FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would amend the benefits of certain members of the New York State and Local Employees' Retirement System (NYSLERS) subject to the provisions of Article 14 or 15 of the Retirement and Social Security Law, who contract any form of disease or disability related to exposure to any elements in connection with the World Trade Center (WTC) rescue, recovery or cleanup operations, and who were not members of any state public retirement system at the time of participation in the WTC operations. The annual accidental disability benefit would be 75% of final average salary (FAS), less workers' compensation, regardless of plan coverage. Currently, eligible members receive the accidental disability benefit specified under their plan, which for most Article 14 and 15 members is 33.3% of FAS. This improved benefit would be payable only to current members with at least ten years of credited service. Current retirees and their beneficiaries would not be affected.

Pursuant to Section 25 of the Retirement and Social Security Law, the increased costs would be borne entirely by the State of New York and would require an itemized appropriation sufficient to pay the cost of the provision.

Insofar as this bill affects NYSLERS, the cost will depend upon the applicant's age, service, salary, plan, and any benefit type otherwise payable, but is expected to be 4 times FAS per applicant.

Approximately 60 active NYSLERS members, with a combined salary of approximately \$5.1 million as of March 31, 2024, have filed an Application for WTC Notice and been rejected on the grounds that they were not members at the time of their participation in certain WTC rescue, recovery or cleanup operations. If all these members benefit, the cost would be approximately \$20.4 million. However, the actual number of members who could be affected by this legislation cannot readily be determined.
