46 using basic or advanced cardiac life support techniques.

47 2. Nurse anesthesia must be provided in collaboration with a collab-

49 with a written practice agreement and written practice protocols as set
50 forth in subdivision four of this section or pursuant to collaborative
51 relationships as set forth in subdivision five of this section, whichev-
52 er is applicable.

53 3. Prescriptions for drugs, devices, and anesthetic agents, anesthesia
54 related agents, and analgesics may be issued by a certified registered
55 nurse anesthetist during the peri-anesthetic, peri-obstetric, or peri-
56 operative period, in accordance with the written practice agreement and

1 written practice protocols described in subdivision four of this section
2 if applicable. The certified registered nurse anesthetist shall obtain
3 a certificate from the department upon successfully completing a program
4 including an appropriate pharmacology component, or its equivalent, as
5 established by the commissioner's regulations, prior to prescribing
6 under this subdivision. The license issued under this article shall

10 4. A certified registered nurse anesthetist licensed under this arti-
11 cle and practicing for thirty-six hundred hours or less shall do so in
12 accordance with a written practice agreement and written practice proto-
13 cols agreed upon by a collaborating physician, who shall be reasonably
14 available for consultation as needed.

15 (a) The written practice agreement shall include explicit provisions
16 for the resolution of any disagreement between the collaborating physi-
17 cian and the certified registered nurse anesthetist regarding a matter

19 practice of both. To the extent the practice agreement does not so
20 provide, then the collaborating physician's treatment shall prevail.

22 by the collaborating physician in a timely fashion but in no event less
23 often than every three months. The names of the certified registered
24 nurse anesthetist and the collaborating physician shall be available in
25 the practice setting of the certified registered nurse anesthetist.

26 (c) The practice protocol shall reflect current accepted medical and
27 nursing practice. The commissioner shall make regulations establishing

47 anesthetist shall complete and maintain a form, created by the depart-
48 ment, to which the certified registered nurse anesthetist shall attest,
49 that describes such collaborative relationships. Such form shall also
50 reflect the certified registered nurse anesthetist's acknowledgement
51 that if reasonable efforts to resolve any dispute that may arise with
52 the collaborating physician or, in the case of a collaboration with a
53 hospital, with a collaborating physician having privileges at such
54 hospital, about a patient's care are not successful, the recommendation
55 of the physician shall prevail. Such form shall be updated as needed and
56 may be subject to review by the department. The certified registered

1 nurse anesthetist shall maintain documentation that supports such colla-
2 borative relationships.

3 6. Nothing in this section shall be deemed to limit or diminish the
4 practice of the profession of nursing as a registered professional nurse
5 under article one hundred thirty-nine of this title or any other law,
6 rule, regulation or certification, nor to deny any registered profes-
7 sional nurse the right to do any act or engage in any practice author-
