1 Section 1. The opening paragraph of subdivision 2 of section 20-f of
2 the general city law, as added by chapter 40 of the laws of 1989, is
3 amended to read as follows:

4 In addition to existing powers and authorities to regulate by planning
5 or zoning including authorization to provide for transfer of development
6 rights pursuant to other enabling law, the legislative body of any city
7 is hereby empowered to provide for transfer of development rights
8 subject to the conditions hereinafter set forth and such other condi-
9 tions as the city legislative body deems necessary and appropriate that
10 are consistent with the purposes of this section, except that in cities
11 of over one million any transfer of development rights shall be provided
12 in the zoning ordinance after adoption by the city planning commission
13 and board of estimate. The purpose of providing for transfer of develop-
14 ment rights shall be to protect the natural, scenic or agricultural
15 qualities of open lands, to enhance sites and areas of special character
16 or special historical, cultural, aesthetic or economic interest or
17 value, to protect lands at risk from sea level rise, storm surge or
18 flooding, and to enable and encourage flexibility of design and careful

a. That transfer of development rights, and the sending and receiving districts, shall be established in accordance with a well-considered plan within the meaning of subdivision twenty-five of section twenty of this article. The sending district from which transfer of development rights may be authorized shall consist of natural, scenic, recreational, agricultural or open land or sites of special historical, cultural, aesthetic or economic values sought to be protected or lands at risk from sea level rise, storm surge or flooding. Every receiving district, to which transfer of development rights may be authorized, shall have been found by the legislative body of the city, after evaluating the effects of potential increased development which is possible under the transfer of development rights provisions, to contain adequate resources, environmental quality and public facilities including adequate transportation, water supply, waste disposal and fire protection, and that there will be no significant environmentally damaging consequences and such increased development is compatible with the development otherwise permitted by the city and by the federal, state, and county agencies having jurisdiction to approve permissible development within the district. A generic environmental impact statement pursuant to the provisions of article eight of the environmental conservation law shall be prepared by the city for the receiving district before any such district, or any sending district, is designated, and such statement shall be amended from time to time by the city if there are material changes in circumstances. Where a transfer of development rights affects districts in two or more school, special assessment or tax districts, it may not unreasonably transfer the tax burden between the taxpayers of such districts. The receiving and sending districts need not be coterminous with zoning districts.

§ 3. The opening paragraph of subdivision 2 of section 261-a of the town law, as added by chapter 40 of the laws of 1989, is amended to read as follows:

The purpose of providing for transfer of development rights shall be to protect the natural, scenic or agricultural qualities of open lands, to enhance sites and areas of special character or special historical, cultural, aesthetic or economic interest or value, to protect lands at risk from sea level rise, storm surge or flooding and to enable and encourage flexibility of design and careful management of land in recognition of land as a basic and valuable natural resource. 2 development which is possible under the transfer of development rights
3 provisions, to contain adequate resources, environmental quality and
4 public facilities, including adequate transportation, water supply,
5 waste disposal and fire protection, and that there will be no signif-
6 icant environmentally damaging consequences and such increased develop-
