(a) "Three-dimensional printer" means:

(i) any machine capable of rendering a three-dimensional object from a digital design file using additive manufacturing; or

(ii) any machine capable of making three-dimensional modifications to an object from a digital design file using subtractive manufacturing.

(b) "Blocking technology" means hardware, software, firmware, or other integrated technological measures capable of ensuring a three-dimensional printer will not proceed to print any print job unless the underlying three-dimensional printing file has been evaluated by a firearms blueprint detection algorithm and determined not to be a printing file that would produce a firearm or illegal firearm parts.

(c) "Firearms blueprint detection algorithm" means a software service that evaluates three-dimensional printing files, whether in the form of stereolithography (STL) files or other computer aided design files or geometric code, to determine if they can be used to program a three-dimensional printer to produce a firearm or illegal firearm parts, and flag any such files to prevent their use to manufacture said firearm or illegal firearm parts.

(d) "Illegal firearm parts" means an unfinished frame or receiver, a major component of a firearm, or any part designed and intended for use in converting a semi-automatic weapon into a machine gun, including, but not limited to, a pistol converter.

(e) All other terms shall have the same meaning given to such terms in section 265.00 of the penal law.

2. There is hereby created within the division, no later than ninety days of the effective date of this section, a "firearm prevention working group". Such working group shall be comprised of experts in additive manufacturing technology, artificial intelligence and digital security, firearms regulation, public safety, consumer product safety, and any other relevant disciplines determined by the division to be necessary to perform the functions prescribed herein.

3. (a) The working group, in consultation with the division, the department of state, and the state university of New York shall submit a report to the governor, the temporary president of the senate, the minority leader of the senate, the speaker of the assembly, and the minority leader of the assembly no later than one year after it convenes outlining its findings on the technological feasibility of blocking technology in three-dimensional printers.

(b) In the report submitted under paragraph (a) of this subdivision, the working group shall identify available types of blocking technology, and include minimum performance standards that include, but are not limited to, implementation of blocking technology on three-dimensional printers, implementation of firearms blueprint detection algorithms, necessary safeguards to reduce the risk of circumvention of blocking technology, alignment with existing state and federal law, recommendations to prevent infringement on trademark and intellectual property rights, and any other recommendations for regulations or guidelines.

§ 2. The executive law is amended by adding a new section 837-bb to read as follows:

§ 837-bb. Three-dimensional printed firearm library. 1. The division shall be authorized to create and maintain a library of firearms blue-

In furtherance of this authorization, the division may designate another government agency or an academic or research institution in this state to assist with the creation and maintenance of the file library. The library shall be made available to three-dimensional printer manufacturers, vendors with demonstrated expertise in software development, or experts in computational design or public safety, for the development or improvement of blocking technology and firearm blueprint detection algorithms. The division shall establish safeguards to prevent unauthorized access to and misuse of the library and shall prohibit all persons who are granted access to the library from misusing, selling, disseminating, or otherwise publishing its contents.

§ 3. This act shall take effect immediately.

§ 2. Severability. PART AA

Section 1. The executive law is amended by adding a new section 214-j to read as follows:

§ 214-j. Critical incident policy. 1. As used in this section, the following terms shall have the following meanings:

(a) "Critical incident" shall mean the following actions when performed by a member or experienced by a member in the course of official duties: (i) an action that directly causes serious physical injury or death to another person or member; (ii) a discharge of a firearm by a member directed at another person; (iii) a traffic accident or incident involving a division vehicle, aircraft, or vessel that results in serious physical injury or death; or (iv) any other incident deemed appropriate by the superintendent or their designee.

(b) "Serious physical injury" shall mean an injury that, based on the facts and circumstances reasonably known at the time of the incident, appears to involve a substantial risk of death or an obvious and severe impairment of a major bodily function, such that a reasonable person would conclude the injury is life-threatening or significantly life-altering, without regard to later medical findings, prognosis, or outcome. The determination of a "serious physical injury" shall be made by the superintendent or their designee based on the observable conditions and available information at the time the supervisor arrives at the scene of the critical incident, and shall not be affected by subsequent medical evaluation or recovery. "Serious physical injury" shall include, but not be limited to, suspected spinal cord injury or paralysis, severe penetrating head injury, massive blood loss, or loss of limb.

(c) "Directly involved" shall mean any member who was physically present within the immediate proximity of a critical incident at the time it occurred and whose direct exposure to the incident placed the member within the immediate zone of operational engagement, regardless of whether the member discharged a weapon or otherwise used force.

(d) "Primary member" means any directly involved member who justifiably used deadly physical force during the critical incident, or whose actions during the critical incident appear to be the most immediate and substantial cause of death or serious physical injury to a person.

2. The superintendent shall develop, maintain, and disseminate to all members of the division of state police a critical incident paid leave

policy that provides for paid critical incident leave in accordance with this section.

3. Such critical incident paid leave policy shall guarantee: (a) paid critical incident leave of at least twenty calendar days for any primary member whose official actions were the direct and proximate cause of the death of another person; (b) paid critical incident leave of at least ten calendar days for any other member directly involved in the critical incident; and (c) paid critical incident leave under such other circumstances the superintendent or their designee determines appropriate. Such leave shall constitute a separate category of leave and shall not count against vacation, sick, or personal leave accruals. Such leave, where appropriate, shall be designated as family and medical leave act and/or count against a member's workers compensation leave entitlement.

4. Critical incident paid leave shall begin as soon as possible after the critical incident, provided that initial supervisory inquiries of the involved members shall occur before leave commences. Critical incident leave may only be delayed to ensure minimum necessary staffing levels or protect community safety. Delays shall only be as long as necessary to address such concerns. Upon agreement of the member and the superintendent or their designee, the member shall be allowed to return to duty prior to the completion of the period of critical incident leave.

5. In any case where critical incident paid leave has been made to a member, and it is thereafter determined that a critical incident did not occur or that the member's actions that resulted in the serious physical injury or death of another person were not justified, the superintendent or their designee may order the deduction of equivalent vacation or personal leave days and/or the withholding of future paid leave to such member, provided that the amount of days deducted and/or withheld shall not be more than the critical incident paid leave days that were originally provided.

6. The superintendent shall be prohibited from taking any punitive administrative action against any member granted critical incident leave under this section solely on the basis of the provision of such leave unless the leave was provided, at least in part, based upon the member's fraud, deceit, or misrepresentation.

7. The superintendent is authorized to promulgate rules and regulations to implement, administer, and enforce the provisions of this section.

§ 2. This act shall take effect on the one hundred twentieth day after it shall have become a law. Effective immediately, the addition, amendment and/or repeal of any rule or regulation necessary for the implementation of this act on its effective date are authorized to be made and completed on or before such effective date.
