FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would extend the benefits of Section 1000 of Retirement and Social Security Law to any member of a public retirement system in New York State who has a qualifying condition or is a discharged LGBT veteran as defined in section 350 of the Executive Law. The total service credit granted for any military service shall not exceed three years. Members must have at least five years of credited service (not including military service). Tier 1-5 members would be required to make a payment of three percent of their most recent compensation per year of additional service credit granted by this bill. Tier 6 members would be required to make a payment of six percent of their most recent compensation per year of additional service credit.

If this bill is enacted during the 2021 legislative session, insofar as this proposal affects the New York State and Local Employees' Retire-

ment System (ERS), it is estimated that the past service cost will average approximately 15% (12% for Tier 6) of an affected members' compensation for each year of additional service credit that is purchased.

Insofar as this proposal affects the New York State and Local Police and Fire Retirement System (PFRS), it is estimated that the past service cost will average approximately 19% (16% for Tier 6) of an affected members' compensation for each year of additional service that is purchased.

The exact number of current members as well as future members who could be affected by this legislation cannot be readily determined.

Costs arising in ERS would be shared by the State of New York and the participating employers in the ERS

Costs arising in PFRS would be shared by the State of New York and the participating employers in the PFRS.

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

As it applies to members of the New York State Teachers' Retirement System, section 9 of this bill (legislative bill drafts 05266-03-1/05266-04-1) would amend subdivision 1 of Section 1000 of the Retirement and Social Security Law to allow a member who has a qualifying condition as defined in Section 350 of the Executive Law (post-traumatic stress disorder or traumatic brain injury) or a member who is a discharged LGBT veteran as defined in Section 350 of the Executive Law to purchase up to three years of military service credit provided such member did not receive a dishonorable discharge and was not discharged for bad conduct. To obtain such credit, a member must make payments as required by Section 1000 of the Retirement and Social Security Law. Tier 1, 2, 3, 4 and 5 members are required to pay three percent of salary earned during the twelve months of credited service immediately preceding the year in which a claim is made for each year of military service. Tier 6 members are required to pay six percent of salary earned during the twelve months of credited service immediately preceding the year in which a claim is made for each year of military service.

It is not possible to determine the number of eligible current and future members, or the number of years of military service credit each such member may purchase under this bill. Therefore, it is not possible

to estimate the annual increase in the employers' cost for this bill. Whatever increase in liability that arises for service credited under this bill above that paid by the member would be included in the cost that would be shared by employers through the employer contribution rate.

It is estimated that the cost, expressed as a percentage of a member's salary for each year of service credit a member purchases under this bill is as follows:

Cost per year of Service Purchased (as a percentage of the member's salary)			
Tier(s)	1-4	5	6
Cost	11.4%	10.6%	9.0%
Member Contribution offset	3.0%	3.0%	6.0%
Net cost to participating employers	8.4%	7.6%	3.0%

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

SUMMARY OF BILL: This proposed legislation, as it relates to members of the New York City Retirement Systems and Pension Funds (NYCRS), amends Retirement and Social Security Law (RSSL) Section 1000 to permit the purchase of qualifying, other than honorably discharged, military service for NYCRS service credit.

Effective Date: One year after enactment.

BACKGROUND: Members of NYCRS who were other than honorably discharged from military service due to (1) post-traumatic stress disorder; (2) traumatic brain injury; (3) an experience of military sexual trauma; (4) sexual orientation, gender identity, or gender expression; or (5) conduct or acts relating to sexual orientation, gender identity, or gender expression that was prohibited by the military at the time of discharge, are generally ineligible to purchase such military service for purposes of NYCRS benefits.

IMPACT ON BENEFITS: Under the proposed legislation, if enacted, military service with qualifying discharges described above, would become eligible for purchase pursuant to RSSL Section 1000. RSSL Section 1000 allows for up to three years of military service to be purchased as NYCRS service credit.

Prior military service with discharges due to bad conduct or dishonorable discharge would remain ineligible to purchase for purposes of NYCRS benefits.

IMPACT ON PAYABILITY: In addition to the impact on benefits above, once purchased, eligible military service would count towards meeting the minimum eligibility requirements for NYCRS pension benefits.

ADDITIONAL MEMBER CONTRIBUTIONS: Eligible NYCERS members are required to make contributions, equal to 3% of compensation earned during the year of credited service immediately preceding the date of application, for all military service being purchased.

FINANCIAL IMPACT - OVERVIEW: There is no data available to estimate the number of members who were previously ineligible to purchase qualifying military service and potentially benefit from this proposed legislation. Therefore, the estimated financial impact has been calculated on a per event basis equal to the increase in the Present Value of Future Benefits (PVFB) for an average NYCERS member who has purchased military service under Chapter 41 of the Laws of 2016. In determining the increase in the PVFB, it has been assumed that 2.4 years were purchased.

FINANCIAL IMPACT - PRESENT VALUES: Based on the census data and the actuarial assumptions and methods described herein, the enactment of this proposed legislation would increase the PVFB by approximately \$49,300, on average, for each military buyback of 2.4 years purchased. The average cost to the member for each buyback was approximately \$8,300. This results in a net increase in the Present Value of future employer contributions of approximately \$41,000 for each military buyback of 2.4 years purchased.

With respect to an individual member, the additional cost of this proposed legislation could vary greatly depending on the member's length of service, age, and salary history.

FINANCIAL IMPACT - ANNUAL EMPLOYER CONTRIBUTIONS: Enactment of this proposed legislation would increase employer contributions, where such amount would depend on the number of members affected as well as other member characteristics as described above.

As there is no data currently available to estimate the number of members who might become eligible and purchase military service due to the proposed legislation, the financial impact would be recognized at the time of the event. Consequently, changes in employer contributions have been estimated assuming that the increase in the PVFB will be financed over a time period used under the current amortization period for actuarial losses under the Entry Age Normal cost method. Using this approach, the additional PVFB would be amortized over a closed 15-year period (14 payments under the One-Year Lag Methodology (OYLM)) using level dollar payments.

Based on the Actuary's actuarial assumptions and methods in effect described herein, the enactment of this proposed legislation is estimated to increase annual employer contributions by approximately \$4,900 for each military buyback of 2.4 years purchased. With respect to the timing, increases in employer contributions would depend upon when members elect to purchase the service. Generally, increased employer contributions will first occur the second fiscal year following processing and payment of the buyback application.

The proposed legislation, pursuant to section 10 of the bill, is not subject to RSSL section 25. Therefore, costs associated with the enactment of this bill would not be subject to State reimbursement notwithstanding the increased cost of prior service associated with the bill.

CENSUS DATA: The estimates presented herein are based on the census data of members who have purchased military service under Chapter 41 of the Laws of 2016 as of June 30, 2020.

As of June 30, 2020, there were 3,202 NYCERS members who have purchased prior military service under Chapter 41. Those members had an average age of approximately 48.6 years, average service of approximately 16.9

years before buyback, and an average salary of approximately \$107,700. The average amount of service credit purchased was approximately 2.4 years.

ACTUARIAL ASSUMPTIONS AND METHODS: The changes in the Present Value of future employer contributions and annual employer contributions presented herein have been calculated based on the actuarial assumptions and methods in effect for the June 30, 2019 (Lag) actuarial valuations used to determine the Preliminary Fiscal Year 2021 employer contributions of each respective NYCERS.

The Actuary is proposing a set of changes for use beginning with the June 30, 2019 (Lag) actuarial valuations of each NYCERS to determine the respective Final Fiscal Year 2021 Employer Contributions (2021 A&M). If the 2021 A&M is enacted, it is estimated that it would produce PVFB and annual employer contribution results that are within 1% from the results shown above.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the realization of the actuarial assumptions used, as well as certain demographic characteristics of each respective NYCERS and other exogenous factors such as investment, contribution, and other risks. If actual experience deviates from actuarial assumptions, the actual costs could differ from those presented herein. Costs are also dependent on the actuarial methods used, and therefore different actuarial methods could produce different results. Quantifying these risks is beyond the scope of this Fiscal Note.

Not measured in this Fiscal Note are the following:

- * The initial, additional administrative costs of NYCERS and other New York City agencies to implement the proposed legislation.
- * The impact of this proposed legislation on Other Postemployment Benefit (OPEB) costs.
