AN ACT to amend the social services law, in relation to child day care; and to amend the environmental conservation law, in relation to integrated pest management procedures in child day care settings

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Legislative findings. The legislature hereby finds that
2 young children, including those in day care and head start centers, are
3 at a disproportionate risk to environmental hazards such as pesticide
4 exposure. Due to their smaller body size, developing organ systems and
5 predilection for hand-to-mouth behaviors, they are exposed to and absorb
6 more toxic substances per pound of body weight than adults. Therefore
7 the legislature finds that special protective measures, like integrated
8 pest management programs, are necessary.
9 S 2. Subdivision 3 of section 390-a of the social services law, as
10 added by chapter 416 of the laws of 2000, paragraph (b) as amended by
11 chapter 552 of the laws of 2003, is amended to read as follows:
12 3. (a) The office of children and family services shall promulgate
13 regulations requiring operators, program directors, employees and
14 assistants of family day care homes, group family day care homes,
15 school-age child care programs and child day care centers to receive
16 [thirty] THIRTY-TWO hours of training every two years; provided, howev-
17 er, that [fifteen] SIXTEEN hours of such training must be received with-
18 in the first six months of the initial licensure, registration or
19 employment. Such training requirements shall also apply to any volunteer
20 in such day care homes, programs or centers who has the potential for
21 regular and substantial contact with children. The [thirty] THIRTY-TWO

The office of children and family services may provide this training through purchase of services.

(ii) nutrition and health needs of infants and children;

(iii) child day care program development;

(iv) safety and security procedures;

(v) business record maintenance and management;

(vi) child abuse and maltreatment identification and prevention;

(vii) statutes and regulations pertaining to child day care;

(viii) statutes and regulations pertaining to child abuse and maltreatment; [and]

(ix) education and information on the identification, diagnosis and prevention of shaken baby syndrome[.]; AND

(X) ENVIRONMENTAL HEALTH AND SAFETY MEASURES, INCLUDING INTEGRATED PEST MANAGEMENT PROCEDURES AS DEFINED IN SUBDIVISION FIFTY OF SECTION 33-0101 OF THE ENVIRONMENTAL CONSERVATION LAW AND OTHER METHODS FOR LIMITING EXPOSURE TO TOXIC SUBSTANCES.

(c) For the [thirty] THIRTY-TWO hours of biennial training required after the initial period of licensure or registration, each provider who can demonstrate basic competency shall determine in which of the specified topics he or she needs further study, based on the provider's experience and the needs of the children in the provider's care.

(d) Family day care home and group family day care home operators shall obtain training pertaining to protection of the health and safety of children, as required by regulation, prior to the issuance of a license or registration by the office of children and family services.
