The appropriation made by chapter 55, section 1, of the laws of 2016, is hereby amended and reappropriated to read:

For payments and grants to support health care facility transformation statewide for capital, non-operational works. Notwithstanding section 163 of the state finance law or any other provision of law to the contrary, this appropriation may be used to fund payments and or grants made by the commissioner of health in his or her sole discretion, without a competitive bid or request for proposal process, to eligible applicants as determined by the commissioner of health for purposes in support of essential health care services. Such purposes may include renovating or replacing inefficient or outdated facilities as part of a merger, consolidation, acquisition or other significant corporate restructuring activity that is part of an overall transformation plan intended to create a financially sustainable system of care that promotes a patient-centered model of health care delivery aimed at improving the overall health and well-being of a community. Eligible applicants shall be those deemed by the commissioner to be a provider that fulfills or will fulfill a health care need for acute inpatient, outpatient, primary, home care or residential health care services in a community. The commissioner and the president of the dormitory authority of the state of New York shall enter into an agreement, subject to the approval of the director of the budget, and subject to section 1680-r of the public authorities law, for the purposes of awarding, distributing, and administering the funds made available pursuant to this appropriation. In determining awards for eligible applicants under this appropriation, the commissioner of health and the president of the authority shall consider criteria including, but not limited to:

- (e) the extent to which the applicant has access to alternative financing;

- (f) the extent that the proposed capital project furthers the development of primary care and other outpatient services;
- (g) the extent to which the proposed capital project benefits medicaid enrollees and uninsured individuals;
- (h) the extent to which the applicant has engaged the community affected by the proposed capital project and the manner in which community engagement has shaped such capital project; and
- (i) the extent to which the proposed capital project addresses potential risk to patient safety and welfare.

Disbursement of awards made pursuant to this appropriation shall be conditioned on the awardee achieving certain process and performance metrics and milestones as determined in the sole discretion of the commissioner. Such metrics and milestones shall be structured to ensure that the health care transformation and provider sustainability goals of the project are achieved, and such metrics and milestones shall be included in grant disbursement agreements or other contractual documents as required by the commissioner.

The department shall provide a report on a quarterly basis to the chairs of the senate finance, assembly ways and means, senate health and assembly health committees. Such reports shall be submitted no later than sixty days after the close of the quarter, and shall include, for each award, the name of the applicant, a description of the project or purpose, the amount of the award, disbursement date, and status of achievement of process and performance metrics and milestones pursuant to subdivision 5 of section 2825-b of the public health law. The moneys hereby appropriated are to be made available for payment of state aid to municipal corporations, private airports as authorized by section 14-h of the transportation law and for payment of the state share of federally aided projects at Stewart and Republic Airports, including payment of liabilities incurred prior to April 1, 1991, as defined in the transportation capital facilities development act of 1967.
