FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would expand the definition of a member who participated in World Trade Center rescue, recovery or cleanup operations to include those who worked at the Verrazano Bridge Toll Facility.

Insofar as this bill affects the New York State and Local Employees' Retirement System (NYSLERS) and the New York State and Local Police and Fire Retirement System (NYSLPFRS), if this bill is enacted during the 2023 legislative session, it would reclassify certain current and future retirement benefits. The cost of the revised benefit will depend upon the applicant's age, service, salary, plan, and benefit type otherwise payable.

Benefit prior to enactment:	None	Ordinary Disability	In Performance of Duty Disability	Service
Cost for WTC benefit:	10 times salary	5.5 times salary	3 times salary	2 times salary

This bill would also lead to more deaths being classified as "accidental". For each death classified as accidental due to this bill, the cost would depend on the age, service, salary, plan, and status at time of death. It is estimated that the cost for each NYSLERS member affected would average approximately 4.5 times final average salary. The estimated cost for each NYSLPFRS member would average approximately 13 times final average salary.

NYSLERS Costs: Pursuant to Section 25 of the Retirement and Social Security Law, these costs would be borne entirely by the State of New York and would require an itemized appropriation sufficient to pay the cost of the provision.

NYSLPFRS Costs: These costs would be shared by the State of New York and the participating employers in the NYSLPFRS.

The exact number of current members as well as future members who could be affected by this legislation cannot be readily determined.
