2009-2010 Regular Sessions

I N A S S E M B L Y

(PREFILED)

January 7, 2009

Introduced by M. of A. COLTON, ENGLEBRIGHT, GALEF -- read once and referred to the Committee on Environmental Conservation

AN ACT to amend the environmental conservation law, in relation to electronic equipment recycling; and to amend the state finance law, in relation to establishing the electronic equipment recycling account within the environmental protection fund

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Legislative findings and intent. The legislature finds and
2 declares that electronic equipment which contains priority contaminants
3 that are a cause for concern such as cathode ray tubes, printed circuit
4 boards, batteries, lead and other components can have significant toxi-
5 cological effects on humans and the environment when improperly
6 disposed. The legislature also finds that the potential environmental
7 and public health problems associated with these kinds of electronic
8 equipment can be minimized by requiring the separation of electronic
9 equipment from municipal solid waste and the identification of certain
10 types of electronic equipment that pose an increased threat to public
11 health and the environment, as defined in this act.

12 The legislature also finds that manufacturers bear a responsibility
13 for implementing collection and recycling programs for the electronic
14 equipment that they manufacture. The legislature also finds that
15 manufacturers can play an intricate role in the diversion of electronic
16 equipment from the waste stream by establishing collection, recycling
17 and disassembly centers for the electronic equipment they manufacture.

18 The legislature also finds that jobs are created through disassembly
19 and recycling programs. Therefore, this legislation would provide the
20 dual purpose of protecting the environment and job creation.

21 The legislature further finds that electronic equipment should not be
22 managed as part of municipal solid waste due to their content of one or

1 more toxic materials and high market saturation. The legislature also
2 finds that new alternatives must be sought for the management of elec-
3 tronic equipment.

4 S 2. Short title. This act shall be known and may be cited as the
5 "electronic equipment recycling act of 2009".

6 S 3. Article 27 of the environmental conservation law is amended by
7 adding a new title 29 to read as follows:
