Introduced by M. of A. J. D. RIVERA -- read once and referred to the  
Committee on Judiciary

AN ACT to amend the real property law, in relation to requiring the  
disclosure of lead-based paint test reports in real estate trans-  
actions

The People of the State of New York, represented in Senate and Assem-  
bly, do enact as follows:

1 Section 1. Legislative findings. The legislature hereby finds and  
2 declares that lead poisoning of children persists as one of the most  
3 prevalent and preventable environmental diseases in New York State.  
4 Nearly 100,000 children were newly identified with levels of lead in  
5 their blood at five micrograms per deciliter (mcg/dL) in New York state  
6 between 2011 and 2015. Medical research indicates that children can  
7 suffer permanent brain damage at blood levels even lower than 5mcg/dL,  
8 and that there is no level of lead ingestion that is without adverse  
9 impact. The predominant cause of lead poisoning in young children is  
10 the ingestion of lead particles from deteriorating or abraded lead-based  
11 paint from older and poorly maintained residences. Although New York  
12 state banned the sale of lead-based paint in 1970, (1.1970, ch. 338) 74%  
13 of New York's housing stock was constructed prior to 1970 and lead-based  
14 paint was available outside of the state until 1978. New York state has  
15 both the nation's greatest number (over 4 million units), the highest  
16 percentage (55.08%) of pre-1960 and pre-1950 (41.0%) housing, and the  
17 oldest housing inventory among the fifty states. At least ninety percent  
18 of lead-based paint still exists in occupied housing built before 1960.  
19 New York state's older housing stock places residents at great risk of  
20 exposure to lead hazards, with low-income children living in older hous-  
21 ing having the highest risk of lead poisoning. Knowledge of lead-based  
22 paint hazards, their control, mitigation, abatement, and risk avoidance  
23 is not sufficiently widespread. In addition, while federal law requires  
24 the disclosure by sellers of real property of knowledge of the existence

[-] is old law to be omitted.

LBD06488-01-1

of lead-based paint and lead-based paint hazards, and encourages potential buyers to conduct inspections for lead-based paint, these mechanisms neither mandate that such inspections take place either by sellers or buyers. This gap in disclosure requirements results in residential property being transferred without any knowledge of the potential for such property to cause lead poisoning and the attendant liabilities.

Local county health departments lack sufficient information as to which housing contains lead-based paint and the locations of such lead-based paint, resulting in less cost-effective prevention of lead poisoning, avoidable harm to children's health, and wasted public resources. The purposes of this act are to assure that properties that have not been previously tested for lead-based paint are not simply transferred to new owners without knowledge of whether there is lead-based paint present, and to better utilize the existing federal laws that mandate disclosure of lead-based paint and lead-based paint hazards and to aid in the prevention of lead poisoning. This act is not intended to and does not diminish the responsibility of buyers to carefully examine the property which they intend to purchase and public records pertaining to the property. This act is not intended to and does not limit existing responsibilities by a seller, buyer or agent concerning the condition of the property or potential liabilities or remedies at law, statute or in equity.

This act will significantly improve the transfer process and better serve the interests of all parties to a home purchase. It will increase clarity regarding the nature of the property and will provide greater certainty to contracts entered into by better informed buyers and sellers. As well, it will provide incentive to owners to voluntarily test their property prior to sale.

§ 2. The real property law is amended by adding a new article 16 to read as follows:

#### ARTICLE 16

#### LEAD-BASED PAINT DISCLOSURE ACT

#### Section 520. Short title.

#### 521. Definitions.

#### 522. Inspection of residential real property for lead-based paint prior to transfer of title.

#### 523. Duty of agent.

#### 524. Liability.

§ 520. Short title. This article shall be known and may be cited as the "lead-based paint disclosure act".

§ 521. Definitions. As used in this article, the following terms shall have the following meanings:

1. "Agent" shall mean a person who is licensed as a real estate broker or a real estate salesperson pursuant to section four hundred forty-a of this chapter and acting in a fiduciary capacity.

2. "Binding contract of sale" shall mean a real estate purchase contract or offer that would, upon signing by the seller and subject to satisfaction of any contingencies, require the buyer to accept a transfer of title.

3. "Broker" shall have the same meaning as "real estate broker" defined by section four hundred forty of this chapter.

4. "Buyer" shall mean any entity that enters into a real estate purchase contract, including but not limited to individuals, partnerships, corporations, trusts, government agencies, housing agencies, Indian tribes, and nonprofit organizations.

5. "Lead-based paint" shall mean paint or other similar surface coating material containing 1.0 milligrams of lead per square centimeter or greater, as determined by laboratory analysis of paint samples with all layers of paint present, or by an x-ray fluorescence analyzer. If an x-ray fluorescence analyzer is used, readings shall be corrected for substrate bias when necessary as specified by the performance characteristic sheets released by the United States environmental protection agency and the United States department of housing and urban development for the specific x-ray fluorescence analyzer used. X-ray fluorescence readings shall be classified as positive, negative or inconclusive in accordance with the United States department of housing and urban development guidelines for the evaluation and control of lead-based paint hazards in housing (July 2012) or successor guidelines, and the performance characteristic sheets released by the United States environmental protection agency and the United States department of housing and urban development for the specific x-ray fluorescence analyzer used. X-ray fluorescence readings that fall within the inconclusive zone, as determined by the performance characteristic sheets, shall be confirmed by laboratory analysis of paint chips, results shall be reported in milligrams of lead per square centimeter and the measure of such laboratory analysis shall be definitive. If laboratory analysis is used to determine lead content, results shall be reported in milligrams of lead per square centimeter. Where the surface area of a paint chip sample cannot be accurately measured or if an accurately measured paint chip sample cannot be removed, a laboratory analysis may be reported in percent by weight. In such case, lead-based paint shall mean any paint or other similar surface-coating material containing more than 0.009 percent of metallic lead, based on the non-volatile content of the paint or other similar surface-coating material. In the event that the United States environmental protection agency or a successor agency, or the United States department of housing and urban development or a successor agency, or a department or agency of the state of New York that has obtained applicable authorization pursuant to 40 C.F.R. part 745 subpart Q or successor regulation, adopts more stringent definitions of lead-based paint, such more stringent definitions shall apply for the purposes of this article.

6. "Real estate purchase contract" shall mean any of the following:

(a) a contract which provides for the purchase and sale or exchange of residential real property;

(b) a lease with an option to purchase residential real property;

(c) a lease-with-obligation-to-purchase agreement for residential real property; or

(d) an installment land sale contract for residential real property.

7. "Residential real property" shall mean real property improved by a residential dwelling erected prior to the year nineteen hundred seventy-eight.

8. "Residential dwelling" shall mean a single-family dwelling, including attached structures such as porches and stoops, or a single-family dwelling unit within a structure that contains more than one separate residential dwelling unit, used or occupied, or designed to be used or occupied, wholly or partly, as the home or residence of one or more persons whether or not it was or will be occupied.

9. "Seller" shall mean any entity that intends to engage in the transfer of title to a buyer of residential real property, in whole or in part, including but not limited to individuals, partnerships, corporations, trusts, government agencies, housing agencies, Indian tribes,

1 mortgage banker, lender, and nonprofit organizations. The term "seller"  
2 also shall mean an entity that transfers shares in a cooperatively owned  
3 project.

4 10. "Test for lead-based paint" shall mean a test for the presence of  
5 lead-based paint that has been conducted through both a lead hazard risk  
6 assessment and a lead-based paint inspection as defined in 40 C.F.R.  
7 745.103, 24 C.F.R. 35.86, and the United States department of housing  
8 and urban development guidelines for the evaluation and control of lead-  
9 based paint hazards in housing (July 2012), or successor regulations and  
10 guidelines, and a report prepared indicating the results of such test,  
11 including the locations where tests were performed for lead-based paint  
12 and lead-based paint hazards and the readings of all such tests. Such  
13 test shall not be valid unless performed by a person accredited pursuant  
14 to: (a) certification to conduct lead hazard risk assessment and  
15 inspections by the United States environmental protection agency pursu-  
16 ant to 40 C.F.R. 745.226(b) or successor regulation; or (b) certif-  
17 ication by a state or tribal program authorized by the United States  
18 environmental protection agency to certify individuals engaged in lead-  
19 based paint activities pursuant to 40 C.F.R. 745.325 or successor regu-  
20 lation or eligible to conduct the inspections required by this article.  
21 For multifamily housing, the test must be conducted in accordance with  
22 the United States department of housing and urban development guidelins  
23 for the evaluation and control of lead-based paint hazards in housing  
24 (July 2012), or successor guidelines.

25 11. "Transfer of title" shall mean delivery of a properly executed  
26 instrument conveying title to residential real property and shall  
27 include delivery of a real estate purchase contract that is a lease or  
28 installment land sale contract.

29 § 522. Inspection of residential real property for lead-based paint  
30 prior to transfer of title. 1. (a) Effective April first, two thousand  
31 twenty-two, every seller of residential real property pursuant to a real  
32 estate purchase contract shall deliver to a buyer or buyer's agent prior  
33 to the signing by the buyer of a binding contract of sale a certificate  
34 that such property has been tested for lead-based paint, and provide the  
35 report of such test. A copy of the certificate containing the signature  
36 of the seller and any report of a test for lead-based paint shall be  
37 attached to the real estate purchase contract. A copy of such certif-  
38 icate and report of such test and any subsequent reports of such tests  
39 shall be filed with the state department of health in the department of  
40 health in the county where such residential real property is located,  
41 and such certificate shall as well be filed with the office authorized  
42 under section three hundred seventy-two of this chapter to be registrar  
43 of title in the county where such real property is located, and such  
44 office shall not accept for filing an instrument of transfer of title  
45 unless accompanied by such certificate where applicable.

46 (b) The presentation of a certificate of such test by a prior owner of  
47 said property and evidence of filing such certificate and report with  
48 the department of health in the county where such residential real prop-  
49 erty is located, shall be deemed to be in compliance with the provisions  
50 of this subdivision.

51 (c) In the event the seller has not received from a prior owner a  
52 certification and report of such tests as set forth in this subdivision,  
53 the costs of testing for lead-based paint and the preparation of a  
54 certificate and report thereof as provided in this subdivision shall be  
55 deductible by the transferor or grantor, up to the amount of five  
56 hundred dollars, or in a building with more than one dwelling unit up to

1 four hundred dollars per dwelling unit tested, from the taxes imposed by  
2 sections fourteen hundred two and fourteen hundred two-a of the tax law.  
3 The transferor or grantor shall not be reimbursed for costs in excess of  
4 the total taxes imposed by sections fourteen hundred two and fourteen  
5 hundred two-a of the tax law.

6 2. Any provision in a real estate purchase contract or any other docu-  
7 ment related to the transfer of title in residential real property that  
8 purports to waive any right created under state or federal law for the  
9 buyer to conduct a risk assessment or inspection of the property to  
10 determine the presence of lead-based paint and/or lead-based paint  
11 hazards, or any oral agreement that purports to waive such right, is  
12 null and void as against public policy, notwithstanding that such waiv-  
13 ers might otherwise be permitted by federal law.

14 3. A certificate that such property has been tested for lead-based  
15 paint shall not be required in connection with any of the following  
16 transfers of residential real property:

17 (a) A transfer to a beneficiary of a deed of trust;

18 (b) A transfer by a fiduciary in the course of the administration of a  
19 decedent's estate, a guardianship, a conservatorship, or a trust;

24 decree of divorce, dissolution of marriage, annulment, or legal sepa-  
25 ration or as a result of property settlement, agreement incidental to a  
26 decree of divorce, dissolution of marriage, annulment or legal sepa-  
27 ration;

28 (f) A transfer to or from the state, a political subdivision of the  
29 state, or another governmental entity;

30 (g) A transfer by a sheriff;

31 (h) A transfer pursuant to a partition action; or

32 (i) A transfer of an unoccupied dwelling unit or residential property  
33 that is to be demolished, provided the dwelling unit or property will  
34 remain unoccupied until demolition and lead-safe work practices enumer-  
35 ated in 40 C.F.R. 745 and successor regulations, or more protective  
36 state law are followed during the demolition.

37 4. Nothing contained in this article is intended to prevent the  
38 parties to a contract of sale from entering into agreements of any kind  
39 or nature with respect to the physical condition of the property to be  
40 sold, including, but not limited to, agreements for the sale of real  
41 property "as is".

42 § 523. Duty of agent. An agent representing a seller of residential  
43 real property as a listing broker, or, if the seller is not represented  
44 by an agent, the agent representing the buyer of residential real prop-  
45 erty and dealing with a prospective seller, shall have the duty to time-  
46 ly (in any event, before the buyer signs a binding contract of sale)  
47 inform each seller of the seller's obligations under this article. An  
48 agent representing a buyer of residential real property, or, if the  
49 buyer is not represented by an agent, the agent representing a seller of  
50 residential real property and dealing with a prospective buyer, shall  
51 have the duty to timely (in any event, before the buyer signs a binding  
52 contract of sale) inform such buyer of the buyer's rights and obli-  
53 gations under this article. If an agent performs the duties and obli-  
54 gations imposed upon him or her pursuant to this section, the agent  
55 shall have no further duties under this article and shall not be liable  
56 to any party for a violation of this article. The department of state

1 may, pursuant to section four hundred forty-one-c of this chapter,  
2 revoke or suspend the license of an agent who violates this article.

3 § 524. Liability. Nothing contained in this article shall be construed  
4 as limiting any existing legal cause of action or remedy at law, in  
5 statute or in equity.

6 § 3. The real property law is amended by adding a new section 235-aa  
7 to read as follows:

8 § 235-aa. Disclosure of lead-based paint and lead-based paint hazards.

9 1. Prior to executing a residential lease or rental agreement with a  
10 tenant, the owner of real property shall provide the tenant a copy of

12 to section five hundred twenty-two of this chapter, and any other  
13 report, within the possession or control of the owner, pertaining to  
14 lead-based paint or lead-based paint hazards within the meaning of  
15 section 4852d of title 42 of the United States Code and the regulations  
16 thereunder. Owners who deliver a disclosure form with all required docu-
