FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would allow any member who served as an elected or appointed justice or judge of the New York State Unified Court System to have their final average salary determined using the rate of salary set by the Commission on Judicial Compensation for the year in which the member last served.

If this bill is enacted during the 2021 legislative session, we anticipate that there will be an increase of approximately \$2.7 million in the annual contributions of the State of New York for the fiscal year ending March 31, 2022. In future years, this cost will vary as the billing rates and salary of the affected members change.

In addition to the annual contributions discussed above, there will be an immediate past service cost of approximately \$60.8 million which will be borne by the State of New York as a one-time payment. This estimate is based on the assumption that payment will be made on March 1, 2022.

These estimated costs are based on 1203 affected members employed by the State of New York, with annual salary of approximately \$235 million as of March 31, 2020. The affected members were identified using job title codes provided by the Office of Court Administration.
