with test results within thirty days of
34 receipt. Testing performed pursuant to this paragraph shall take place
35 no more often than as required by paragraph a of this subdivision,
36 unless the commissioner has a reasonable belief that additional testing
37 is necessary for public safety.

38 c. Every test conducted in accordance with this section by or for a
39 covered or non-covered public water system under 10,000 individuals
40 shall be funded by the state subject to appropriation.

41 4. Every test conducted in accordance with this section shall be
42 conducted by a laboratory certified by the department pursuant to
43 section five hundred two of this chapter. Laboratories shall submit such
44 results to the covered public water system or non-covered public water
45 system and the department electronically in the manner prescribed pursu-
46 ant to section five hundred two of this chapter.

47 5. The commissioner shall promulgate regulations establishing notifi-
48 cation levels equal to the maximum contaminant level, advisory level or
49 other threshold level recommended by the Drinking Water Quality Insti-
50 tute established in section two hundred sixty-seven of this chapter. In
51 the interim, or in the absence of such recommendation by the Drinking
52 Water Quality Institute, the commissioner shall adopt any existing
53 federal advisory or other threshold level as a notification level.

54 6. The commissioner may, by declaration, add any physical, chemical,
55 microbiological or radiological substance to the list of emerging
56 contaminants established pursuant to paragraph a of subdivision two of

this section, which shall include establishment of a notification level for such substance, if the commissioner determines that such substance poses or has the potential to pose a hazard to human health when present in drinking water, provided that the commissioner must promulgate regulations adding the new emerging contaminant and establishing such notification level within one year of such declaration.

7. Whenever a covered public water system or a non-covered public water system is advised by the laboratory or the state that one or more emerging contaminants is present in drinking water at concentrations above a notification level established pursuant to this section:

a. the covered public water system or non-covered public water system shall notify the state and all owners of real property served by the system in a time of not more than ten days and manner to be prescribed by the department, taking into consideration any notification recommendations of the Drinking Water Quality Institute established in section two hundred sixty-seven of this chapter; and

b. the commissioner shall work with the covered public water system or non-covered public water system to reduce exposure to emerging contaminants in a timely manner and provide assistance with accessing available resources.

8. Any owner of real property, including any owner's agent, to whom a covered public water system or non-covered public water system has provided notification of the exceedance of a notification level established pursuant to subdivision five of this section, shall take all reasonable and necessary steps to provide, within ten days, any tenants with copies of the notification provided by the water system.

9. The commissioner shall promulgate regulations pursuant to which the department shall provide financial assistance for compliance with the testing requirements of this section to any covered public water system or non-covered public water system upon a showing that the costs associated with testing drinking water in compliance with this section would impose a financial hardship.

§ 3. Section 502 of the public health law is amended by adding a new subdivision 10 to read as follows:

10. The department may require an environmental laboratory to report laboratory test results to the department, or to any full-time city, town, village, county or part-county health department or other appropriately authorized official in an electronic manner prescribed by the department.

§ 4. This act shall take effect on the ninetieth day after it shall have become a law; provided, however, that effective immediately, the addition, amendment and/or repeal of any rule or regulation necessary for the implementation of this act on its effective date are authorized and directed to be made and completed on or before such date.

20 § 4. Subdivision 2 of section 2776 of the public health law is renum-

22 2. To the extent the services under subdivision one of this section
23 include the payment of health insurance premiums for certain individuals
24 with acquired immune deficiency syndrome, the premium payments shall
25 include an additional premium subsidy to be paid to the individual's
26 health plan. The subsidy shall be in addition to the premiums otherwise
27 charged for such coverage, in an amount determined by the department of
28 financial services, in consultation with the institute, to be actuarial-
29 ly sufficient to ensure that the coverage provided to the eligible indi-
30 viduals does not negatively impact the current or future cost of such
31 coverage for other individuals purchasing the same or comparable cover-
32 age from the health plan. The amount of the subsidy may vary by health
33 plan, as actuarially necessary.

34 § 5. Subdivision 1 of section 364-j of the social services law is

41 management of chronic disease, behavioral health services directly or by
42 referral, and which may provide vision care, dental care, nutritional or
43 other enhanced services to children and adolescents within an elementa-

45 (w-1) "Sponsoring organization". A facility licensed under article
46 twenty-eight of the public health law which acts as the sponsor for a
47 school-based health center.

48 § 6. Subdivision 3 of section 364-j of the social services law is

50 (d-3) Services provided by school-based health centers shall not be
51 provided to medical assistance recipients through managed care programs
52 established pursuant to this section, and shall continue to be provided
53 outside of managed care programs in accordance with applicable
54 reimbursement methodologies. Applicable reimbursement methodologies
55 shall mean:

1 (i) for school-based health centers sponsored by a federally qualified
2 health center, rates of reimbursement and requirements in accordance
3 with those mandated by 42 U.S.C. Secs. 1396a(bb), 1396(m)(2)(A)(ix) and
4 1936(a)(13)(C); and

5 (ii) for school-based health centers sponsored by an entity licensed
6 pursuant to article twenty-eight of the public health law that is not a
7 federally qualified health center, rates of reimbursement at the fee for
8 service rate for such services in effect prior to the effective date of
9 this paragraph for the ambulatory patient group rate for the applicable
10 service.

11 § 7. Section 365-1 of the social services law, as added by section 37
12 of part H of chapter 59 of the laws of 2011, subdivision 2-a as added by
13 section 23 of part A of chapter 56 of the laws of 2013, subdivision 2-b
14 as amended by section 17 of part B of chapter 59 of the laws of 2016,
15 subdivision 2-c as added by section 25 of part B of chapter 59 of the
16 laws of 2015 and subdivision 9 as amended by section 28 of part B of
17 chapter 59 of the laws of 2016, is amended to read as follows:

18 § 365-1. Health homes. 1. Notwithstanding any law, rule or regulation
19 to the contrary, the commissioner of health is authorized, in consulta-
20 tion with the commissioners of the office of mental health, office of
21 alcoholism and substance abuse services, and office for people with
22 developmental disabilities, to (a) establish, in accordance with appli-
23 cable federal law and regulations, uniform and consistent standards,
24 including a certification process, for the provision of [~~health home~~
25 ~~services~~] assistance with care management provided by health homes to
26 Medicaid enrollees with chronic conditions, (b) establish payment meth-
27 odologies for [~~health home services~~] such assistance based on factors
28 including but not limited to the complexity of the conditions providers
29 will be managing, the anticipated amount of patient contact needed to
30 manage such conditions, and the health care cost savings realized by
31 provision of health home services, (c) establish the criteria under
32 which a Medicaid enrollee will be designated as being an eligible indi-
33 vidual with chronic conditions for purposes of this program, (d) assign
34 any Medicaid enrollee designated as an eligible individual with chronic
35 conditions to a provider of health home services. For purposes of this
36 section, for Medicaid enrollees enrolled with a managed care provider,
37 "assistance with care management" shall be defined as outreach, educa-
38 tional assistance and other logistical coordination designed to assist a
39 managed care provider in undertaking its care management functions. The
40 standards and scope of assistance with care management provided by
41 health homes as authorized by this section, and the payment for such
42 services, shall be prescribed by the commissioner and set forth in the
43 contract between the health home and a managed care provider as
44 prescribed by subdivision ten of this section. In identifying appropri-
45 ate payment for health home services provided pursuant to this subdivi-
46 sion, the commissioner shall take into account socioeconomic and other
47 factors affecting the level and intensity of effort required for effec-
48 tive health home outreach and engagement with identified populations.

49 2. In addition to payments made for health home services pursuant to
50 subdivision one of this section, the commissioner is authorized to pay
51 additional amounts to providers of health home services that meet proc-
52 ess or outcome standards specified by the commissioner and agreed upon
53 by the managed care provider which has contracted with the health home
54 for assistance with care management. A managed care provider shall not
55 be obligated to reimburse a health home for health home services, unless
56 the health home has contracted with the managed care provider.

2-a. Up to fifteen million dollars in state funding may be used to fund health home infrastructure development. Such funds shall be used to develop enhanced systems to support Health Home operations including assignments, workflow, and transmission of data. Funding will also be disbursed pursuant to a formula established by the commissioner to be designated health homes. Such formula may consider prior access to similar funding opportunities, geographic and demographic factors, including the population served, and prevalence of qualifying conditions, connectivity to providers, and other criteria as established by the commissioner.

2-b. The commissioner is authorized to make lump sum payments or adjust rates of payment to providers up to a gross amount of five million dollars, to establish coordination between the health homes and the criminal justice system and for the integration of information of health homes with state and local correctional facilities, to the extent permitted by law. Such rate adjustments may be made to health homes participating in a criminal justice pilot program with the purpose of enrolling incarcerated individuals with serious mental illness, two or more chronic conditions, including substance abuse disorders, or HIV/AIDS, into such health home. Health homes receiving funds under this subdivision shall be required to document and demonstrate the effective use of funds distributed herein.

2-c. The commissioner is authorized to make grants up to a gross amount of one million dollars for certified application counselors and assistants to facilitate the enrollment of persons in high risk populations, including but not limited to persons with mental health and/or substance abuse conditions that have been recently discharged or are pending release from state and local correctional facilities. Funds allocated for certified application counselors and assistants shall be expended through a request for proposal process.

2-d. Notwithstanding any inconsistent provision of sections one hundred twelve and one hundred sixty-three of the state finance law or any other law to the contrary, the commissioner shall make grants for a gross amount of five million dollars to the Collaborative for Children and Families for the purpose of supporting the development and implementation of a comprehensive care management program for children with complex and chronic medical conditions. Funds allocated herein shall be distributed without a request for proposals and shall not be disbursed pursuant to a formula.

3. Until such time as the commissioner obtains necessary waivers and/or approvals of the federal social security act, Medicaid enrollees assigned to providers of health home services will be allowed to opt out of such services. In addition, upon enrollment, an enrollee shall be offered an option of at least two providers of health home services, to the extent practicable.

4. Payments authorized pursuant to this section will be made with state funds only, to the extent that such funds are appropriated therefore, until such time as federal financial participation in the costs of such services is available.

5. The commissioner is authorized to submit amendments to the state plan for medical assistance and/or submit one or more applications for waivers of the federal social security act, to obtain federal financial participation in the costs of health home services provided pursuant to this section, and as provided in subdivision three of this section.

~~[6. Notwithstanding any limitations imposed by section three hundred sixty-four-1 of this title on entities participating in demonstration~~

~~projects established pursuant to such section, the commissioner is authorized to allow such entities which meet the requirements of this section to provide health home services.]~~

7. Notwithstanding any law, rule, or regulation to the contrary, the commissioners of the department of health, the office of mental health, the office for people with developmental disabilities, and the office of alcoholism and substance abuse services are authorized to jointly establish a single set of operating and reporting requirements and a single set of construction and survey requirements for entities that:

(a) can demonstrate experience in the delivery of health, and mental health and/or alcohol and substance abuse services and/or services to persons with developmental disabilities, and the capacity to offer integrated delivery of such services in each location approved by the commissioner; and

(b) meet the standards established pursuant to subdivision one of this section for providing [~~and receiving payment for health home~~] assistance with care management services; provided, however, that an entity meeting the standards established pursuant to subdivision one of this section shall not be required to be an integrated service provider pursuant to this subdivision.

In establishing a single set of operating and reporting requirements and a single set of construction and survey requirements for entities described in this subdivision, the commissioners of the department of health, the office of mental health, the office for people with developmental disabilities, and the office of alcoholism and substance abuse services are authorized to waive any regulatory requirements as are necessary to avoid duplication of requirements and to allow the integrated delivery of services in a rational and efficient manner.

8. (a) The commissioner of health is authorized to contract with one or more entities to assist the state in implementing the provisions of this section. Such entity or entities shall be the same entity or entities chosen to assist in the implementation of the multipayor patient centered medical home program pursuant to section twenty-nine hundred fifty-nine-a of the public health law. Responsibilities of the contractor shall include but not be limited to: developing recommendations with respect to program policy, reimbursement, system requirements, reporting requirements, evaluation protocols, and provider and patient enrollment; providing technical assistance to potential medical home and health home providers; data collection; data sharing; program evaluation, and preparation of reports.

(b) Notwithstanding any inconsistent provision of sections one hundred twelve and one hundred sixty-three of the state finance law, or section one hundred forty-two of the economic development law, or any other law, the commissioner of health is authorized to enter into a contract or contracts under paragraph (a) of this subdivision without a competitive bid or request for proposal process, provided, however, that:

(i) The department of health shall post on its website, for a period of no less than thirty days:

(1) A description of the proposed services to be provided pursuant to the contract or contracts;

(2) The criteria for selection of a contractor or contractors;

(3) The period of time during which a prospective contractor may seek selection, which shall be no less than thirty days after such information is first posted on the website; and

(4) The manner by which a prospective contractor may seek such selection, which may include submission by electronic means;

1 (ii) All reasonable and responsive submissions that are received from
2 prospective contractors in timely fashion shall be reviewed by the
3 commissioner of health; and

4 (iii) The commissioner of health shall select such contractor or
5 contractors that, in his or her discretion, are best suited to serve the
6 purposes of this section.

7 9. The contract entered into by the commissioner of health prior to
8 January first, two thousand thirteen pursuant to subdivision eight of
9 this section may be amended or modified without the need for a compet-
10 itive bid or request for proposal process, and without regard to the
11 provisions of sections one hundred twelve and one hundred sixty-three of
12 the state finance law, section one hundred forty-two of the economic
13 development law, or any other provision of law, excepting the responsi-
14 ble vendor requirements of the state finance law, including, but not
15 limited to, sections one hundred sixty-three and one hundred thirty-
16 nine-k of the state finance law, to allow the purchase of additional
17 personnel and services, subject to available funding, for the limited
18 purpose of assisting the department of health with implementing the
19 Balancing Incentive Program, the Fully Integrated Duals Advantage
20 Program, the Vital Access Provider Program, the Medicaid waiver amend-
21 ment associated with the public hospital transformation, the addition of
22 behavioral health services as a managed care plan benefit, the delivery
23 system reform incentive payment plan, activities to facilitate the tran-
24 sition of vulnerable populations to managed care and/or any workgroups
25 required to be established by the chapter of the laws of two thousand
26 thirteen that added this subdivision. The department is authorized to
27 extend such contract for a period of one year, without a competitive bid
28 or request for proposal process, upon determination that the existing
29 contractor is qualified to continue to provide such services; provided,
30 however, that the department of health shall submit a request for appli-
31 cations for such contract during the time period specified in this
32 subdivision and may terminate the contract identified herein prior to
33 expiration of the extension authorized by this subdivision.

34 10. Notwithstanding any provision of this section to the contrary,
35 managed care providers operating pursuant to section three hundred
36 sixty-four-j of this title may either contract directly with one or more
37 care management agencies or with one or more health homes to provide
38 assistance with care management as authorized by this section to Medi-
39 caid enrollees who participate with the managed care provider. Such
40 assistance with care management services: (i) shall be available to
41 enrollees who would otherwise be eligible to receive health home
42 services pursuant to this section; (ii) may be provided to participants
43 enrolled with the managed care provider without regard to any service
44 area designation or limitation otherwise applicable to the health home;
45 and (iii) shall not include the delegation of the actual care management
46 functions undertaken by a managed care provider, unless the managed care
47 provider, in its discretion, determines to delegate such function to the
48 health home pursuant to the terms of the agreement between the managed
49 care provider and the health home. Participants in a managed care
50 provider shall not be eligible to receive health home services from any
51 health home that has not entered into a contract to provide assistance
52 with care management services with a managed care provider pursuant to
53 this paragraph.

54 § 8. Notwithstanding any provision of law to the contrary, for rates
55 of payment for the period April 1, 2017 through March 31, 2018, not-for-
56 profit residential health care facilities with a department of health

1 bed census count of four hundred seventy beds as of December 31, 2016
2 and located in the county of Monroe shall receive an aggregate per diem
3 adjustment of eight hundred sixty thousand dollars. Such adjustment
4 shall reflect payment for otherwise reimbursable services that were not
5 previously reimbursed due to an unforeseen systems error resulting in
6 the provider's failure to submit timely claims for services. The adjust-
7 ment may be payable by the department of health through Medicaid rates
8 of payment as a rate add-on or lump sum payments through the statewide
9 financial system, on a quarterly basis or any other basis as determined
10 by the commissioner of health. Such adjustment shall be in addition to
11 any other claims for reimbursement made by such eligible facilities.
12 Such adjustment shall be subject to cash receipts assessment and equity
13 withdrawal limitations.

14 § 9. Subdivision 2 of section 365-a of the social services law is
15 amended by adding a new paragraph (ee) to read as follows:

16 (ee) Medical assistance shall include infertility services at the same
17 coverage level as provided for by paragraphs thirteen and thirteen-a of
18 subsection (i) of section three thousand two hundred sixteen, paragraph
19 six of subsection (k) of section three thousand two hundred twenty-one
20 and section four thousand three hundred three of the insurance law.

21 § 10. This act shall take effect immediately; provided, however, that
22 the implementation of the provisions of section two of this act shall be
23 subject to the appropriation of moneys specifically for the purposes
24 thereof; provided, however, that section three of this act shall be
25 deemed to have been in full force and effect on and after April 1, 2016;
26 provided, further, the amendments made to section 364-j of the social
27 services law by sections five and six of this act shall not affect the
28 repeal of such section and shall be deemed repealed therewith.

31 public health law, as added by chapter 542 of the laws of 2000, is
32 amended to read as follows:

33 (q) health care plans with which the licensee has contracts, employ-
34 ment, or other affiliation; provided that the reporting of such informa-
35 tion shall not be the responsibility of the physician, but shall be
36 included and updated by the department utilizing provider network
37 participation information, or other reliable sources of information
38 submitted by health care plans.

39 § 2. Subdivision 4 of section 2995-a of the public health law, as
40 amended by section 3 of part A of chapter 57 of the laws of 2015, is
41 amended to read as follows:

42 4. Each physician shall periodically report to the department on forms
43 and in the time and manner required by the commissioner any other infor-
44 mation as is required by the department for the development of profiles

46 addition to such periodic reports and providing the same information,
47 each physician shall update his or her profile information within the
48 six months prior to the ~~[expiration date of such physician's registra-~~
49 ~~tion period]~~ submission of the re-registration application, as a condi-

51 education law. Except for optional information provided, physicians
52 shall notify the department of any change in the profile information
53 within thirty days of such change.

6. A physician may elect to have his or her profile omit certain information provided pursuant to paragraphs (l), (m)[~~r~~] and (n) [~~and~~ (~~q~~)] of subdivision one of this section. (b) the physician takes reasonable steps to ensure that such designee is sufficiently competent in the profile requirements; and

(c) the physician remains responsible for ensuring the accuracy of the information provided and for any failure to provide accurate information.

The commissioner shall establish in regulation reasonable parameters with regard to a physician's ability to authorize designees pursuant to this section, which shall include processes necessary to allow the department to: (i) grant access to the profile in a reasonably prompt manner to designees authorized by physicians; (ii) require that physicians notify the department upon terminating the authorization of any designee; and (iii) establish a mechanism to prevent such terminated designees from accessing the profile in a reasonably prompt manner following such notification.

§ 5. The article heading of article 43-B of the public health law, as added by chapter 589 of the laws of 1990, is amended to read as follows:

ORGAN[~~, TISSUE AND BODY PARTS~~] PROCUREMENT AND [~~STORAGE~~]

§ 7. Article 43-B of the public health law is amended by adding a new title 2 to read as follows:

TITLE 2

LIVING ORGAN DONATION

Section 4369. Definitions.

4370. Reimbursement of living donor expenses.

4371. Transplant education of patients with kidney disease or end stage renal failure.

§ 4369. Definitions. As used in this title, the following terms shall have the following meanings, unless the context clearly requires otherwise:

1. "Living donation" means the gift by an individual of an organ of that individual's body to be transplanted into another individual's body, the gift to be executed while the donating individual is living and with the intent that the donating individual will continue to live after the execution of the gift.

2. "Living donor" means an individual who makes a living donation.

1 3. "Living donor expenses" means financial costs incurred by a living
2 donor that arise due to the act of living donation and its consequences,
3 that are subject to reimbursement under section forty-three hundred
4 seventy of this title.

5 4. "Living donor support program" or "program" means the living donor
6 support program established under section forty-three hundred seventy of
7 this title.

8 5. "Paired donation" means a living donation in which the living
9 donor's organ is incompatible with the ultimate intended recipient and
10 the living donor's organ is transplanted into another recipient, and in
11 turn another living donor makes a living donation, directly or through
12 one or more paired donations, to the ultimate recipient.

13 § 4370. Reimbursement of living donor expenses. 1. The living donor
14 support program is hereby established in the department.

15 2. (a) Subject to appropriations therefor, the program shall pay the
16 living donor expenses for living donors who are residents of the state
17 and make a living donation in which the ultimate recipient, either
18 directly or through paired donation is a resident of the state. The
19 commissioner through regulations shall establish eligible living donor
20 expenses that are eligible for reimbursement under the program which
21 shall include at a minimum: lost wages (including demonstrated lost
22 non-employment income); the economic value of sick or vacation days
23 expended; travel and lodging, child care and elder care expenses; and
24 costs of medications and care associated with the living donation
25 surgery. The total period of time related to lost wages or expended sick
26 or vacation days shall not exceed four weeks unless special circum-
27 stances are demonstrated, such as the nature of physical labor required
28 for the living donor's employment; provided that the total period shall
29 in no event exceed eight weeks. The commissioner may by regulation
30 impose a limitation on: (i) the amount of lost wages for a living donor
31 making an income in excess of an annual rate of one hundred twenty-five
32 thousand dollars; or (ii) the amount of living donor expenses above
33 fourteen thousand dollars for any single living donor; and may include
34 additional living donor expenses including reimbursement for costs of
35 care performed by relatives or family members of the living donor.

36 (b) The program shall not pay reimbursement for expenses paid or
37 required to be paid for by any third-party payer, including wages or
38 other expenses that were covered under paid medical leave by the living
39 donor's employer or that are covered by other sources of reimbursement
40 such as the federal National Living Donor Assistance Program. The
41 program shall be the payer of last resort with respect to any benefit
42 under the program.

43 (c) Living donor expenses shall be reimbursed as close in time as
44 possible to their being incurred by the donor, including by pre-payment
45 where practicable.

46 3. (a) The commissioner may contract for the administration of
47 reimbursement under the program. Factors such as cost to the state, ease
48 of use for the living donor, and ease of use for transplant center
49 hospitals shall be taken into consideration when awarding such contract.

50 (b) The commissioner shall make regulations to implement this section.

51 (c) This section shall be interpreted so as not to conflict with the
52 federal National Organ Transplant Act (42 U.S.C. 274e).

53 § 4371. Transplant education of patients with kidney disease or end
54 stage renal failure. For any patient with chronic kidney disease stage
55 four or end stage renal disease, a nephrologist managing the patient's
56 treatment or, if the patient is not under the treatment of a nephrolo-

gist then the patient's primary care practitioner, shall consider whether the patient is a candidate for transplantation under applicable professional and legal guidelines, and, if the patient appears to be a candidate for transplantation, provide the patient with transplant education materials including those prepared under section two hundred seven of this chapter.

§ 8. Paragraph (d) of subdivision 1 of section 207 of the public health law, as amended by section 16 of part A of chapter 109 of the laws of 2010, is amended to read as follows:

(d) The need for and importance of organ and tissue donation, including living donation, including information about being registered as an organ and tissue donor and executing documents of gift under article forty-three of this chapter; and information to increase patient understanding about the medical option of transplant and its desirability. In implementing this paragraph, the department shall consult with the transplant council in the department.

§ 9. Paragraph 38 of subsection (c) of section 612 of the tax law, as added by chapter 565 of the laws of 2006, is amended to read as follows:

(38) An amount of up to ten thousand dollars if a taxpayer, while living, donates one or more of his or her human organs to another human being for human organ transplantation. For purposes of this paragraph, "human organ" means all or part of a liver, pancreas, kidney, intestine, lung, or bone marrow. A subtract modification allowed under this paragraph shall be claimed in the taxable year in which the human organ transplantation occurs. Provided, however, that this deduction shall not apply to any donation for which the taxpayer has received benefits under section forty-three hundred seventy of the public health law.

§ 10. The social services law is amended by adding a new section 365-o to read as follows:

§ 365-o. Provision and coverage of services for living organ donors. This section applies in the case of a living donor under section forty-three hundred seventy of the public health law who is otherwise eligible for medical assistance under this article. Services for that person covered under that section that would otherwise be health care services under this article shall be paid for under this article and not under such section, provided federal financial participation is available.

§ 11. Article 2 of the public health law is amended by adding a new title 4-A to read as follows:

TITLE IV-A

LUPUS RESEARCH ENHANCEMENT ACT

Section 256. Short title.

256-a. Legislative intent.

256-b. Definition.

256-c. Lupus research enhancement program.

256-d. Lupus research advisory council.

256-e. Lupus research enhancement fund.

§ 256. Short title. This title shall be known and may be cited as the "lupus research enhancement act".

§ 256-a. Legislative intent. 1. The legislature hereby finds the following:

(a) Lupus is a serious, complex, debilitating autoimmune disease that can cause inflammation and tissue damage to virtually any organ system in the body, including the skin, joints, other connective tissue, blood and blood vessels, heart, lungs, kidney, and brain.

1 (b) The Lupus Foundation of America, Inc. estimates that approximately
2 1.5 to two million Americans live with some form of lupus; lupus affects
3 women nine times more often than men and eighty percent of newly diag-
4 nosed cases of lupus develop among women of childbearing age.

5 (c) Lupus disproportionately affects women of color - it is two to
6 three times more common among African-Americans, Hispanics, Asians and
7 Native Americans and is generally more prevalent in minority populations
8 - a health disparity that remains unexplained. According to the Centers
9 for Disease Control and Prevention the rate of lupus mortality has
10 increased since the late nineteen seventies and is higher among older
11 African-American women.

12 (d) No new drugs have been approved by the U.S. Food and Drug Adminis-
13 tration specifically for lupus in nearly forty years, and while current
14 treatments for the disease can be effective, they can lead to damaging
15 side effects.

16 (e) The pain and fatigue associated with lupus can threaten people's
17 ability to live independently, make it difficult to maintain employment
18 and lead normal lives, and one in five people with lupus is disabled by
19 the disease, and consequently receives support from government programs,
20 including medicare, medicaid, social security disability, and social
21 security supplemental income.

22 (f) The estimated average annual cost of medical treatment for an
23 individual with lupus can range between ten thousand dollars and thirty
24 thousand dollars; for people who have the most serious form of lupus,
25 medical costs can greatly exceed this amount, causing a significant
26 economic, emotional and social burden to the entire family and society.

27 (g) More than half of the people with lupus suffer four or more years
28 and visit three or more physicians before obtaining a diagnosis of
29 lupus; early diagnosis of and commencement of treatment for lupus can
30 prevent or reduce serious organ damage, disability, and death.

31 (h) Despite the magnitude of lupus and its impact on individuals and
32 families, health professional and public understanding of lupus remains
33 low; only one of five Americans can provide even basic information about
34 lupus, and awareness of lupus is lowest among adults ages eighteen to
35 thirty-four - the age group most likely to develop symptoms of lupus.

36 (i) Lupus is a significant national health issue that deserves a
37 comprehensive and coordinated response by state and federal governments
38 with involvement of the health care provider, patient, and public health
39 communities.

42 or prevent suffering from lupus, by providing additional funding to
43 state academic medical institutions within the state currently conduct-
44 ing or having an interest in conducting basic and clinical, social,
45 translational, technological, epidemiological, and behavioral research
46 on lupus. Such activities may include:

10 2. All research funds shall be awarded on the basis of the research
11 priorities established for the program and the scientific merit of the
12 proposed research, as determined by an open, competitive peer review
13 process that ensures objectivity, consistency, and high quality. All
14 investigators, regardless of affiliation, shall have equal access and
15 opportunity to compete for program funds.

16 3. The peer review process for the selection of research grants
17 awarded under this program shall be modeled generally on that used by
18 the national institutes of health in its grant making process.

19 4. An awardee shall be awarded grants for the full cost, both direct
20 and indirect, of conducting the sponsored research consistent with those
21 federal guidelines governing all federal research grants and contracts.
22 All intellectual property assets developed under this program shall be
23 treated in accordance with state and federal law.

24 5. In establishing its research priorities, the state shall consult
25 with the lupus research advisory council and consider a broad range of

14 the commissioner, and the commissioner shall, at his or her discretion,
15 grant approval of applications for grants from those applications recom-
16 mended by the council (if a council member submits an application for a
17 grant from the lupus research and education fund, he or she will be
18 prohibited from reviewing and making a recommendation on the applica-
19 tion);

20 (b) consult with the national institutes of health, centers for
21 disease control and prevention, the agency for healthcare research and
22 quality, the national academy of sciences (institute of medicine), lupus
23 advocacy groups, and other organizations or entities which may be

45 shall include, but not be limited to, the costs and benefits of requir-
46 ing a for-profit grantee to repay the grant, to provide the product at
47 cost to state programs serving low-income lupus patients, and to pay the
48 state a percentage of the royalties derived from the product.

49 3. Contributions. The secretary of the lupus research advisory council
50 may accept grants, services, and property from the federal government,
51 foundations, organizations, medical schools, and other entities as may
52 be available for the purposes of fulfilling the obligations of this
53 program. Any such funds shall supplement and not supplant appropriations
54 provided for the implementation of this article.

1 4. Waivers. The secretary of the lupus research advisory council shall
2 seek any federal waiver or waivers that may be necessary to maximize
3 funds from the federal government to implement this program.

4 § 256-e. Lupus research enhancement fund. All moneys received pursuant
5 to section two hundred fifty-six-c of this title shall be credited to
6 the fund, as established by section ninety-five-i of the state finance
7 law. The commissioner shall use the fund to administer the lupus

17 of such fund and any grant, gift or bequest made to the lupus research
18 enhancement program as established by title four-A of article two of the
19 public health law.

20 3. Moneys of the fund shall be available for grants through the lupus
21 research enhancement program advisory council and for the expenses of
22 the lupus research enhancement program advisory council, and shall be
23 expended only for the purposes spelled out in sections two hundred
24 fifty-six-c and two hundred fifty-six-d of the public health law.

25 4. Moneys in the lupus research enhancement fund shall be kept sepa-
26 rate and shall not be commingled with any other moneys in the custody of
27 the commissioner of taxation and finance and the comptroller.

28 5. The moneys of the fund shall be paid out on the audit and warrant
29 of the comptroller on vouchers certified or approved by the commissioner
30 of health, or by an officer or employee of the department of health
31 designated by such commissioner.

32 § 13. Section 2805-x of the public health law, as added by section` 48
33 of part B of chapter 57 of the laws of 2015, is amended to read as
34 follows:

35 § 2805-x. Hospital-home care-physician collaboration program. 1. The
36 purpose of this section shall be to facilitate innovation in hospital,
37 home care agency and physician collaboration in meeting the community's
38 health care needs. It shall provide a framework to support voluntary
39 initiatives in collaboration to improve patient care access and manage-
40 ment, patient health outcomes, cost-effectiveness in the use of health
41 care services and community population health. Such collaborative hospi-
42 tal-home care-physician initiatives may also include payors, skilled
43 nursing facilities, emergency medical services and other interdisdiscipli-
44 nary providers, practitioners and service entities as part of such
45 hospital-home care-physician collaborative.

46 2. For purposes of this section:

47 (a) "Hospital" shall include a general hospital as defined in this
48 article or other inpatient facility for rehabilitation or specialty care
49 within the definition of hospital in this article.

3. The commissioner is authorized to provide financing including, but not limited to, grants or positive adjustments in medical assistance rates or premium payments, to the extent of funds available and allocated or appropriated therefor, including funds provided to the state through federal waivers, funds made available through state appropriations and/or funding through section twenty-eight hundred seven-v of this article, as well as waivers of regulations under title ten of the New York codes, rules and regulations, to support the voluntary initiatives and objectives of this section. Nothing in this section shall be construed to limit, or to imply the need for state approval of, collaborative initiatives enumerated in this section which are otherwise permissible under law or regulation, provided however that the approval of the commissioner shall be required for either state funding or regulatory waivers as provided for under this section.

4. Hospital-home care-physician collaborative initiatives under this section may include, but shall not be limited to:

(a) Hospital-home care-physician integration initiatives, including but not limited to:

(i) transitions in care initiatives to help effectively transition patients to post-acute care at home, coordinate follow-up care and address issues critical to care plan success and readmission avoidance;

(ix) models of community paramedicine, under which hospitals, emergency medical services who utilize employed or volunteer emergency medical technicians or advanced emergency medical technicians, physicians and home care agencies may develop and implement a plan for the collabora-

tive provision of services in community-settings. In addition to emergency services provided under article thirty of this chapter, models of community paramedicine may include collaborative services to at-risk individuals living in the community to prevent emergencies, avoidable emergency room need, avoidable transport and potentially avoidable hospital admissions and readmissions; community paramedicine services to individuals with behavioral health conditions, or developmental or intellectual disabilities, shall further include the collaboration of appropriate providers of behavioral health services licensed or certified under the mental hygiene law;

(v) other incentives to practice in shortage areas; and

(c) Hospital - home care - physician collaboratives for the care and management of special needs, high-risk and high-cost patients, including but not limited to best practices, and training and education of direct care practitioners and service employees.

5. Hospitals and home care agencies which are provided financing or waivers pursuant to this section shall report to the commissioner on the patient, service and cost experiences pursuant to this section, including the extent to which the project goals are achieved. The commissioner shall compile and make such reports available on the department's website.

§ 14. The public health law is amended by adding a new section 3001-a to read as follows:

§ 3001-a. Community paramedicine services. Notwithstanding any inconsistent provision of this article, an emergency medical technician or advanced emergency medical technician in course of his or her work as an employee or volunteer of an ambulance service or an advanced life support first response service certified under this article to provide emergency medical services may also participate in models of community paramedicine pursuant to section twenty-eight hundred five-x of this chapter.

§ 15. Subdivision 15 of section 3001 of the public health law, as amended by chapter 445 of the laws of 1993, is amended to read as follows:

15. "Medical control" means: (a) advice and direction provided by a physician or under the direction of a physician to certified first responders, emergency medical technicians or advanced emergency medical technicians who are providing medical care at the scene of an emergency or en route to a health care facility, or in community paramedicine

2 of this chapter; and (b) indirect medical control including the written
3 policies, procedures, and protocols for prehospital emergency medical
4 care and transportation developed by the state emergency medical advi-

6 and the commissioner, and implemented by regional medical advisory
7 committees.

8 § 16. Section 617 of the public health law, as amended by section 28
9 of part E of chapter 56 of the laws of 2013, is amended to read as
10 follows:

11 § 617. Maintenance of effort. Such amount of state aid provided will
12 be used to support and to the extent practicable, to increase the level
13 of funds that would otherwise be made available for such purposes and
14 not to supplant the amount to be provided by the municipalities. If a
15 municipality that is provided state aid pursuant to title one of this
16 article reduces its expenditures beneath the amount expended in its base
17 year, which is the most recent fiscal year for which the municipality
18 has filed all expenditure reports to the department, state aid
19 reimbursement provided pursuant to subdivision one of section six
20 hundred five of this article will be reduced by the percentage reduction
21 in expenditures between its base year and its current fiscal year. For
22 purposes of this section, reductions in expenditures shall be adjusted
23 for: an absence of extraordinary expenditures of a temporary nature,
24 such as disaster relief; unavoidable or justifiable program reductions,
25 such as a program being subsumed by another agency; or in circumstances
26 where the municipality can demonstrate, to the department's satisfac-
27 tion, that the need for the expenditure no longer exists. Maintenance of
28 effort shall be based on a municipality's total eligible expenditures in
29 the current fiscal year, and shall not be required for each individual
30 core service. Review of expenditures for purposes of maintenance of
31 effort requirements will occur no more than once each fiscal year.

32 § 17. This act shall take effect immediately; provided, however, that:

33 1. sections one, two, three and four of this act shall take effect on
34 the ninetieth day after it shall have become a law; and

35 2. sections five, six, seven, eight, nine and ten of this act shall
36 take effect April 1, 2018; provided that, effective immediately, the
37 commissioner of health shall make regulations and take other actions
38 reasonably necessary to implement such provisions on that date.

39 PART X

40 Section 1. This act shall be known and may be cited as the "clean
41 water act of 2017".

42 § 2. Intentionally omitted.

43 § 2-a. The clean water bond act of 2017 is enacted to read as follows:

44 CLEAN WATER BOND ACT OF 2017

45 Section 1. Short title.

46 2. Creation of a state debt.

47 3. Bonds of the state.

48 4. Use of the moneys received.

49 Section 1. Short title. This act shall be known and may be cited as
50 the "clean water bond act of 2017".

51 § 2. Creation of a state debt. The creation of a state debt to an
52 amount not exceeding in the aggregate five billion dollars
53 (\$5,000,000,000), is hereby authorized to provide moneys for the single
54 purpose of preserving, enhancing, restoring and improving the quality of

1 the state's water by the accomplishment of projects and the funding of
2 activities by state agencies, public authorities and public benefit
3 corporations, municipalities, and other governmental entities and not-
4 for-profit corporations exclusively through the implementation of the
5 New York state regional water infrastructure improvement act of 2017.

6 Funds expended from moneys derived from the sale of bonds authorized
7 in section three of this act that are later recovered under a state or
8 federal superfund or through other means from polluters shall be repaid
9 to satisfy any state debt created pursuant to this act.

10 § 3. Bonds of the state. The state comptroller is hereby authorized
11 and empowered to issue and sell bonds of the state to the amount of five
12 billion dollars (\$5,000,000,000), for the purpose of this act, subject
13 to the provisions of article 5 of the state finance law.

14 The aggregate principal amount of such bonds shall not exceed five
15 billion dollars (\$5,000,000,000), excluding bonds issued to refund or
16 otherwise repay bonds theretofore issued for such purpose; provided,
17 however, that upon any such refunding or repayment the total aggregate
18 principal amount of outstanding bonds may be greater than five billion
19 dollars (\$5,000,000,000), only if the present value of the aggregate
20 debt service of the refunding or repayment bonds to be issued shall not
21 exceed the present value of the aggregate debt service of the bonds to
22 be refunded or repaid. The method for calculating present value shall be
23 determined by law. Any funds expended from moneys derived from the sale
24 of bonds pursuant to this section that are subsequently recovered under
25 state or federal superfund or other methods from polluters shall be used
26 to repay the bonds.

27 § 4. Use of the moneys received. The moneys received by the state from
28 the sale of bonds sold pursuant to this act shall be expended pursuant
29 to the New York state regional water infrastructure improvement act of
30 2017.

31 § 3. The public health law is amended by adding a new section 1113 to
32 read as follows:

33 § 1113. Lead service line replacement grant program. Notwithstanding
34 section one hundred sixty-three of the state finance law or any incon-
35 sistent provision of law to the contrary, and within amounts appropri-
36 ated therefor, the department shall award grants to municipalities with-
37 out a formal competitive process, for purposes of replacing lead service
38 lines used to supply drinking water. When determining which munici-
39 palities shall receive awards and the amount of such awards, the depart-
40 ment shall consider for each municipality the cost of replacing lead
41 service lines and the number of persons who receive drinking water from
42 such service lines, and shall give priority to those municipalities with
43 low-income communities, according to a methodology as shall be deter-
44 mined by the department.

45 § 4. Article 27 of the environmental conservation law is amended by
46 adding a new title 12 to read as follows:

47 TITLE 12

48 IMMEDIATE ABATEMENT, REMEDIATION AND INFRASTRUCTURE NEEDS

49 Section 27-1201. Solid waste management facility and drinking water
50 investigation and remediation.

51 27-1203. Emergency infrastructure investigation and financial
52 assistance grant program.

53 § 27-1201. Solid waste management facility and drinking water investi-
54 gation and remediation.

55 1. The department shall investigate an active or inactive solid waste
56 management facility which is known or suspected of contributing to a

1 significant or imminent threat to the public health or welfare. After
2 such investigation the department shall remediate any active or inactive
3 solid waste management facility which is known to cause an imminent
4 threat to the public health or welfare. Up to four million dollars over
5 twenty-four months from the date of initial response shall be made
6 available for such remediation projects. If the department determines
7 that hazardous wastes at such site constitute a significant threat to
8 the environment pursuant to section 27-1313 of this article, the commis-
9 sioner shall pursuant to such section immediately require the develop-
10 ment and implementation of a department-approved inactive hazardous
11 waste disposal site remedial program.

12 2. The department shall investigate any area or structure which is
13 known or suspected of causing or contributing to an exceedance of maxi-
14 mum contaminant level or other threshold level set by the department of
15 health or otherwise recommended by the drinking water quality institute,
16 at a current source of drinking water. After such investigation, if the
17 department, in conjunction with the department of health, determines the
18 area or structure is causing or contributing to an exceedance of any
19 maximum contaminant level or other threshold level set by the department
20 of health or recommended by the drinking water quality institute, the
21 department shall institute remedial measures which may include the
22 installation of treatment systems, including but not limited to instal-
23 lation of onsite water supplies, or the provision of alternative water
24 supply sources to ensure that water meets applicable maximum contaminant
25 levels or other threshold concentrations set by the department of
26 health. Up to four million dollars over twenty-four months from the date
27 of initial response shall be made available for such remediation
28 projects. If the department determines hazardous wastes at such site
29 constitute a significant threat to the environment pursuant to section
30 27-1313 of this article, the commissioner shall pursuant to such section
31 immediately require the development and implementation of a department-
32 approved inactive hazardous waste disposal site remedial program.

33 3. The department shall make all reasonable efforts to recover from a
34 responsible person the full amount of any funds expended for investi-
35 gation or remediation undertaken pursuant to subdivision one or two of
36 this section, provided however that recovery is not authorized for
37 investigation or remediation costs incurred pursuant to subdivision one
38 or two of this section where such investigation does not reveal an immi-
39 nent threat to public health or welfare, or an exceedance of any maximum
40 contaminant level or other threshold warranting remediation. Nothing in
41 this subdivision shall limit the department's ability to recover from a
42 responsible person the department's costs associated with investigating
43 or remediating an inactive hazardous waste disposal site pursuant to
44 title thirteen of this article.

45 § 27-1203. Emergency infrastructure investigation and financial assist-
46 ance grant program.

47 The department shall, within amounts appropriated therefor, create an
48 emergency infrastructure investigation and financial assistance grant
49 program. Upon a municipality's request, the department shall investigate
50 any situation in which the state of the municipality's infrastructure is
51 causing or may cause an imminent threat to the public health or welfare,
52 or the environment. After such investigation, if the department deter-
53 mines the state of the infrastructure is or may result in harm to the
54 public health or welfare, or to the environment, grants of up to one
55 hundred percent of infrastructure construction, updating, replacement,
56 or repair shall be made for any infrastructure project that will elimi-

1 nate or substantially reduce such harm. Nothing in this section shall
2 prohibit a municipality from eligibility for other infrastructure fund-
3 ing provided by the state.

4 § 4-a. Subdivision 3 of section 27-1309 of the environmental conserva-
5 tion law, as amended by section 4 of part E of chapter 1 of the laws of
6 2003, is amended to read as follows:

7 3. Any duly designated officer or employee of the department, or of
8 any state agency, and any agent, consultant, contractor, or other
9 person, including an employee, agent, consultant, or contractor of a
10 responsible person acting at the direction of the department, so author-
11 ized in writing by the commissioner, may enter any inactive hazardous
12 waste disposal site or area where the disposal of wastes may pose an
13 imminent threat to the public health or environment and areas near such
14 site and inspect and take samples of wastes, soils, air, surface water,
15 and groundwater. In order to take such samples, the department or
16 authorized person may utilize or cause to be utilized such sampling
17 methods as it determines to be necessary including, but not limited to,
18 soil borings and monitoring wells.

19 § 4-b. Sections four-b through four-f of this act shall be known and
20 may be cited as the "New York state regional water infrastructure
21 improvement act of 2017".

22 § 4-c. For purposes of sections four-b through four-f of this act:

23 1. "water quality infrastructure project" shall mean "sewage treatment
24 works" as defined in section 17-1903 of the environmental conservation
25 law, "eligible project" as defined in paragraphs (a), (b), (c) and (e)

39 and other actions necessary thereto.

40 3. "municipality" shall mean any county, city, town, village, district
41 corporation, county or town improvement district, school district, Indi-
42 an nation or tribe recognized by the state or the United States with a
43 reservation wholly or partly within the boundaries of New York state,

48 connection with a water quality infrastructure project.

49 4. "corporation" shall mean the environmental facilities corporation.

50 § 4-d. 1. The corporation shall undertake and provide financial
