

STATE OF NEW YORK

6870--A

2021-2022 Regular Sessions

IN SENATE

May 19, 2021

Introduced by Sen. ADDABBO -- read twice and ordered printed, and when printed to be committed to the Committee on Agriculture -- recommitted to the Committee on Agriculture in accordance with Senate Rule 6, sec. 8 -- committee discharged, bill amended, ordered reprinted as amended and recommitted to said committee

AN ACT to amend the agriculture and markets law, in relation to standards of care for animals held in, or being transported by, animal shelters; to amend the general business law, in relation to pet dealers; to amend the state finance law, in relation to establishing an animal shelter regulation fund; and to repeal certain provisions of the agriculture and markets law relating to pet dealers

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. Legislative intent. The department of agriculture and
2 markets holds statutory responsibility for the oversight of municipal
3 animal shelters and any duly incorporated humane society, duly incorpo-
4 rated society for the prevention of cruelty to animals or duly incorpo-
5 rated animal protective association providing contractual animal shel-
6 tering services for local governments in this state. The department also
7 holds statutory responsibility for registering not-for-profit animal
8 shelters or rescue organizations as entities exempt from licensure and
9 inspection under the agency's pet dealer program. Currently however, no
10 statutory facility or animal care standards exist in law to which these
11 organizations must conform to adequately and uniformly ensure animal
12 health and wellbeing at and in transport to and from such facilities.
13 The legislature finds that the universe of entities harboring homeless
14 dogs and cats in our communities and providing animal transport in-state
15 and across state lines has evolved and grown exponentially over the past
16 several decades, rendering the existing statutory framework for the
17 oversight of such entities deficient and benefiting neither the adoptive

families of dogs and cats in need nor the organizations that work so diligently to find safe, loving homes for them.

Therefore, it is the stated purpose of this legislation to establish responsible, uniform and effective standards for the care of dogs and cats in animal shelters as defined herein to improve state oversight, ensure public trust and provide for increased protections for such animals while in the care of such facilities.

§ 2. The agriculture and markets law is amended by adding a new article 26-C to read as follows:

26 (c) animals with known or suspected infectious diseases shall be
27 housed in isolation areas as prescribed in subdivision nine of section
28 four hundred twenty-four of this article;

29 (d) nothing in this subdivision shall be construed to prevent the
30 temporary housing of animals in areas without such segregation for
31 medical care and in pre- and post-operative surgical areas.

32 6. Well-socialized, healthy animals may be housed with one or more
33 conspecifics. Animals housed together shall be compatible and have
34 similar environmental requirements. Such housing shall not allow expo-
35 sure to numerous different animals on a frequently changing basis.

36 7. Prior to being housed with one or more other animals the following
37 conditions shall apply:

38 (a) all animals are vaccinated and dewormed against the pathogens
39 specified in section four hundred twenty-nine of this article;

40 (b) physical examinations verifying the absence of clinical signs of
41 infectious diseases have been performed;

42 (c) surgical sterilization or housing in same-sex groupings, except
43 littermates under twelve weeks of age; and

44 (d) the animal has a collar or tag to facilitate visual identifica-
45 tion, unless the animal's age or condition is such that application of
46 visual identification is not practicable or would be detrimental to the
47 animal's health.

48 8. Animals that are poorly socialized, fearful, or aggressive towards
49 other animals or that are ill, injured, or within a week of whelping or
50 queening shall be housed individually in a suitably sized, enriched
51 primary enclosure.

52 (a) Littermates under the age of twelve weeks may be co-housed in an
53 isolation area if all individuals are infected with the same infectious,
54 contagious, parasitic or communicable disease.

55 (b) Dogs and cats within a week of giving birth or until separation
56 from the offspring shall be provided with a box with a solid floor large

1 enough to allow the animal to lie fully stretched on its side, permit-
2 ting all offspring to nurse and to accommodate all offspring until
3 weaned; and an area large enough to allow the dam or queen to leave the
4 whelping box.

5 9. Each enclosure shall clearly indicate the identities of all animals
6 contained within, specifying each animal's unique identifier as required
7 under section four hundred twenty-three of this article. Each animal
8 shall also be individually identified.

9 10. All primary enclosures shall provide sufficient space to allow
10 each animal, regardless of species, to:

11 (a) make all normal postural adjustments;

12 (b) fully stretch its body and have sufficient room to circle, lie
13 down, and stand upright without the head or tail touching the sides of
14 the enclosure even with the presence of water and food bowls, beds,
15 litter boxes, and other normal cage objects; and

16 (c) allow animals to sit, sleep and eat away from areas of their
17 enclosure where they defecate and urinate.

18 11. Any primary enclosure housing two or more animals shall provide
19 the following:

20 (a) sufficient space and quality of environment to allow all animals
21 to maintain social distances;

22 (b) adequate areas for hiding, resting, feeding, and elimination with
23 sufficient space to separate areas and the ability for all animals to
24 access those areas.

25 12. Regardless of the size of the primary enclosure, the number of
26 animals cohoused in a primary enclosure at one time shall not exceed the
27 following thresholds:

28 (a) twelve adult cats;

29 (b) two litters of kittens not to exceed ten kittens total;

30 (c) five adult dogs; or

31 (d) one litter of puppies.

32 13. Puppies and kittens less than sixteen weeks of age shall not be
33 housed in the same enclosure with adults other than their dam or queen,
34 or foster or surrogate dam or queen.

35 14. All animals housed with one or more conspecifics shall be sepa-
36 rated for feeding or observed at feeding times for antagonistic inter-
37 actions that pose a safety and welfare concern.

38 15. Animals shall not be housed outdoors for more than twelve hours
39 within a twenty-four-hour period, with the exception of free-roaming
40 cats under the care of the animal shelter.

41 16. Outdoor primary enclosures shall comply with all housing require-
42 ments prescribed in this section and shall provide the following:

43 (a) protection from the elements at all times;

44 (b) adequate drainage to prevent the accumulation of excess water in
45 or around the enclosures;

46 (c) a moisture-proof, insulated shelter structure large enough to
47 simultaneously accommodate all animals in the enclosure, unless immedi-
48 ate entry to an indoor portion of the enclosure is accessible;

49 (d) security from unauthorized entry of other animals into the enclo-
50 sure;

51 (e) a separate, shaded area sufficient to simultaneously accommodate
52 all animals, except when animals have immediate access to an indoor
53 portion of the enclosure;

54 (f) clean dry bedding at all times and a heat source when the outdoor
55 temperature falls below fifty degrees fahrenheit; and

(g) enclosures that allow outdoor access for cats shall be fully enclosed to prevent escape from the enclosure.

17. For any animal in the custody or possession of any animal shelter for fourteen days or longer, alternative housing shall be provided in one of the following formats:

(a) enriched cages at least twice the size otherwise required for an animal's size;

(b) foster care in a private home, office, or other suitable off-site location; or

(c) room housing.

§ 426. Sanitation. Any animal shelter licensed pursuant to this article shall establish and maintain sanitation protocols that include the following:

1. use of one or more agents that have cleaning and disinfectant properties that are effective under conditions present in a given environment and with demonstrated effectiveness against the pathogens for which animals are at risk;

2. removal of animals from enclosures and placement in another appropriate enclosure or separation from the area being cleaned or disinfected by a functional compartment door when water, cleaning, or disinfecting agents are sprayed in or near an animal's enclosure;

3. dedicated equipment for cleaning and disinfection for use in each separate area of the shelter designated as cat or dog isolation, holding, adoptions or other functionally separate areas within the facility;

4. cleaning and disinfecting in between each use of items and surfaces that come into contact with animals, including but not limited to food and water bowls, litter boxes and exam tables, or procedures to discard and replace with new items for each animal;

5. cleaning and disinfecting all enclosures for temporary or permanent housing before a new animal enters such enclosure;

6. daily cleaning and at least once weekly disinfecting of enclosures that house the same animal or animals during a long-term stay;

7. cleaning and disinfecting enclosures when the enclosure becomes heavily soiled or otherwise contaminated or a new animal is added to the enclosure;

8. laundering of all animal bedding in a machine with detergent when soiled and thoroughly drying such bedding before reuse, or removing and disposing of such bedding appropriately;

9. cleaning of outdoor premises from clutter that may pose a safety concern and fecal material removed at least once daily;

10. appropriate use and disposal of protective garments worn during cleaning and intensive animal-handling activities within an animal shelter; and

11. proper hygiene of shelter staff, volunteers, and visitors, including signage, supervision, and hand sanitation.

§ 427. Shelter management protocols. 1. Each animal shelter shall have a clear, written, management structure that defines staff authority, reporting structure and responsibilities, and is readily accessible to all staff and volunteers.

2. Staffing shall be sufficient to allow adequate time, per animal, for cleaning and daily feeding, and to meet the minimum requirements for socialization and exercise of animals as prescribed in section four hundred thirty of this article.

3. The total number of animals housed in an animal shelter facility or foster home shall not exceed the number of housing units available at the facility as required by section four hundred twenty-five of this

1 article; provided, however, that exceptions to the provisions of this
2 subdivision shall be permissible for periods not to exceed forty-five
3 contiguous days in the event of an animal seizure pursuant to article
4 twenty-six of this chapter or a natural disaster where an official
5 declaration of the disaster or emergency has been made.

6 4. All animals shall be observed daily by a manager or designee to
7 identify each animal's needs for care, housing and service and to ensure
8 that each animal has a plan to advance efficiently through the shelter.

9 § 428. Animal husbandry. 1. (a) Each animal shelter shall provide each
10 animal under its care with fresh, potable water at all times unless
11 otherwise directed by a duly licensed veterinarian.

12 (b) Each animal shelter shall feed each animal under its care a
13 complete and nutritionally balanced, species-specific and life-stage-ap-
14 propriate diet as indicated by the animal's age, weight, and medical
15 health, or as directed by a duly licensed veterinarian in accordance
16 with the written protocols required by section four hundred twenty-three
17 of this article.

18 (c) Food shall be provided at least once daily for adult animals, at
19 least twice daily for animals less than six months of age, and at least
20 three times daily for animals less than two months of age.

21 (d) Perishable animal food shall be refrigerated.

22 (e) Animal food and water containers shall be present in sufficient
23 number and location to safely enable each animal in the enclosure to
24 access an adequate supply of food and water. Food and water bowls shall
25 be of the type that can be easily sanitized, be kept clean and shall be
26 cleaned and disinfected prior to use by a different animal, unless
27 disposable bowls are used and replaced between animals.

28 (f) Each animal shall be observed during or following each feeding
29 time to ensure daily food intake, or at least once every twenty-four
30 hours for animals continually offered food. Such observations shall be
31 recorded.

32 2. (a) Humane and safe physical restraint to limit some or all normal
33 voluntary movement of any animal in each animal shelter's care shall
34 minimize fear, pain, stress and suffering for the animal, protect both
35 the animal and personnel from harm, and be of the least intensity and
36 duration required to allow the specific procedure or procedures to be
37 performed properly.

38 (b) (i) Frightened or fractious animals may be appropriately transqui-
39 lized, under the orders and supervision of a duly licensed veterinarian,
40 if they cannot be restrained safely and humanely.

41 (ii) No physical force shall be used as punishment or in anger.

42 (iii) Handling methods shall minimize the chance of escape and ensure
43 the safety of both humans and animals.

44 (c) Restraint devices and handling techniques employed by each animal
45 shelter shall be used in a manner that minimizes animal stress and risk
46 of injury to both animals and personnel, in the event such devices and
47 techniques are necessary for the safe handling of the animal.

48 (i) All equipment shall be maintained in good working order.

49 (ii) Cats shall not be restrained with control poles. Humane traps,
50 cat boxes, nets, towels, or other equipment appropriate for handling
51 fractious animals may be used. Squeeze cages, feral cat boxes, or
52 humane traps with dividers shall be used for restraining cats and admin-
53 istering tranquilizers prior to handling.

54 § 429. Veterinary care. 1. Prescription medications and treatments
55 shall be administered by each animal shelter under the advisement of or

1 in accordance with written protocols provided by a duly licensed veteri-
2 narian.

3 2. All drugs shall be documented and dispensed by each animal shelter
4 in accordance with applicable local, state, and federal laws and regu-
5 lations.

6 3. All incoming animals shall be assessed within two hours after
7 intake by a trained animal shelter staff member to determine if any
8 physical abnormalities exist that require immediate veterinary attention
9 in accordance with the shelter's written protocol for emergency care, as
10 required by section four hundred twenty-three of this article.

11 4. Each animal shelter shall have the ability to provide for veteri-
12 nary assessment and humane care in a timely fashion through in-house
13 facilities or at an off-site location.

14 5. Pursuant to the written protocol for emergency veterinary care
15 required by section four hundred twenty-three of this article, each
16 animal shelter shall provide appropriate and timely veterinary care for
17 any animal that is in distress, experiencing pain, or showing signs of
18 significant illness or injury.

19 6. Each animal shelter shall recognize and treat acute and chronic
20 pain appropriately, as set forth in article twenty-six of this chapter.
21 The legal status regarding the ownership of any animal shall not prevent
22 treatment to relieve suffering.

23 7. Each animal shelter shall provide a complete physical examination
24 of all animals in its custody or possession by trained shelter staff
25 within twenty-four hours of intake to identify medical or behavioral
26 conditions that require further evaluation and care. Animals shall
27 specifically be examined for bite wounds; animals that have potentially
28 been exposed to rabies shall be managed in accordance with applicable
29 local and state laws. Each animal shelter shall comply with the rabies
30 reporting requirements prescribed in 10 NYCRR 2.14.

31 8. Each animal shelter shall vaccinate each animal in its custody or
32 possession with core vaccines as recommended by national standards and
33 guidelines specific to animal shelters as established, endorsed or
34 approved by the American Association of Feline Practitioners (AAFP),
35 American Animal Hospital Association (AAHA), or the Association of Shel-
36 ter Veterinarians (ASV).

37 9. Each animal shelter shall provide all dogs, cats, and ferrets in
38 its custody or possession with a rabies vaccination prior to release in
39 accordance with local public health laws. Each animal shelter shall be
40 in compliance at all times with section one hundred nine of this chapter
41 and title four of article twenty-one of the public health law.

42 10. At a minimum, each animal shelter shall treat all animals in its
43 custody or possession for hookworms and roundworms prior to release
44 and/or placement in foster care.

45 11. When a physical or behavioral abnormality is identified at the
46 time of intake or at any time during any animal's shelter stay, staff
47 members shall follow written medical protocols required by section four
48 hundred twenty-three of this article, to determine if and when any
49 animal in its custody or possession needs to be examined by a duly
50 licensed veterinarian. If the animal is in foster care, the foster care
51 provider shall follow written medical protocols to determine whether the
52 animal needs to be examined by a duly licensed veterinarian.

53 12. Any animal in the custody or possession of any animal shelter for
54 more than thirty days shall be examined and weighed at least monthly by
55 a trained staff member. Animals in foster care shall be examined and
56 weighed at least once every six months by a trained staff member.

1 13. Any apparently healthy animal remaining within the custody or
2 possession of any animal shelter shall be examined by a duly licensed
3 veterinarian at least every six months, or more frequently if problems
4 are identified.

5 14. Each animal shelter shall provide regular grooming to prevent
6 discomfort or injury to each animal in its custody or possession.
7 Matted, soiled, or otherwise unkempt animals shall be provided with
8 timely grooming to alleviate discomfort and prevent injury within
9 forty-eight hours of intake or identification of condition. Severe
10 matting that prevents normal movement, an animal's ability to eat,
11 drink, urinate, or defecate, or that compromises tissue health shall be
12 treated as a medical emergency requiring immediate care.

13 15. (a) No animal shelter shall release any dog or cat for adoption to
14 any person unless the dog or cat has been spayed or neutered, in accord-
15 ance with section three hundred seventy-seven-a of this chapter.

16 (b) Prior to performing spay/neuter surgery at any animal shelter:

17 (i) All animals in such shelter's custody or possession shall receive
18 an examination by a duly licensed veterinarian within twenty-four hours
19 of surgery and anesthesia. Such examination may be performed under
20 sedation or anesthesia if, due to the animal's behavior, an examination
21 is not possible while awake.

22 (ii) Balanced anesthetic protocols that include sedation, the
23 provision of pre- and post-operative analgesia, stress reduction, muscle
24 relaxation and controlled, reversible loss of consciousness shall be
25 utilized for all animals.

26 (iii) While surgery is being performed, the operating area shall be
27 dedicated to surgery and contain the necessary equipment for anesthesia
28 and patient monitoring.

29 (iv) Aseptic surgical technique shall be required, and separate ster-
30 ile instruments shall be used for each patient. All instruments and
31 equipment shall be maintained in proper working condition.

32 (v) A permanent tattoo shall be placed on the ventral abdomen of shel-
33 ter-owned cats and dogs at the time of spay or neuter.

34 (vi) Each animal shelter shall provide adoptive owners instructions in
35 both written and verbal forms for ten-day post-operative care of recent-
36 ly spayed or neutered animals.

37 (c) Written protocols required by section four hundred twenty-three of
38 this chapter, shall be followed to handle related post-operative emer-
39 gencies.

40 § 430. Behavior. 1. Each animal shelter shall take measures, by way of
41 written questionnaire, personal interview or other means deemed neces-
42 sary by the commissioner, to collect a behavioral history for each
43 animal in its custody or possession at the time of intake.

44 2. Routine care and handling of any animal in the custody or
45 possession of each animal shelter, including the timing of feeding and
46 sanitation procedures shall be performed on a regular daily schedule.

47 3. At least twenty minutes of positive social interactions, in addi-
48 tion to time spent providing feeding, cleaning, basic husbandry or care
49 with people shall be provided by each animal shelter on a daily basis
50 for any animal in such shelter's custody or possession except those so
51 poorly socialized to humans that such contact would be unpleasant,
52 stressful or pose a safety risk to other animals or humans. Daily hand-
53 ling and positive exposure to people and other animals shall be provided
54 for any dog or cat less than four months of age, while taking appropri-
55 ate precautions to limit infectious disease. Positive social inter-
56 actions shall include but not be limited to petting an animal, walking,

1 reward based training or interactive play with toys. Time spent provid-
2 ing basic husbandry and animal care shall not be used to offset the
3 social interaction time requirements of this subdivision.

4 4. Each animal shelter shall provide each animal in its custody or
5 possession opportunity for exercise and exploration in the following
6 manner:

7 (a) all cats housed in a cage, kennel, or room that provides less than
8 eighteen square feet of floor space per cat for fourteen days or longer
9 shall be permitted at least fifteen minutes per day at least five days
10 per week outside of their primary enclosure to exercise and explore;

11 (b) all dogs residing in the shelter for fourteen days or longer shall
12 be permitted time outside of their primary enclosure to exercise and
13 explore for at least twenty minutes per day five days per week; or

14 (c) in the event such activities are not possible due to any animal's
15 health, behavior, order of the commissioner or legal restriction, the
16 condition and reason shall be documented in such animal's medical
17 record.

18 5. Each animal shelter shall implement additional measures for enrich-
19 ment and stress reduction for any animal in its custody or possession
20 showing persistent hiding, hostile interactions with other animals,
21 reduced activity, depression or social withdrawal, barrier frustration
22 or aggression, self-injurious behavior, repetitive non goal-oriented
23 movement, or stereotypic behaviors. Such measures shall be documented in
24 such animal's medical record created pursuant to section four hundred
25 twenty-three of this article.

26 6. Use of aversive methods in animal training or behavioral modifica-
27 tion is prohibited except in reward-based method situations, where
28 skilled application of the least aversive method that is expected to
29 succeed may be appropriate.

30 7. Animal shelters may perform a systematic behavioral evaluation on
31 animals prior to rehoming or other placement. In the event such evalu-
32 ations are performed, the following requirements shall apply:

33 (a) staff performing such evaluations shall receive, in advance,
34 adequate training in the performance and interpretation of the behav-
35 ioral evaluation or evaluations; and

36 (b) documentation of the results of every behavior evaluation
37 performed shall be added to the animal's record created pursuant to
38 section four hundred twenty-three of this article.

39 8. Each licensed animal shelter shall fully disclose all available
40 information regarding the behavior of any animal in its custody or
41 possession prior to such animal's transfer to an individual or another
42 organization as authorized pursuant to section three hundred seventy-
43 four of this chapter. Such information shall include, but not be limited
44 to prior history, observed behaviors in the shelter, and the results of
45 any systematic behavioral evaluations performed.

46 9. Any animal in the custody or possession of a licensed animal shel-
47 ter that is observed to be experiencing mental suffering or behavioral
48 deterioration shall be assessed and appropriately treated.

49 § 431. Transportation. 1. Vehicle requirements. (a) Vehicles and oper-
50 ators employed by or otherwise serving as an agent of any animal shelter
51 to transport animals shall adhere to all applicable federal, state, and
52 local laws.

53 (b) Any animal transported by an animal shelter or its agent shall not
54 be placed unconfined or tethered in the back of an open pick-up or
55 flatbed truck.

1 (c) Any animal shelter or its agent transporting any animal shall
2 safely and securely confine such animal in an enclosure such as a crate,
3 carrier, or cage within the vehicle. Foster care providers serving as
4 an agent of any animal shelter for purposes of this section may be
5 authorized to provide secure alternatives to enclosures for transport of
6 large dogs.

7 (d) Any transport vehicle transporting dogs or cats for any animal
8 shelter shall have adequate space, comfortable environmental conditions,
9 and good air quality. The animal compartment of the transport vehicle
10 shall provide fresh air, free of vehicle exhaust fumes.

11 (e) Each transport vehicle, including cargo spaces, shall be heated
12 and cooled as necessary to provide for normal thermoregulation of the
13 animals being transported.

14 (f) Each transport vehicle shall have a thermometer placed in the
15 animal compartment. The ambient temperature in the cargo space shall be
16 maintained between sixty and eighty-five degrees fahrenheit, unless the
17 health of the animal necessitates an ambient temperature that exceeds or
18 is less than such parameters. The operator of such vehicle shall monitor
19 cargo area temperatures at least every four hours to ensure such temper-
20 atures are maintained.

21 2. General responsibilities of animal shelters of origin prior to
22 transport. (a) It is the responsibility of the animal shelter of origin
23 to reasonably ensure that its destination animal shelters have the abil-
24 ity to meet the requirements of subdivision four of this section prior
25 to transporting any animal. A written contract or memorandum of under-
26 standing between the animal shelter of origin, any intermediate animal
27 shelter, the destination animal shelter and any transporting agent not
28 directly employed by such shelters, shall be executed for each animal
29 transfer of one or more animals. Such document shall include the respon-
30 sibilities of each party and shall be revised or updated as necessary to
31 ensure that information is current.

32 (b) A contact person shall be designated for each animal shelter and
33 any intermediate transfer points.

34 (c) Each transporting organization identified in any agreement estab-
35 lished pursuant to subparagraph (i) of paragraph (d) of this subdivision
36 shall adhere to all public health laws and local laws for source
37 location, intermediate transfer points, and final destination.

38 (d) (i) For dogs or cats imported into the state, the animal shelter
39 of origin shall ensure that each dog or cat to be transported aged three
40 months of age or older has been vaccinated against rabies not more than
41 twelve months prior to the date of transport when using a one-year
42 vaccine, or not more than thirty-six months prior to the date of trans-
43 port when using a three-year vaccine, as evidenced by a valid certif-
44 icate of immunization signed by a duly licensed veterinarian. Such
45 vaccine shall be approved by the United States department of agricul-
46 ture. The immunization requirement shall not apply if a veterinarian
47 certifies in writing that because of old age or other reason, the life
48 of the dog would be endangered by the administration of the rabies
49 vaccine.

50 (ii) At a minimum, the animal shelter of origin shall administer the
51 following core vaccinations to each dog or cat to be transported that is
52 four weeks of age or older:

53 (1) For dogs, a modified live product for Distemper virus, Adenovirus,
54 and Parvovirus as well as an intranasal or oral avirulent culture Borde-
55 tella bronchiseptica vaccination prior to departing from the animal
56 shelter of origin.

1 (2) For cats, a modified live product for Feline Viral Rhinotracheitis,
2 Feline Calici Virus, and Feline Panleukopenia.

3 (iii) The animal shelter of origin shall treat each animal for inter-
4 nal and external parasites as appropriate for the age, species, and
5 medical condition.

6 (iv) (1) The animal shelter of origin shall examine each dog and cat
7 for medical or behavioral concerns at most twenty-four hours prior to
8 initiation of transport. All medical and behavioral observations shall
9 be recorded and communicated to any intermediate animal shelter, the
10 destination animal shelter and any transporting agent not directly
11 employed by such shelters.

12 (2) A health record shall accompany each animal to be transported.

13 (3) A health certificate is required for each animal to be transported
14 into the state in accordance with part sixty-five of the commissioner's
15 rules and regulations. Such certificate shall accompany each animal
16 during transport and be completed and signed by a duly licensed veteri-
17 narian.

18 (v) Each animal shall be individually identified with a collar, tag,
19 tattoo, microchip or combination of such identifiers. All animals shall
20 have, at a minimum, one form of visual identification.

21 3. General responsibilities during transport. (a) Each animal trans-
22 ported shall be provided with absorbent bedding.

23 (b) No animal shall be sedated or tranquilized unless recommended by a
24 duly licensed veterinarian and veterinary guidance is provided for such
25 animal's care during transport.

26 (c) The maximum transport time to an intermediate animal shelter or a
27 destination animal shelter for dogs and cats shall include not more than
28 fourteen hours confined to the transport vehicle, including load time.
29 Transports exceeding fourteen hours must include an overnight stop at an
30 intermediary location, where the dogs and cats being transported shall
31 be allowed the opportunity to exercise and eliminate outside of the
32 transport vehicle.

33 (d) The transporting animal shelter or its agent shall observe each
34 animal being transported as often as circumstances allow, but not less
35 than once every four hours. During such observations, animals should be
36 watered and fed consistent with paragraphs (g) and (h) of this subdivi-
37 sion, and the transport area cleaned as appropriate.

38 (e) Each dog shall be provided with the opportunity to exercise and
39 eliminate at least once every twelve hours while confined to the trans-
40 port vehicle, including load time. Each dog being transported that is
41 less than twelve weeks of age shall be removed from their enclosure and
42 allowed to exercise and eliminate at least every two hours.

43 (f) No dog or cat shall be left unattended in any transport vehicle
44 for more than one hour, regardless of whether heating, ventilation and
45 air conditioning (HVAC) is provided in such vehicle.

46 (g) The transporting animal shelter or its agent shall provide each
47 animal being transported with wholesome and palatable food except when
48 there are instructions from a duly licensed veterinarian to withhold
49 food for medical reasons. Such food shall be free from contamination, of
50 nutritional value sufficient to maintain each animal in good health and
51 be provided at least every twelve hours for adult animals; at least
52 every eight hours for animals less than six months of age; and at least
53 every six hours for animals less than four months of age.

54 (h) If water cannot be provided at all times, the transporting animal
55 shelter or its agent shall provide clean, fresh water to each animal
56 being transported at least every four hours during observation stops

1 required pursuant to paragraph (b) of subdivision four of this section.
2 Such water shall be supplied in a sanitary manner sufficient for its
3 needs, except where there are instructions from a duly licensed veteri-
4 narian to withhold water for medical reasons.

5 (i) Animal enclosure requirements. (i) Animal enclosures in transport
6 vehicles shall be suitable to allow the animal to stand, sit erect, turn
7 around while standing, and to lie in a natural position. If more than
8 one animal occupies any enclosure during transport, such enclosure shall
9 provide adequate space for each to lie down comfortably at the same time
10 without lying on top of each other.

11 (ii) Unfamiliar animals shall not be contained together in the same
12 enclosure.

13 (iii) Crates, carriers or cages shall not be stacked in the transport
14 vehicle in a manner that increases animal stress or discomfort, compro-
15 mises ventilation, allows waste material to pass between cages, inter-
16 feres with care and observation, or hinders emergency removal.

17 (iv) All animal enclosures and compartments shall be free of sharp
18 edges or other hazardous materials.

19 (v) The floor of any enclosure shall prevent injury, discomfort, and
20 leakage of fluids into other enclosures.

21 (vi) The animal shelter or its agent shall ensure that each animal
22 transported is safely and securely confined within each enclosure as
23 prescribed by this section and that enclosure doors are secured to
24 prevent accidental opening.

25 (vii) The animal shelter or its agent shall secure each primary enclo-
26 sure to prevent movement within the transport vehicle.

27 (viii) Each dog or cat less than eight weeks of age shall be trans-
