

STATE OF NEW YORK

9298

IN SENATE

May 13, 2022

Introduced by Sen. PARKER -- (at request of the NYC Office of the Mayor)
-- read twice and ordered printed, and when printed to be committed to
the Committee on Cities 1

AN ACT to amend the New York city charter, the education law, the general municipal law, the labor law, the public authorities law, the New York city health and hospitals corporation act, and the New York city public works investment act, in relation to employment opportunities for economically disadvantaged candidates and economically disadvantaged region candidates and apprenticeship utilization on public transactions; and providing for the repeal of such provisions upon the expiration thereof

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. Legislative findings. The legislature finds that both with-
2 in the city of New York and across the United States, over the past
3 several decades, income inequality has expanded and that poverty is
4 frequently concentrated in economically disadvantaged regions. The
5 legislature also finds that economic disparities across individuals and
6 across communities have further expanded due to the economic and health
7 effects of the virus known as COVID-19. The purpose of this legislation
8 is to remediate these economic disparities by authorizing the city of
9 New York, the city school district of the city of New York, the New York
10 city school construction authority, the New York city health and hospi-
11 tals corporation, the New York city industrial development agency, and
12 other city-affiliated not-for-profit corporations to use the economic
13 power of their transactions to implement programs by administrative rule
14 requiring contractors and subcontractors benefitting from such trans-
15 actions to make best efforts to employ qualified economically disadvan-
16 taged candidates and qualified candidates in such economically disadvan-
17 taged regions.

18 § 2. The New York city charter is amended by adding a new chapter 78
19 to read as follows:

40 each twelve-month period thereafter, the director shall publish a report

7 compiling this report, the director shall, to the extent he or she deems
8 feasible, use data sources established or maintained by the city for
9 other programs or operations in order to minimize administrative burdens
10 on contractors and subcontractors, provided that where the director
11 determines that such data sources cannot be used to complete such
12 report, the director may adopt rules requiring contractors and subcontractors
13 to provide such additional data necessary to complete this
14 report, and to certify the accuracy of such additional information.
15 Nothing in this subdivision shall be interpreted to authorize the director
16 to promulgate rules requiring labor organizations to provide information

41 eliminate obstacles to meeting such employment goals;

42 (E) to monitor and to document the contractor's or subcontractor's
43 efforts to meet the employment goals;

44 (F) to contact the office of community hiring and workforce development
45 at routine intervals, or as otherwise required by rule, to inform
46 the director of the contractor's or subcontractor's efforts to meet the
47 employment goals; and

54 contractor's or subcontractor's existing employees; or

55 (C) to extend an offer of employment to an individual whose labor

(xiii) a quantitative factor to be used in the evaluation of bids, proposals or other offers for the purposes of awarding of contracts based on a bidder, proposer or other offerer's capacity to meet or exceed goals established pursuant to subparagraph (xii) of this paragraph, provided that, when incorporating such a qualitative factor into the award process for a contract, the chancellor, superintendent, or school, as applicable, shall consider the potential impact of such a quantitative factor on businesses certified as minority or women-owned business enterprises pursuant to article fifteen-A of the executive law or section thirteen hundred four of the New York city charter, not-for-profit corporations, and small businesses, as such term is defined in section thirty-four hundred one of such charter.

For purposes of this section, a process for competitive requests for proposals shall mean a method of soliciting proposals and awarding a contract on the basis of a formal evaluation of the characteristics, such as quality, cost, delivery schedule, the capacity to meet or exceed the goals set forth in subdivision fifteen-a of section seventeen hundred twenty-eight of this title and financing of such proposals against stated selection criteria. Public notice of the requests for proposals shall be given in the same manner as provided in subdivision three of this section and shall include the selection criteria. In the event the authority makes a material change in the selection criteria from those previously stated in the notice, it will inform all proposers of such change and permit proposers to modify their proposals.

When the authority includes in the selection criteria for a request for proposals a quantitative factor based on a proposer's capacity to meet or exceed the goals set forth in subdivision fifteen-a of section seventeen hundred twenty-eight of this title, the authority shall consider the potential impact of such a quantitative factor on businesses certified as minority or women-owned business enterprises pursuant to article fifteen-a of the executive law, section thirteen hundred four of the New York city charter, or section seventeen hundred forty-three of this title, not-for-profit corporations, and small businesses, as such term is defined in section thirty-four hundred one of the New York city charter.
