48 section 13 of chapter 683 of the laws of 2003, as amended, when upon
49 such date the provisions of section two of this act shall take effect.

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

SUMMARY OF BILL: This proposed legislation would amend Sections 603
and 604-g of the Retirement and Social Security Law (RSSL) to permit
Tier 4 and Tier 6 members in the New York City Employees' Retirement
System (NYCERS) and the New York City Board of Education Retirement
System (BERS) Automotive 25-Year/Age 50 Plans (Auto 25-Year Plan) with

30 or more years of service to receive a service retirement benefit calculated under their respective basic plans, if greater.

Effective Date: Upon enactment.

IMPACT ON BENEFITS: Currently, Auto 25-Year Plan members who retire with 30 or more years of service receive a service retirement benefit that is equal to 60% of Final Average Salary (FAS).

Under the proposed legislation, the service retirement benefit for Auto 25-Year Plan members with 30 or more years of service would be calculated as the greater of the above, and:

* For Tier 4 members, 60% of FAS plus 1.5% of FAS for each year of service beyond 30 years.

* For Tier 6 members, 55% of FAS plus 2% of FAS for each year of service beyond 30 years.

FINANCIAL IMPACT - PRESENT VALUES: Based on the census data and the actuarial assumptions and methods described herein, the enactment of this proposed legislation would result in an increase in the present value of future employer contributions of approximately \$26.4 million for NYCERS and approximately \$0.1 million for BERS, for a total increase of approximately \$26.5 million.

Under the Entry Age Normal cost method used to determine the employer contributions to NYCERS and BERS, there would be an increase in the Unfunded Accrued Liability (UAL) of approximately \$16.7 million and an increase in the present value of future employer Normal Cost of approximately \$9.8 million.

FINANCIAL IMPACT - ANNUAL EMPLOYER CONTRIBUTIONS: The enactment of this proposed legislation would result in an initial increase in annual employer contributions of approximately \$2,855,000 for NYCERS and approximately \$9,000 for BERS which is the result of an increase in the Normal Cost in addition to the UAL payment.

The initial increase in employer contributions is estimated to be \$2,372,000 for New York City and \$492,000 for the non-New York City obligors.

New UAL attributable to benefit changes are generally amortized over the remaining working lifetime of those impacted by the benefit changes. The remaining working lifetime for this group is approximately 14 years for NYCERS and 11 years for BERS and the increase in UAL was therefore amortized over a 14-year period (13 payments under the One-Year Lag Methodology) for NYCERS and over an 11-year period (10 payments) for BERS using level dollar payments.

CENSUS DATA: The estimates presented herein are based on the census data used in the June 30, 2022 actuarial valuation of NYCERS and BERS to determine the Preliminary Fiscal Year 2024 employer contributions.

The table below contains a summary of the census data for active Auto 25-Year Plan members in NYCERS and BERS as of June 30, 2022.

System	Active Count	Average Age	Average Service	Average Salary
NYCERS	1,718	45.7	9.6	\$116,700
BERS	25	51.8	8.0	\$98,800

ACTUARIAL ASSUMPTIONS AND METHODS: The estimates presented herein have been calculated based on the actuarial assumptions and methods used for the Preliminary Fiscal Year 2024 employer contributions of NYCERS and BERS.

For the purposes of this Fiscal Note, it is assumed that the changes would be reflected for the first time in the June 30, 2022 actuarial valuations of NYCERS and BERS used to determine employer contributions for Fiscal Year 2024.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the realization of the actuarial assumptions used, demographics of the impacted population and other factors such as investment, contribution, and other risks. If actual experience deviates from actuarial assumptions, the actual costs could differ from those presented herein.

Costs are also dependent on the actuarial methods used, and therefore different actuarial methods could produce different results. Quantifying these risks is beyond the scope of this Fiscal Note.

Not measured in this Fiscal Note are the following:

- * The initial additional administrative costs to implement the proposed legislation.

STATEMENT OF ACTUARIAL OPINION: I, Marek Tyszkiewicz, am the Chief Actuary for, and independent of, the New York City Retirement Systems and Pension Funds. I am an Associate of the Society of Actuaries and a Member of the American Academy of Actuaries. I am a member of NYCERS but do not believe it impairs my objectivity and I meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein. To the best of my knowledge, the results contained herein have been prepared in accordance with generally accepted actuarial principles and procedures and with the Actuarial Standards of Practice issued by the Actuarial Standards Board.

FISCAL NOTE IDENTIFICATION: This Fiscal Note 2023-53 dated May 19, 2023 was prepared by the Chief Actuary for the New York City Employees' Retirement System and the Board of Education Retirement System of the City of New York. This estimate is intended for use only during the 2023 Legislative Session.
