compliance with fire protection and life safety systems as defined by the fire code of New York state, or any more restrictive local provisions relating to fire services, fire protection or life safety systems. Such program shall include the following requirements:

- (i) no later than forty-five days after submission of a building permit application with a certification as provided for herein to the municipal building department such application shall be deemed approved unless denied;
- 9 (ii) in the event of a denial of a building permit application with a
 10 certification the building department shall set forth the reasons for
 11 such denial and shall cite the applicable provisions of the law or regu12 lation upon which such denial is predicated; and
- (iii) a random audit of applications for a building permit to ensure compliance. Provided, however, a city, town, or village establishing a program pursuant to this section shall be prohibited from reducing or eliminating the position of any employee involved with the building permit application process during the effectiveness of this section.

 Any program established by a city, town or village pursuant to this paragraph shall be referred to as a "self-certification program".
- (b) The wrongful or negligent certification by a licensed professional pursuant to this section may constitute professional misconduct, and referral can be made to the state education department office of professions upon a finding of wrongdoing or negligence by the licensed professional by the building department with jurisdiction over the project.
- 26 § 2. This act shall take effect immediately and shall expire and be 27 deemed repealed October 1, 2025.
