

STATE OF NEW YORK

Cal. No. 237

2021-2022 Regular Sessions

IN ASSEMBLY

April 30, 2021

Introduced by M. of A. LAVINE, GRIFFIN, SOLAGES, MONTESANO -- read once and referred to the Committee on Corporations, Authorities and Commissions -- ordered to a third reading, amended and ordered reprinted, retaining its place on the order of third reading

AN ACT to amend the public authorities law, in relation to establishing the North and South Shore water authority; and to cap the rate a water-works corporation may increase its rates and charges

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. Legislative findings. The legislature hereby finds that the
2 groundwater supply system presently operated by a private utility in the
3 northwest portion of the Nassau county servicing the residents of the
4 village of Sea Cliff, and portions of the village of Old Brookville,
5 village of Roslyn Harbor, and residents in the unincorporated hamlets of
6 Glenwood Landing, Glen Head and the city of Glen Cove, is fragile and
7 subject to episodic deficiencies of varying magnitude including service
8 disruptions and drastic price variations to residents serviced by the
9 existing private water company. The groundwater supply requires better
10 management of its entire reserve both within and outside the water util-
11 ity supply area as well as long range planning to provide protection of
12 important watershed areas, water conservation, and prevention from
13 contamination and salt water intrusion. Since the potable water for the
14 northern portion of the North Shore peninsula is derived from an aquifer
15 which is the sole source of water for all of Long Island, the issues of
16 contamination and conservation are of statewide concern. The problems of
17 salt water intrusion facing the North Shore peninsula, face many other
18 peninsulas on Long Island and many of the barrier islands. It is hoped
19 that the authority created by this act will not only protect, preserve
20 and enhance the quality and quantity of the water within its supply
21 area, but that it will also serve as a model and as a leader in foster-

ing cooperation with other water suppliers to better manage, conserve and protect the groundwater within and outside its supply area.

52 similar to the position held by the member, officer or employee with the
53 authority.

55 let contracts for construction or purchase of supplies, materials, or
56 equipment pursuant to section one hundred three of the general municipal

3 and employees of the authority or to contract with a public utility, for
4 a term not to exceed five years, for the operation and maintenance of a
5 water supply system acquired from said public utility.

10 section, clause or provision shall on account thereof be deemed invalid
11 or ineffective.

54 the effective date of this act, is hereby suspended and the public

8 impair, or invalidate the remainder thereof, but shall be confined in
9 its operation to the clause, sentence, paragraph, subdivision, section
10 or part thereof directly involved in the controversy in which such judg-
11 ment shall have been rendered. It is hereby declared to be the intent of
12 the legislature that this act would have been enacted even if such
13 invalid provisions had not been included herein.
