A participant in the [~~twenty-year/age-fifty~~] twenty-year retirement program shall contribute additional member contributions until the later of (i) the date as of which he or she has twenty years of credited service as a bridge and tunnel officer, or (ii) the third anniversary of the date that he or she last became a participant in the [~~twenty-year/age-fifty~~] twenty-year retirement program.

2. Commencing with the first full payroll period after each person becomes a participant in the [~~twenty-year/age-fifty~~] twenty-year retirement program, additional member contributions at the rate specified in paragraph one of this subdivision shall be deducted (subject to the applicable provisions of subdivision d of section six hundred thirteen of this article) from the compensation of such participant on each and every payroll of such participant for each and every payroll period.

3. (i) Subject to the provisions of subparagraph (ii) of this paragraph, where any additional member contributions required by paragraph one of this subdivision are not paid by deductions from a participant's compensation pursuant to paragraph two of this subdivision:

(A) that participant shall be charged with a contribution deficiency consisting of such unpaid amounts, together with interest thereon at the rate of five percent per annum, compounded annually; and

(B) such interest on each amount of undeducted contributions shall accrue from the end of the payroll period for which such amount would have been deducted from compensation if he or she had been a participant at the beginning of that payroll period, until such amount is paid to the retirement system.

(ii) Except as provided in subparagraph (iii) of this paragraph, no interest shall be due on any such unpaid additional contributions which are not attributable to the period prior to the first full payroll period referred to in paragraph two of this subdivision.

(iii) Should any person who, pursuant to paragraph eight of this subdivision, has withdrawn any additional member contributions (and any interest paid thereon) again become a participant in the [~~twenty-year/age-fifty~~] twenty-year retirement program pursuant to paragraph six of subdivision b of this section, an appropriate amount shall be included in such participant's contribution deficiency (including interest thereon as calculated pursuant to subparagraph (i) of this paragraph) as if such additional contributions had never been made.

(iv) Notwithstanding any other provisions of this paragraph, no participant shall be charged interest for any period prior to March twenty-fifth, nineteen hundred ninety-eight with respect to any contributions owed with respect to any payroll period beginning prior to such date.

4. The head of a retirement system which includes participants in the ~~[twenty-year/age-fifty]~~ twenty-year retirement program in its membership may, consistent with the provisions of this subdivision, promulgate regulations for the payment of such additional member contributions, and any interest thereon, by such participants (including the deduction of such contributions, and any interest thereon, from the participant's compensation).

5. Where a contribution deficiency chargeable to a participant pursuant to paragraph three of this subdivision has not been paid in full before the effective date of retirement, that participant shall not be eligible to retire pursuant to subdivision c of this section.

6. Where a contribution deficiency chargeable to a participant pursuant to paragraph three of this subdivision has not been paid in full before the date of discontinuance of service, that participant shall not be entitled to a deferred vested benefit pursuant to subdivision d of this section.

7. Where a participant has not paid in full any contribution deficiency chargeable to him or her pursuant to paragraph three of this subdivision, and a benefit, other than a refund of member contributions pursuant to section six hundred thirteen of this article or a refund of additional member contributions pursuant to paragraph eight of this subdivision, becomes payable under this article to the participant or to his or her designated beneficiary or estate, the actuarial equivalent of any such unpaid amount shall be deducted from the benefit otherwise payable.

7-a. Notwithstanding paragraph six or seven of this subdivision, where a deficiency chargeable to a participant pursuant to paragraph three of this subdivision has not been paid in full while the participant is a Triborough bridge and tunnel member and such participant retires prior to July first, two thousand eleven, such participant may elect to be covered by this paragraph. Such participant shall be entitled to the benefits provided in subdivision c of this section provided that participant authorizes the retirement system to deduct from such benefits an amount which will result in the deficiency, plus associated interest to date of final payment, being paid in full no later than July first, two thousand eleven or such earlier date as agreed to by the participant. Such amount will be deducted in equal installments on a monthly basis. Nothing in this paragraph shall prevent the participant from making a partial payment of the amount of the deficiency at the time of retirement so as to reduce the monthly payment nor to make a lump sum payment equal to the amount of the total unpaid balance at any time during the period of repayment.

8. (i) Such additional member contributions (and any interest thereon) shall be paid into the contingent reserve fund of the retirement system of which the participant is a member and shall not for any purpose be deemed to be member contributions or accumulated contributions of a member under section six hundred thirteen of this article or otherwise while he or she is a participant in the ~~[twenty-year/age-fifty]~~ twenty-year retirement program or otherwise, except that, a surplus of such additional member contributions that are paid into the retirement

1 system's contingent reserve fund may be used for the sole purpose of
2 offsetting a deficit of basic member contributions.

3 (ii) Should a participant in the [~~twenty-year/age fifty~~] twenty-year
4 retirement program who has rendered less than fifteen years of allowable
5 service as a Triborough bridge and tunnel member cease to hold a posi-
6 tion as a Triborough bridge and tunnel member for any reason whatsoever,
7 his or her accumulated additional member contributions made pursuant to
8 this subdivision (together with any interest thereon paid to the retire-
9 ment system) may be withdrawn by him or her pursuant to procedures
10 promulgated in regulations of the board of trustees of the retirement
11 system, together with interest thereon at the rate of five percent per
12 annum, compounded annually.

13 (iii) Except as provided in subparagraph (ii) of this paragraph, no
14 member, while he or she is a participant or otherwise, shall have a
15 right to withdraw such additional member contributions or any interest
16 thereon from the retirement system.

17 9. A member who has made the additional contributions specified by
18 this subdivision may borrow a portion of such contributions, pursuant to
19 the provisions of section six hundred thirteen-b of this article.

20 § 2. This act shall take effect immediately.

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

SUMMARY OF BILL: This proposed legislation would amend Section 604-c
of the Retirement and Social Security Law (RSSL) to remove age 50 as an
eligibility requirement for retirement for Tier 4 and Tier 6 members of
the New York City Employees' Retirement System (NYCERS) who are members
of the respective TBTA 20/50 Plans.

Effective Date: Upon enactment.

IMPACT ON BENEFITS: Currently, members of the Tier 4 and 6 TBTA 20/50
Plans are eligible to receive a service retirement benefit upon attain-
ing 20 or more years of credited service and age 50. Tier 4 members who
leave employment with at least five, but less than 20 years of service,
are eligible to receive a vested retirement benefit payable on the date
they would have attained 20 or more years of credited service and age
50. Tier 6 members who leave employment with at least 10, but less than
20 years of credited service are eligible to receive a vested retirement
benefit payable at age 63.

Under the proposed legislation, if enacted, affected members of the
TBTA 20/50 Plans would be eligible to receive a service retirement bene-
fit upon attaining 20 years of credited service, without regard to age.
Tier 4 members who leave employment with at least five, but less than 20
years of credited service, would be eligible to receive a vested retire-
ment benefit payable on the date the member would have completed 20
years of credited service, without regard to age. Tier 6 members who
leave employment with at least 10, but less than 20 years of credited
service would continue to be eligible to receive a vested retirement
benefit payable at age 63.

FINANCIAL IMPACT - PRESENT VALUES: Based on the anticipated group of
members benefiting from the change in the eligibility requirement and
the actuarial assumptions and methods described herein, the enactment of
this proposed legislation would increase the Present Value of Future
Benefits (PVFB) by approximately \$6.1 million.

Under the Entry Age Normal cost method used to determine the employer
contributions to NYCERS, there would be an increase in the Unfunded
Accrued Liability (UAL) of approximately \$7.0 million offset by a
decrease in the Present Value of future employer Normal Cost of \$0.9
million.

FINANCIAL IMPACT - ANNUAL EMPLOYER CONTRIBUTIONS: In accordance with Section 13-638.2(k-2) of the Administrative Code of the City of New York (ACCNYS), new UAL attributable to benefit changes are to be amortized as determined by the Actuary but are generally amortized over the remaining working lifetime of those impacted by the benefit changes. As of June 30, 2020, the remaining working lifetime of the members who could potentially benefit from the change in the eligibility requirement for retirement is approximately eight years.

For the purposes of this Fiscal Note, the increase in UAL was amortized over an eight-year period (seven payments under the One-Year Lag Methodology (OYLM)) using level dollar payments. This payment plus the increase in the Normal Cost results in an increase in annual employer contributions of approximately \$1.6 million each year.

CONTRIBUTION TIMING: For the purposes of this Fiscal Note, it is assumed that the changes in the PVFB and annual employer contributions would be reflected for the first time in the June 30, 2020 actuarial valuation of NYCERS. In accordance with the OYLM used to determine employer contributions, the increase in employer contributions would first be reflected in Fiscal Year 2022.

CENSUS DATA: The estimates presented herein are based on the census data used in the June 30, 2020 (Lag) actuarial valuation of NYCERS to determine the Preliminary Fiscal Year 2022 employer contributions.

The 116 NYCERS Tier 4 TBTA 20/50 Plan members as of June 30, 2020 who could potentially benefit from the change in the eligibility requirement for retirement had an average age of approximately 41.8 years, average service of approximately 15.7 years, and an average salary of approximately \$112,300. As of June 30, 2020, there are no members in the Tier 6 TBTA 20/50 Plan.

ACTUARIAL ASSUMPTIONS AND METHODS: The changes in the PVFB and annual employer contributions presented herein have been calculated based on the actuarial assumptions and methods in effect for the June 30, 2019 (Lag) actuarial valuations used to determine the Preliminary Fiscal Year 2021 employer contributions of NYCERS.

The Actuary is proposing a set of changes for use beginning with the June 30, 2019 (Lag) actuarial valuations of NYCERS to determine the Final Fiscal Year 2021 Employer Contributions (2021 A&M). If the 2021 A&M is enacted, it is estimated that it would produce increases in the PVFB and annual employer contributions that are approximately 1% larger than the results shown above.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the realization of the actuarial assumptions used, as well as certain demographic characteristics of NYCERS and other exogenous factors such as investment, contribution, and other risks. If actual experience deviates from actuarial assumptions, the actual costs could differ from those presented herein. Costs are also dependent on the actuarial methods used, and therefore different actuarial methods could produce different results. Quantifying these risks is beyond the scope of this Fiscal Note.

Not measured in this Fiscal Note are the following:

- * The initial, additional administrative costs of NYCERS and other New York City agencies to implement the proposed legislation.

- * The impact of this proposed legislation on Other Postemployment Benefit (OPEB) costs.

STATEMENT OF ACTUARIAL OPINION: I, Sherry S. Chan, am the Chief Actuary for, and independent of, the New York City Retirement Systems and Pension Funds. I am a Fellow of the Society of Actuaries, an Enrolled
