Provided, further, that a school district's pre-kindergarten grant shall equal the product of (A) (i) two multiplied by the approved number of new full-day pre-kindergarten placements plus (ii) the approved number of half-day pre-kindergarten placement conversions and new half-day pre-kindergarten placements, and (B) the district's selected aid per pre-kindergarten pupil pursuant to subparagraph i of paragraph b of subdivision 10 of section 3602-e of the education law; provided, however, that no district shall receive a grant in excess of the total actual grant expenditures incurred by the district in the current school year as approved by the commissioner. Provided, further, that as a condition of eligibility for receipt of such funding, a school district shall agree to adopt approved quality indicators within two years, including, but not limited to, valid and reliable measures of environmental quality, the quality of teacher-student interactions and child outcomes, and ensure that any such assessment of child outcomes shall not be used to make high-stakes educational decisions for individual children. Provided, further, that notwithstanding any provision of law to the contrary, the \$10,000,000 appropriated herein available for school-wide extended learning grants shall be awarded to school districts or school districts in collaboration with not-for-profit community-based organizations based on responses to a request for proposals for planning and implementation grants that is (i) developed by the commissioner; (ii) approved by the director of the budget; and (iii) issued by the commissioner. Provided, further, that such grants shall be awarded based on factors including, but not limited to, the following: (i) the school district's proposal to target the schools and students with the greatest need, and (ii) proposal quality. Provided, further, that to assess proposal quality in order to award implementation grant funding, the commissioner shall take into account factors including, but not limited to: (i) the extent to which the school district's proposal would maximize the use of the additional learning time through a comprehensive restructuring of the school day and/or year, (ii) the extent to which the proposal would provide additional learning time for students in grades six through eight, and (iii) how the additional learning time would be utilized, including, but not limited to, additional time spent on core academics. Provided, however, that no district shall be eligible to receive a school-wide extended learning grant unless its proposal would increase student learning time by at least 25 percent. Provided, further, that a school district's schoolwide extended learning implementation grant shall equal its average daily attendance in the school-wide extended learning program multiplied by the expected cost per pupil of the additional learning time; provided, further, that the expected cost per pupil of the additional learning time shall equal the greater of \$1,500 or (A) the quotient of (i) the school district's approved operating expense, pursuant to paragraph t of subdivision 1 of section 3602 of the education law, for the year prior to the base year, divided by (ii) the district's public school district enrollment, pursuant to subparagraph (2) of paragraph n of such subdivision, for the year prior to the base year, multiplied by (B) 10 percent (0.10), multi-

plied by (C) the quotient of (i) the average of the national consumer price indexes determined by the United States department of labor for the 12-month period preceding January first of the base year, divided by (ii) the average of the national consumer price indexes determined by the United States department of labor for the 12-month period preceding January first of the year two years prior to the base year; provided, however, that in extraordinary cases the commissioner may award a grant that exceeds the per pupil limit described above; provided further, however, that no district shall receive a grant in excess of the total actual grant expenditures incurred by the district in the current school year as approved by the commissioner. Provided, further, that no school district shall receive more than forty percent of the total school-wide extended learning grant allocation.

Provided, further, that notwithstanding any provision of law to the contrary, the \$7,500,000 appropriated herein available for community schools grants shall be awarded, based on a request for proposals (i) developed by the state council on children and families in coordination with the commissioner, (ii) approved by the director of the budget and (iii) issued by the commissioner, to school districts, or in a city with a population of one million or more an eligible entity, to improve student outcomes through the implementation of community schools programs that use school buildings as community hubs to deliver co-located or school-linked academic, health, mental health, nutrition, counseling, legal and/or other services to students and their families. Provided, however, that community schools grants appropriated herein shall be paid to school districts in installments upon successful implementation of each phase of a school district's approved proposal. Provided, further, that no school district shall receive more than forty percent of the total community schools grant allocation, and that each individual community school site shall be limited to a maximum grant of \$500,000.

28 section 3602-e of the education law. Provided, further, that a school
29 district's grant for three-year-old prekindergarten shall equal the
30 product of (A) (i) two multiplied by the approved number of new full-
31 day pre-kindergarten placements plus (ii) the approved number of new

35 tor of the budget. Any portion of a social
36 services district's allocation from funds
37 appropriated herein not claimed by such
38 district during the state fiscal year may
39 be used by such district for expenditures
40 on preventive services provided pursuant
41 to section 409-a of the social services
42 law, independent living services and
43 aftercare services provided pursuant to
44 regulations of the department of family
45 assistance, claimed by such district
46 during the next state fiscal year up to
47 the amount remaining from the district's
48 foster care block grant allocation,
49 provided however, that any claims for such
50 services during the next state fiscal year
51 in excess of such amount shall be subject
52 to 62 percent state reimbursement exclu-
53 sive of any federal funds made available
54 for such purposes, in accordance with
55 directives of the department of family
56 assistance and subject to the approval of
57 the director of the budget. Any claims
58 submitted by a social services district
59 for reimbursement for a particular state
60 fiscal year for which the social services
61 district does not receive state or federal
62 reimbursement during that state fiscal
63 year may not be claimed against that
64 district's block grant apportionment for
65 the next state fiscal year.

66 The office of children and family services,
67 with the approval of the director of the

1
2 budget, may reduce a district's block
3 grant allocation by the state share
4 decrease related to federal retroactive
5 reimbursement for such foster care
6 services identified herein. The office,
7 with the approval of the director of the
8 budget, may reduce a district's block
9 grant allocation by the state share of
10 disallowances or sanctions taken against
11 the district pursuant to the social
12 services law or federal law.

13 Notwithstanding any other provision of law,
14 the state shall not be responsible for
15 reimbursing a social services district and
16 a district shall not seek state reimburse-
17 ment for any portion of any state disal-
18 lowance or sanction taken against the
19 social services district, or any federal
20 disallowance attributable to final federal
21 agency decisions or to settlement made, on
22 or after July 1, 1995, when such disallow-
23 ance or sanction results from the failure
24 of the social services district to comply
25 with federal or state requirements,
26 including, but not limited to, failure to
27 document eligibility for federal or state
28 funds in the case record; provided, howev-
29 er, if the office determines that any
30 federal disallowance for services provided
31 between January 1, 1999 and May 31, 1999
32 results solely from the late enactment of
33 the state legislation implementing the
34 federal adoption and safe families act,
35 the state shall be solely responsible for
36 the full amount of the disallowance or
37 sanction; provided, further, however, this
38 provision shall be deemed to apply both
39 prospectively and retroactively regardless
40 of whether such sanctions or disallowances
41 are for services provided or claims made
42 prior to or after April 1, 2017.

43 Notwithstanding any other provision of law,
44 any federal disallowance resulting from a
45 federal title IV-E eligibility review or
46 audit that uses extrapolated statistic
47 techniques shall be passed along by the
48 state to any and all social services
49 districts that the office of children and
50 family services has determined have not
51 complied with the title IV-E eligibility
52 requirements or have not taken the neces-
53 sary actions to ensure compliance with
54 such requirements including, but not
55 limited to, failing to: assess and fully
56 document all the criteria and have readily
57 available all the necessary documents to
58 establish and continue title IV-E eligi-
59 bility for all title IV-E eligible chil-
60 dren within the required time frames;
61 claim title IV-E funding only for cases
62 that meet all of the title IV-E eligibil-
63 ity criteria; and fully implement the
64 social services payment system on or
65 before April 1, 2005 for all direct and
66 voluntary agency foster care services.

67 Notwithstanding any law to the contrary, the

1 office of children and family services
2 shall impose on social services districts
3 any federal disallowance issued against
4 the state as a result of a federal title
5 IV-E secondary eligibility review regard-
6 less of the date the children may have
7 entered foster care, the date the eligi-
8 bility or payment errors occurred, or the
9 filing date of any federal claims for
10 reimbursement; provided, however, that the
11 state shall be responsible for the disal-
12 lowed costs and expenditures related to
13 the placement of children in a facility
14 operated by the office of children and
15 family services, which shall be determined
16 in the same manner as the disallowed costs
17 and expenditures for social services
18 districts other than the city of New York.
19 In order to reimburse the federal govern-
20 ment for the full amount of any disallow-
21 ance imposed on the state by the federal
22 administration for children and families
23 within the timeframes necessary to avoid
24 any potential interest payments on such
25 amount, the office of children and family
26 services is authorized to immediately
27 offset funds otherwise due to each
28 district for a pro rata share of the total
29 disallowed costs based on the percentage
30 of applicable federal title IV-E claims
31 made by that district for the relevant
32 time period as compared to the total
33 applicable statewide title IV-E claims.
34 The amount of the offset against each
35 district will be adjusted, if necessary,
36 upon completion of the disallowance allo-
37 cation process. The final allocation of
38 the amount of any federal disallowance
39 resulting from a title IV-E secondary
40 eligibility review shall be allocated
41 among the districts so that each district
42 shall be responsible for the amount
43 attributable to each of the district's
44 children or cases that are determined by
45 the federal review to be unallowable. Each
46 district shall also be responsible for a
47 portion of the federal extrapolated disal-
48 lowance amount based on the relative error
49 rate for the district. The city of New
50 York's error rate will be based on the
51 federal sample and federal statistics. For
52 all social services districts other than
53 the city of New York, the error rate will
54 be based on a review conducted by the
55 district of a sample of children and/or
56 cases determined by the office of children
57 and family services and a re-review of a
58 sub-sample by the office of those children
59 and/or cases determined by the office. The
60 office of children and family services
61 will determine what is reasonable in
62 establishing the size of the sample and
63 sub-sample for each district. The office
64 of children and family services shall
65 notify each social services district of
66 the sample of children and/or cases from
67

1
2 the federal audit period that the social
3 services district must review. Any child
4 or case from the social services district
5 that was included in the federal sample
6 will automatically be included in the
7 social services district's review sample
8 and the determination made at the federal
9 review regarding that child or case will
10 govern for the purposes of the social
11 services district's review. The social
12 services district must complete and submit
13 the results of its review to the office of
14 children and family services within 60
15 days of receipt of the sample. The error
16 rate for the district will be based on the
17 findings of the district's review and the
18 office of children and family services'
19 re-review. If a social services district
20 does not complete its review within 60
21 days of receiving the sample from the
22 office of children and family services,
23 the office of children and family services
24 shall assign an error rate to the social
25 services district based on the relative
26 percentage of the district's applicable
27 title IV-E claims for the relevant period
28 as compared to applicable statewide title
29 IV-E claims for that period and other
30 circumstances that the office of children
31 and family services may consider in order
32 to allocate 100 percent of the federal
33 disallowance. The office of children and
34 family services shall apply each social
35 services district's error rate to the
36 total amount of the district's applicable
37 title IV-E claims including associated
38 administrative expenses. The resulting
39 dollar amounts for all of the social
40 services districts will be summed to
41 derive the total amount of title IV-E
42 claims deemed to be in error statewide. To
43 establish a disallowance percentage for
44 each social services district, the amount
45 of the district's title IV-E claims deemed
46 to be in error will be divided by the amount
47 of statewide title IV-E claims deemed to
48 be in error. The resulting disallowance
49 percentage for each district will be
50 applied to the entire title IV-E
51 extrapolated disallowance calculated by
52 the federal review to determine the amount
53 of the extrapolated disallowance for which
54 the district is responsible. Each district
55 will be credited for the amount already
56 disallowed for any individual children or
57 cases found to be in error during the
58 federal review. The exclusive appeal
59 rights for the review of the amount of the
60 federal disallowance assigned to each
61 social services district shall be pursuant
62 to article 78 of the civil practice laws
63 and rules; provided, however, that in any
64 such action all of the social services
65 districts shall be joined as necessary
66 parties and the venue of any such action
67 shall be in Rensselaer county. Any social

1
2 services district that fails to complete
3 its sample review in the required time
4 frames shall have no right to appeal and
5 shall not be a necessary party to any action
6 brought by another social services
7 district.

8 The money hereby appropriated is to be
9 available for payment of state aid hereto-
10 fore accrued or hereafter to accrue to
11 municipalities. Subject to the approval of
12 the director of the budget, the money
13 hereby appropriated shall be available to
14 the office net of disallowances, refunds,
15 reimbursements, and credits.

16 Notwithstanding any inconsistent provision
17 of law, the amount herein appropriated may
18 be transferred to any other appropriation
19 within the office of children and family
20 services and/or the office of temporary
21 and disability assistance and/or suballo-
22 cated to the office of temporary and disa-
23 bility assistance for the purpose of
24 paying local social services districts'
25 costs of the above program and may be
26 increased or decreased by interchange with
27 any other appropriation or with any other
28 item or items within the amounts appropri-
29 ated within the office of children and
30 family services general fund - local
31 assistance account with the approval of
32 the director of the budget who shall file
33 such approval with the department of audit
34 and control and copies thereof with the
35 chairman of the senate finance committee
36 and the chairman of the assembly ways and
37 means committee.

38 Notwithstanding any inconsistent provision
39 of law, in lieu of payments authorized by
40 the social services law, or payments of
41 federal funds otherwise due to the local
42 social services districts for programs
43 provided under the federal social security
44 act or the federal food stamp act, funds
45 herein appropriated, in amounts certified
46 by the state comptroller or the state
47 commissioner of health as due from local
48 social services districts each month as
49 their share of payments made pursuant to
50 section 367-b of the social services law
51 may be set aside by the state comptroller
52 in an interest bearing account with such
53 interest accruing to the credit of the
54 locality in order to ensure the orderly
55 and prompt payment of providers under
56 section 367-b of the social services law
57 pursuant to an estimate provided by the
58 commissioner of health of each local
59 social services district's share of
60 payments made pursuant to section 367-b of
61 the social services law.

62 Notwithstanding the provisions of any other
63 law to the contrary, the office of chil-
64 dren and family services may, on behalf of
65 social services districts, make payments
66 to foster boarding homes paid directly by
67 social services districts by direct depos-

1
2 it or debit card. Local social services
3 districts shall reimburse the office for
4 the costs of administering such direct
5 deposit or debit card payments.

6 Notwithstanding any inconsistent provision
7 of the social services law or the state
8 finance law, the office of children and
9 family services shall, on a quarterly
10 basis, request that the office of tempo-
11 rary and disability assistance reimburse
12 the office of children and family services
13 for the non-federal share of the costs of
14 administering such direct deposit or debit
15 card payments to capture the local share
16 of such costs.

17 Notwithstanding any other provision of law,
18 if a social services district fails to
19 provide reimbursement to the office of
20 children and family services pursuant to
21 section 529 of the executive law within 60
22 days of receiving a bill for services under
23 such section, or by the date certain set by
24 such office for providing reimbursement,
25 whichever is later, the offices of the
26 department of family assistance are
27 authorized to exercise the state's set-off
28 rights by withholding any amounts due and
29 owing to such district under this
30 appropriation, up to such amounts due and
31 owing to the state under section 529 of
32 the executive law and transferring such
33 funds to the miscella- neous special
34 revenue fund youth facility per diem
35 account (22186).

36 Notwithstanding any provision of articles
37 153, 154 and 163 of the education law, there
38 shall be an exemption from the
39 professional licensure requirements of
40 such articles, and nothing contained in
41 such articles, or in any other provisions
42 of law related to the licensure require-
43 ments of persons licensed under those
44 articles, shall prohibit or limit the
45 activities or services of any person in
46 the employ of a program or service oper-
47 ated, certified, regulated, funded,
48 approved by, or under contract with the
49 office of children and family services, a
50 local governmental unit as such term is
51 defined in article 41 of the mental hygiene
52 law, and/or a local social services
53 district as defined in section 61 of the
54 social services law, and all such entities
55 shall be considered to be approved
56 settings for the receipt of supervised
57 experience for the professions governed by
58 articles 153, 154 and 163 of the education
59 law, and furthermore, no such entity shall
60 be required to apply for nor be required to
61 receive a waiver pursu- ant to section
62 6503-a of the education law in order to
63 perform any activities or
64 provide any services (13997)

89,105,200

65 Notwithstanding any inconsistent provision
66 of law, the amount appropriated herein
67 shall be made available to reimburse 62

percent of eligible social services district expenditures that are claimed by March 31, 2018 for child welfare services which shall include and be limited to preventive services provided pursuant to section 409-a of the social services law other than community optional preventive services, child protective services, independent living services, after-care services as defined in regulations of the department of family assistance, and adoption administration and services, other than adoption subsidies provided pursuant to title 9 of article 6 of the social services law and regulations of the department of family assistance incurred on or after October 1, 2016 and before October 1, 2017 and that are otherwise reimbursable by the state on or after April 1, 2017, after first deducting therefrom any federal funds properly received or to be received on account thereof upon certification by the social services district that it will not be using these funds to supplant other state and local funds and that the district will not submit claims for reimbursement under this appropriation for the same type and level of services that the county previously provided and claimed under any contract in existence on October 1, 2002 as other than child protective, preventive, independent living, after care or adoption services or adoption administration.

The money hereby appropriated is to be available for payment of state aid heretofore accrued or hereafter to accrue to municipalities. Subject to the approval of the director of the budget, the money hereby appropriated shall be available to the office net of disallowances, refunds, reimbursements, and credits; provided, however, that notwithstanding any other provision of law, for a district to receive reimbursement for such services, the amount of funds that the district expends on such services from its flexible fund for family services allocation and any flexible fund for family services funds transferred at the district's request to the title XX social services block grant must, to the extent that families are eligible therefore, be equal to or greater than the district's portion of the \$342,322,341 statewide child welfare threshold amount, which shall be established pursuant to a formula developed by the office of temporary and disability assistance and the office of children and family services and approved by the director of the budget.

Notwithstanding any other provision of law, selected social services districts may authorize the office of temporary and disability assistance to intercept a portion of the funds on behalf of the

4 appropriation and/or under any other

14 ance with subdivision 9 of section 366 of
15 the social services law as authorized by
16 such selected social services districts
17 which choose to use preventive services
18 funds to support such costs.

19 Notwithstanding any other provision of law,
20 social services districts may authorize
21 the office of temporary and disability
22 assistance to intercept a portion of the
23 funds on behalf of the office of children
24 and family services otherwise due to the
25 districts under this appropriation and/or
26 under any other general fund - aid to

42 services and/or the office of temporary
43 and disability assistance and/or suballo-
44 cated to the office of temporary and disa-
45 bility assistance for the purpose of
46 paying local social services districts'
47 costs of the above program and may be
48 increased or decreased by interchange with
49 any other appropriation or with any other
50 item or items within the amounts appropri-
51 ated within the office of children and
52 family services general fund - local
53 assistance account with the approval of
54 the director of the budget who shall file
55 such approval with the department of audit
56 and control and copies thereof with the
57 chairman of the senate finance committee
58 and the chairman of the assembly ways and
59 means committee.

60 Notwithstanding any inconsistent provision
61 of law, in lieu of payments authorized by
62 the social services law, or payments of
63 federal funds otherwise due to the local
64 social services districts for programs
65 provided under the federal social security
66 act or the federal food stamp act, funds
67 herein appropriated, in amounts certified

6 section 367-b of the social services law
7 may be set aside by the state comptroller
8 in an interest bearing account with such

13 pursuant to an estimate provided by the
14 commissioner of health of each local
15 social services district's share of
16 payments made pursuant to section 367-b of
17 the social services law.

18 Notwithstanding the provisions of any other
19 law to the contrary, the office of chil-
20 dren and family services may, on behalf of
21 local social services districts, make
22 payments for adoption subsidies by direct
23 deposit or debit card. Local social
24 services districts shall reimburse the
25 office for the costs of administering such
26 direct deposit or debit card payments.

27 Notwithstanding any inconsistent provision
28 of the social services law or the state
29 finance law, the office of children and
30 family services shall, on a quarterly
31 basis, request that the office of tempo-
32 rary and disability assistance reimburse
33 the office of children and family services
34 in an amount equal to 38 percent of the
35 non-federal share of the costs of adminis-
36 tering such direct deposit or debit card
37 payments to capture the local share of
38 such costs.

39 Notwithstanding any other provision of law,
40 the office of children and family services
41 shall reissue per diem rates, required
42 pursuant to section 529 of the executive
43 law, for calendar years 2002 through 2009
44 to remove any adjustments to the costs
45 included in determining such rates to
46 reflect any changes in federal funding
47 made available to the office or to local
48 social services districts for such costs
49 and, provided further, the office shall
50 not include any such adjustments in per
51 diem rates established hereafter.

52 All reimbursement made by local social
53 services districts for care, maintenance
54 and supervision under this section shall
55 be paid directly to the state through the
56 office of children and family services for
57 deposit into a miscellaneous special
58 revenue fund known as the youth facility

60 Notwithstanding any other provision of law,
61 if a social services district fails to
62 provide reimbursement to the office of
63 children and family services pursuant to
64 section 529 of the executive law within 60
65 days of receiving a bill for services under
66 such section, or by the date certain set
67 by such office for providing

reimbursement, whichever is later, the offices of the department of family assistance are authorized to exercise the state's set-off rights by withholding any amounts due and owing to such district under this appropriation, up to such amounts due and owing to the state under section 529 of the executive law and transferring such funds to the miscellaneous special revenue fund youth facility per diem account (22186).

Notwithstanding any provision of articles 153, 154 and 163 of the education law, there shall be an exemption from the professional licensure requirements of such articles, and nothing contained in such articles, or in any other provisions of law related to the licensure requirements of persons licensed under those articles, shall prohibit or limit the activities or services of any person in the employ of a program or service operated, certified, regulated, funded, approved by, or under contract with the office of children and family services, a local governmental unit as such term is defined in article 41 of the mental hygiene law, and/or a local social services district as defined in section 61 of the social services law, and all such entities shall be considered to be approved settings for the receipt of supervised experience for the professions governed by articles 153, 154 and 163 of the education law, and furthermore, no such entity shall be required to apply for nor be required to receive a waiver pursuant to section 6503-a of the education law in order to perform any activities or provide any services (13998)

127,014,600

Notwithstanding any other provision of law, the amount appropriated herein shall be available to reimburse for 98 percent of 65 percent of eligible social services district expenditures that are claimed by March 31, 2018 for those community preventive services provided from October 1, 2016 through September 30, 2017 at a cost that does not exceed the cost that was in effect on October 1, 2008 and that a social services district can demonstrate had been approved by the office of children and family services on or before October 1, 2008; provided, however, that should insufficient funds be available to provide state reimbursement for 98 percent of 65 percent of such costs, reimbursement shall be made proportionally to each district based on the percentage of their total eligible claims to the amount appropriated; and, provided further, however, that if the amount appropriated exceeds the amount of funds necessary to reimburse 98 percent of 65 percent of the eligible social services district expenditures, the office may, to the extent funds are avail-

able, provide reimbursement for 98 percent
 of 65 percent of eligible social services
 district expenditures for new community
 preventive services programs approved by
 the office and only up to the amounts
 approved by the office. A local social
 services district seeking federal and/or
 state reimbursement for community preven-
 tive services provided on or after October
 1, 2016 must submit claims that separately
 identify the costs of such services in a
 form and manner and at such times as are
 required by the department of family
 assistance and that information regarding
 outcome based measures that demonstrate
 quality of services provided and program
 effectiveness be submitted to the office
 of children and family services in a form
 and manner and at such times as required
 by the office. Of the amount appropriated
 herein, up to \$1 million may be used to
 provide additional funding to an eligible
 program or programs with evaluation
 results that show program effectiveness
 and demonstrate private monetary support

The appropriation made by chapter 53, section 1, of the laws of 2015, is
 hereby amended and reappropriated to read:

Notwithstanding any other provision of law, the amount appropriated
 herein shall be available to reimburse for 98 percent of 65 percent
 of eligible social services district expenditures that are claimed
 by March 31, 2016 for those community preventive services provided
 from October 1, 2014 through September 30, 2015 at a cost that does
 not exceed the cost that was in effect on October 1, 2008 and that a
 social services district can demonstrate had been approved by the
 office of children and family services on or before October 1, 2008;
 provided, however, that should insufficient funds be available to
 provide state reimbursement for 98 percent of 65 percent of such
 costs, reimbursement shall be made proportionally to each district
 based on the percentage of their total eligible claims to the amount
 appropriated; and, provided further, however, that if the amount
 appropriated exceeds the amount of funds necessary to reimburse 98
 percent of 65 percent of the eligible social services district
 expenditures, the office may, to the extent funds are available,
 provide reimbursement for 98 percent of 65 percent of eligible social
 services district expenditures for new community preventive services
 programs approved by the office and only up to the amounts approved
 by the office. A local social services district seeking federal
 and/or state reimbursement for community preventive services provided
