FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would allow safety officers who are members of the New York State and Local Employees' Retirement System to be eligible for a performance of duty (POD) disability benefit if they become disabled as a result of an injury inflicted by any person confined in an institution under the jurisdiction of the New York State Office of Mental Health. The benefit will be 75 percent of final average salary, less workers' compensation. Currently the affected members do not have a POD disability benefit.

If this bill is enacted during the 2021 legislative session, we anticipate that there will be an increase of approximately \$750,000 in the annual contributions of the State of New York for the fiscal year ending March 31, 2022. In future years, this cost will vary as the billing rates and salary of the affected members change.

In addition to the annual contributions discussed above, there will be an immediate past service cost of approximately \$4.53 million which will be borne by the State of New York as a one-time payment. This estimate is based on the assumption that payment will be made on March 1, 2022.

These estimated costs are based on 463 affected members with annual salary of approximately \$38.3 million as of March 31, 2020.
