55 mined to have matched a hot list but upon further investigation, the
56 captured plate data did not match the hot list;

1 (6) the number of instances in which captured plate data was deter-
2 mined to have matched a hot list and there was a subsequent arrest or

28 jury, department, officer, agency, regulatory body, legislative commit-
29 tee, or other authority of the state of New York, or a political subdi-
30 vision thereof, if the disclosure of that information would be in
31 violation of this section or if such captured plate data was obtained,
32 used, sold, shared, accessed, or transferred in violation of this
33 section.

34 (b) The prohibition on receiving evidence in paragraph (a) of this
35 subdivision shall not apply to captured plate data or evidence derived

5 shall not be open to the public nor be used in any court in any action
6 or proceeding pending therein unless such action or proceeding relates
7 to the imposition of or indemnification for liability pursuant to this
