3. The rights and responsibilities of residential customers participating in green jobs-green New York on-bill recovery pursuant to section sixty-six-m of this chapter shall be substantially comparable to those of electric and gas customers not participating in on-bill recovery, and charges for on-bill recovery shall be treated as charges for utility service for the purpose of this article, provided that:

(a) all determinations and safeguards related to the termination and reconnection of service shall apply to on-bill recovery charges billed by a utility pursuant to such section;

(b) in the event that the responsibility for making utility payments has been assumed by occupants of a multiple dwelling pursuant to section thirty-three of this article or by occupants of a two-family dwelling pursuant to section thirty-four of this article, such occupants shall not be billed for any arrears of on-bill recovery charges or any prospective on-bill recovery charges, which shall remain the responsibility of the incurring customer;

(c) deferred payment agreements pursuant to section thirty-seven of this article shall be available to customers participating in on-bill recovery on the same terms as other customers, and the utility shall retain the same discretion to defer termination of service as for any other delinquent customer;

(d) where a customer has a budget billing plan or levelized payment plan pursuant to section thirty-eight of this article, the utility shall recalculate the payments under such plan to reflect the projected effects of installing energy efficiency measures as soon as practicable after receipt of information on the energy audit and qualified energy efficiency services selected;

(g) notwithstanding the provisions of section forty-three of this article, when a complaint is related solely to work performed under the green jobs-green New York program or to the appropriate amount of on-bill recovery charges, the utility shall only be required to inform the customer of the complaint handling procedures of the New York state energy research and development authority, which shall retain responsibility for handling such complaints, and such complaints shall not be deemed to be complaints about utility service in any other commission action or proceeding; and
