FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would permit the state, counties, and municipal emergency services departments that participate in the New York State and Local Employees' Retirement System to elect to provide members employed as public safety dispatchers, public safety telecommunicators, 911 operators, communications officers, police communication technicians, emergency services operators, emergency services dispatchers, or any similar title that is responsible for receiving and managing emergency calls and dispatching appropriate emergency services the option to retire upon completion of twenty-five years of creditable service with a benefit of one-half of final average salary (FAS) and for Tiers 3 through 6 an additional benefit of one-sixtieth of FAS for each year of creditable service in excess of twenty-five years, not to exceed fifteen years. Additionally, members covered under Article 14 would be permitted one year to make an irrevocable election to switch to the twenty-five-year plan benefit.

If this bill is enacted during the 2025 Legislative Session, we anticipate that there will be an increase in the annual contributions of an electing employer of approximately 6% of salary paid to eligible members for the fiscal year ending March 31, 2026. In future years this cost will vary as the billing rates and salary of the affected members change.

In addition to the annual contributions discussed above, there will be an immediate past service cost of approximately 17% of salary paid to eligible members which will be borne by the electing employer as a one-time payment.

Further, we anticipate additional administrative costs to implement the provisions of this legislation.

The exact number of current members as well as future members who could be affected by this legislation cannot be readily determined. Prior to electing to provide these benefits, an employer would be required to submit a roster of eligible members to the New York State and Local Retirement System. This roster would be used to determine an exact cost to the electing employer.
