Section 1. The public health law is amended by adding a new section 3614-f to read as follows:

§ 3614-f. Fair pay for home care. 1. For the purpose of this section, "home care aide" shall have the same meaning defined in section thirty-six hundred fourteen-c of this article.

2. The minimum wage for a home care aide shall be no less than one hundred and fifty percent of the higher of: (a) the otherwise applicable minimum wage under section six hundred fifty-two of the labor law, or (b) any otherwise applicable wage rule or order under article nineteen of the labor law.

1 area with a different prevailing rate of total compensation, as defined
2 in that section, shall be its own region.

3 (B) For the purposes of this section, "regional minimum rate of
4 reimbursement" means a reimbursement rate reflecting the average
5 combined costs associated with the provision of direct service, reason-
6 able administrative costs as defined by the commissioner, allowances for
7 capital costs, the development of profit or reserves as allowable by law
8 or regulations of the commissioner, and any additional supplemental
9 payments. The regional minimum rate of reimbursement shall be the mini-
10 mum reimbursement rate for fiscal intermediaries providing services
11 under this section and shall be the minimum allowable reimbursement that
12 may be deemed adequate from a managed care provider, under section three
13 hundred sixty-four-j of this chapter or a managed long-term care plan,
14 under section forty-four hundred three-f of the public health law.

15 (C) In the first two years after an increase in the minimum wage has
16 been established, analysis for the regional minimum rate of reimburse-
17 ment shall factor in costs that were not captured in cost reports that
18 result from (A) that increase; and (B) wage compression from that
19 increase.

20 (D) The regional minimum rate of reimbursement shall be modified annu-
21 ally, based on cost reports submitted for the prior fiscal year, as
22 modified under this paragraph. If the minimum rate of reimbursement has
23 not been calculated prior to the start of the fiscal year, the previous
24 year's rate shall remain in place until the new rate is calculated,
25 provided that retroactive adjustments shall be made to the beginning of
26 the fiscal year.

27 § 3. Subdivision 8 of section 3612 of the public health law is amended
28 by adding a new paragraph (e) to read as follows:

29 (e)(i) The department shall analyze the certified cost reports of each
30 licensed home care services agency, grouped by regions, to establish a
31 regional minimum rate of reimbursement for each region. The regions
32 shall be established by the commissioner, provided that for areas
33 subject to section thirty-six hundred fourteen-c of this article, each
34 area with a differing prevailing rate of total compensation, as defined
35 in that section, shall be its own region.

36 (ii) For the purposes of this section, "regional minimum rate of
37 reimbursement" means a reimbursement rate reflecting the average
38 combined costs associated with the provision of direct service, reason-
39 able administrative costs as defined by the commissioner, allowances for
40 capital costs, the development of profit or reserves as allowable by law
41 or regulations of the commissioner, and any additional supplemental
42 payments. The regional minimum rate of reimbursement shall be the mini-
43 mum reimbursement rate for fiscal intermediaries providing services
44 under authorization by a local department of social services and shall
45 be the minimum allowable reimbursement that may be deemed adequate from
46 a managed care provider under section three hundred sixty-four-j of the
47 social services law or a managed long term care plan under section
48 forty-four hundred-f of this chapter.

49 (iii) In the first two years after an increase in the applicable mini-
50 mum wage has been established, determination of the regional minimum
51 rate of reimbursement shall factor in costs that were not captured in
52 cost reports that result from (A) that increase; and (B) wage
53 compression from that increase.

54 (iv) The regional minimum rate of reimbursement shall be modified
55 annually, based on cost reports submitted the prior fiscal year, as
56 modified under this paragraph. If the minimum rate of reimbursement has

1 not been calculated prior to the start of the fiscal year, the previous
2 year's rate shall remain in place until the new rate is calculated,
3 provided that retroactive adjustments shall be made to the beginning of
4 the fiscal year if reimbursements to licensed home care service agencies
5 by any party were below the new rate.

6 § 4. Section 3614-d of the public health law, as added by section 49
7 of part B of chapter 57 of the laws of 2015, is amended to read as
8 follows:

9 § 3614-d. Universal standards for coding of payment for medical

23 ment and shall include, for any entity operating pursuant to this arti-
24 cle or section three hundred sixty-five-f of the social services law
