IN ASSEMBLY

October 17, 2025

AN ACT in relation to establishing the New York-Dominican health partnership act, creating a commission to study and develop a framework for authorizing New York state-funded health services for eligible seniors and individuals with disabilities residing part-time or full-time in the Dominican Republic, and to explore bilateral health collaboration between the state of New York and the Dominican Republic; and provides for the repeal of such provisions upon expiration thereof

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

8 in New York state.

9 2. The legislature further finds that medical services in the Domini-

11 comparable services in New York, while maintaining acceptable quality
12 standards, particularly when coordinated through accredited facilities.

13 3. It is the intent of this legislation to explore innovative ways to:

14 (a) improve health care accessibility and affordability for eligible
15 New York residents abroad;

16 (b) strengthen bilateral cooperation between the state of New York and
17 the Dominican Republic in public health, medical education, and elder
