FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would modify the in-service death benefit for retirement eligible members of the New York State and Local Employees' Retirement System (NYSLERS) who are employed as state-paid judges or justices of the Unified Court System. The in-service death benefit will be the value of the pension reserve as if the member had retired on their date of death.

We estimate that the state of New York's annual contributions will increase \$310,000 beginning FYE 2027. Annual costs will vary but are expected to average 0.1% of salary.

In addition, there will be an immediate past service cost of \$4.17 million borne by the state of New York as a one-time payment. This cost assumes that payment will be made on March 1, 2027. If the state of New York elects to amortize this cost over 10 years, the cost for each year will be \$532,000.

These estimated costs are based on 1,261 affected members employed by the state of New York, with annual salary of approximately \$260 million as of March 31, 2025.
