The entire increase in employer contributions will be allocated to New York City.

PRESENT VALUE OF BENEFITS: The Present Value of Benefits is the discounted expected value of benefits paid to current members if all assumptions are met, including future service accrual and pay increases. Future new hires are not included in this present value.

- Number Count:	13,432
- Average Age:	43.4
- Average Service:	11.8
- Average Salary:	120,400

IMPACT ON MEMBER BENEFITS: Currently, NYCERS Correction and Sanitation members are generally entitled to a lump sum ordinary death benefit equal to three times their final year's salary plus the return of member accumulated contributions, if any, and may be subject to salary caps and other reductions.

Under the proposed legislation, the ordinary death benefit for members who are eligible to receive a service retirement benefit would be the greater of their current death benefit or the value of the pension reserve that would have been established had they retired on the date of their death.

The pension reserve is the actuarial present value of all pension payments expected to be made had the member retired for service. This type of lump sum pension reserve death benefit is sometimes referred to as a Death Gamble, and is afforded, in a similar form, to Tier 1 NYCERS members.

ASSUMPTIONS AND METHODS: The estimates presented herein have been calculated based on the Revised 2021 Actuarial Assumptions and Methods of the impacted retirement systems. In addition:

* New entrants were assumed to replace exiting members so that total payroll increases by 3% each year for impacted groups. New entrant demographics were developed based on data for recent new hires and actuarial judgement.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the actuarial assumptions, methods, and models used, demographics of the impacted population, and other factors such as investment, contribution, and other risks. If actual experience deviates from actuarial assumptions, the actual costs could differ from those presented herein. Quantifying these risks is beyond the scope of this Fiscal Note.

This Fiscal Note is intended to measure pension-related impacts and does not include other potential costs (e.g., administrative and Other Postemployment Benefits). This Fiscal Note does not reflect any chapter laws that may have been enacted during the current legislative session.

STATEMENT OF ACTUARIAL OPINION: Marek Tyszkiewicz and Gregory Zelikovsky are members of the Society of Actuaries and the American Academy of Actuaries. We are members of NYCERS, but do not believe it impairs our objectivity, and we meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein. To the best of our knowledge, the results contained herein have been prepared in accordance with generally accepted actuarial principles and procedures and with the Actuarial Standards of Practice issued by the Actuarial Standards Board.

FISCAL NOTE IDENTIFICATION: This Fiscal Note 2026-26 dated March 4, 2026 was prepared by the Chief Actuary for the New York City Retirement Systems and Pension Funds and is intended for use only during the 2026 Legislative Session.
