2025-2026 Regular Sessions

IN SENATE

January 27, 2025

Introduced by Sen. STAVISKY -- read twice and ordered printed, and when printed to be committed to the Committee on Higher Education

AN ACT to amend the education law, in relation to including underrepresented ethnic groups in the admission criteria for the science and technology entry program and collegiate science and technology entry program

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. Legislative findings. Representation in the workforce is
2 critical, especially in New York's healthcare workforce. A 2017 study
3 published in the Journal of General Internal Medicine found that Black
4 and Hispanic patients were more likely to report feeling comfortable
5 discussing sensitive topics with a provider of the same race or ethnici-
6 ty. A 2019 study published in the Journal of Health Care Administration
7 found that culturally competent care was associated with improved
8 patient satisfaction, adherence to treatment, and health outcomes.
9 Further a 2020 report by the National Academies of Sciences, Engineer-
10 ing, and Medicine found that a diverse healthcare workforce can improve
11 access to care for underserved populations. These benefits are not
12 limited to healthcare. A 2017 study published in Nature and a 2019 study
13 in the Harvard Business Review found that diverse teams outperform
14 homogenous teams in terms of creativity and problem-solving. This means
15 that the health and economic future of our state is dependent on the
16 diversity of our workforce.

17 The Science and Technology Entry Program (STEP) and Collegiate Science
18 and Technology Entry Program (CSTEP) have a successful history of bring-
19 ing underrepresented students into science, technology, engineering, and
20 math (STEM), licensed professions and health professions fields. These
21 programs create academic opportunities for students who have faced
22 disadvantages and discrimination. To ensure that these programs can
23 continue to fulfill their mission of delivering opportunity and equity

1 to students, the programs' admissions criteria must be updated to be in
2 line with recent legal findings.

3 The STEP and CSTEP admissions criteria must allow for admission of any
4 student from any group underrepresented in a STEM, licensed profession
5 field or health profession field. This will require that the New York
6 State Board of Regents identify underrepresentation in eligible career
7 fields prior to the periodic release of RFPs for STEP and CSTEP. Under-
8 representation shall be determined using available workforce statistics
9 and defined in rules. This determination will provide "focused and meas-
10 urable objectives" (as required by the U.S. Supreme Court) while also
11 having a definable endpoint: the correction of underrepresentation in a
12 specific professional field reviewed on a regular basis (the contractual
13 period defined by an individual RFP).

14 Every ethnic or racial group is underrepresented in various workforce
15 fields in New York. STEP and CSTEP will help rectify that issue and
16 ultimately root out the pernicious impact of underrepresentation in
17 various professions.

18 § 2. Subdivisions 1 and 5 of section 6454 of the education law, as
19 added by chapter 31 of the laws of 1985, subparagraph 4 of paragraph a
